\*As the impact of COVID-19 has been significant since February 2020, the change in fluctuation compared with 2019 is also stated.

<Special Items>

The number of inbound visitors in February 2023 continued its overall recovery trend which was 56.6% of the same month in 2019 and the same level with last month, despite a month-over-month decline of inbound visitors from Taiwan, Hong Kong, and other countries after the Chinese New Year. On the other hand, domestic accommodation demand remained steady due to the national travel subsidy program, etc. As a result, RevPAR for the total of the 25 Hotels with Variable Rent, etc. owned by JHR in February 2023 was 88.4% of RevPAR for the same month in 2019.

Under such circumstances, we are working with operators of each hotel to maximize sales by creating attractive products that fully utilize the characteristics of the properties we own, providing added value, and effective marketing measures. In the meantime, we will continue to strive for cost management and streamlining operation in order to achieve continuous recovery and growth of hotel performance.
