The corporate governance of Fuyo General Lease Co., Ltd. (the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

The Company believes that placing importance on relationships with shareholders, customers, employees, local communities, and various other stakeholders and engaging in honest and fair business activities to achieve the performance targets of “Fuyo Shared Value 2026”, the medium-term management plan for fiscal 2022 to fiscal 2026, in accordance with the Fuyo Lease Group’s Mission/Vision/Value are the foundation of corporate governance and the most important task of management.

[Reasons for not Implementing the Principles of the Corporate Governance Code]

The Company has implemented each principle of the Corporate Governance Code.

[Disclosure Based on the Principles of the Corporate Governance Code]

Our basic views on Corporate Governance, the governance structure, operating policy, and other aspects of corporate governance are set forth in our Corporate Governance Guidelines (hereafter, “Guidelines”), on the Company’s website. They can be viewed at the following URL:
<https://www.fgl.co.jp/eng/sustainability/corporate/governance.html>.

[Principle 1.4 Basic Policy on Cross-Shareholding and the Exercise of Voting Rights Pertaining to Cross-Shareholdings]

See Article 7 in the Guidelines. An overview of due diligence on cross-shareholdings of listed companies by the Board of Directors as of March 31, 2022 is disclosed in the Securities Report for Period 53. See EDINET (Electronic Disclosure for Investors’ NETwork), hosted by the Financial Services Agency.

[Principle 1.7 Related Party Transactions]

See Article 8 in the Guidelines.

[Supplementary Principle 2-4 (1)] Ensuring diversity in the appointment core personnel

(1) Approach to Ensuring Diversity

We believe that diversity is a key growth driver and bringing together different strengths, viewpoints and values generates the innovation that creates new value, and leads to sustainable growth for the Group. We are working to promote diversity with the goal of creating a workplace where every employee can

maximize their full potential, regardless of age, sex, nationality, sexual orientation, gender identity, race, ethnicity or disability.

Given a background of responding to diversifying market needs, we consider empowering women in the workplace to be a particularly important management priority. To secure talented human resources, we are working on measures to promote roles for women aimed at creating an environment in which women can demonstrate their abilities and play an active role.

(2) Voluntary and Measurable Goals for Ensuring Diversity

The current status (as of the end of March 2022) and targets for women, non-Japanese, and mid-career hires in our company are as follows.

- ① Ratio of female employees in management positions (※) Current: 29.5% / Goal: 35% or more (by end of FY 2026)
- ② Appointment of non-Japanese managers Current: 0 / Goal: About 2 (by the end of FY2030)
- ③ Appointment of mid-career hire managers Current: 126 / Goal: Current status

(※...In this report revised in December 2021, the target was set at 30% or more (by the end of FY2021) , and we had been promoting the employment of women. However, we could not achieve the target due to an increase in the number of male managers hired mid-career. The target level and achievement period have been changed in line with the plan based on the Act on the Promotion of Women's Participation and Advancement in the Workplace.)

(3) Human resource development policy and internal environment policy and status to ensure diversity

As the needs of our stakeholders are constantly changing, diversifying and becoming more sophisticated, we believe that each and every one of our diverse employees needs to be able to "think for themselves and make the right choices" in order to realize the mission assigned to them. In addition to on-the-job training (OJT), we provide group training in legal affairs, taxation/accounting, finance, financial analysis, product knowledge, and thinking business skills at a wide range of levels.

In addition, the basic idea of our evaluation system is to fairly and equitably evaluate the achievements of each of our diverse employees and their efforts to develop their abilities and realize their role tasks. In addition to clarifying strengths and challenges through feedback from evaluators and setting new challenges, which leads to employee growth, we have also introduced a "Job Posting System" and a "Job FA System" to encourage autonomous growth and challenges, and to help employees realize their career plans.

[Supplementary Principle 4-10 (1)]

The Company has established the Nomination and Remuneration Advisory Committee as a voluntary advisory body to the Board of Directors (establishment date: November 5, 2015).

The Company believes that in order to expand its business domain while appropriately responding to discontinued and rapid changes in the business environment, it is important to have officers on the Board of Directors who have a wide range of skills (knowledge, experience, ability, etc.) to practice effective supervision while taking a broad view of such changes.

The areas (skills matrix) that we expect from each director and audit & supervisory board member, based on their expertise and experience, in order to steadily implement the Group's medium-term management plan and achieve its goals are as shown in Reference Material 2.

[Supplementary Principle 4-11(2)] Concurrent Appointments of Directors and Audit & Supervisory Board Members

Significant concurrent appointments of directors and audit & supervisory board members are disclosed in the Business Report and in the Reference Documents for the General Meeting of Shareholders in the Notice of the 53rd Annual General Meeting of Shareholders.

[Supplementary Principle 4-11(3)] Analysis and Evaluation of Overall Effectiveness of the Board of Directors

All directors and audit & supervisory board members were surveyed and interviewed as needed to analyze and evaluate the overall effectiveness of the Board of Directors. The results were discussed and recommendations issued by the Nomination and Remuneration Advisory Committee (supported by an advisory attorney who serves as the administrative office), which has a majority of independent directors as committee members. The recommendations were implemented in Board of Directors meetings.

The outline of the analysis / evaluation results for FY2021 is as follows.

1. While the Board of Directors met all evaluation criteria, including size, composition, functions and roles, as well as operation, and was found to be effective, we concluded that we must still steadily implement measures to improve the functioning of the Board of Directors, make those activities part of our daily operations, and continually review the Board's functions to accommodate changes in the internal and external environments.
2. The status of addressing the issues in the previous analysis and evaluation is as follows
 - Issue 1 "Further Improvement of Board of Director Functions" : The composition of the Board of Directors has been enhanced by the election of one female director at the Annual General Meeting of Shareholders in June 2021 and by the development of a skills matrix for the Board of Directors to be used in the deliberations of the Nomination and Remuneration Advisory Committee. In addition, in the process of formulating the current medium-term management plan, a forum was set up for discussion with outside officers (four times in total), separately from discussions at the Board of Directors meetings. The Board of Directors' functions have been further enhanced by deepening discussions on medium- to long-term management and business environment, and by reviewing monetary criteria for items to be brought before the Board of Directors with a focus on strategic importance and expanding the scope of delegation to the execution of duties.
 - Issue 2 "Further Deepening of CSV Management" : In the current medium-term management plan, we have set forth a vision of implementing CSV, and have also organized and examined each business domain strategy from the perspective of CSV, thereby further deepening CSV management.
 - Issue 3 "Further Enhancement of information provision to outside officers" : In addition to the provision of management meeting materials and minutes, opportunities to sit in on meetings with department and branch managers have been provided to further enhance the provision of information.

We also recognized the need to further improve the functions of the Board of Directors by having a director other than the executive directors chair the Board of Directors meetings in principle, to further enhance deliberations and reporting by the Board of Directors to steadily promote the medium-term management plan and further deepen CSV management, and to further enhance information provision to outside officers.

The Company's Board of Directors will take further steps to improve the functioning of the Board of Directors and work toward further improvement in effectiveness, based on the results of the analysis and evaluation described above.

Disclosure of Policy on Determining Remuneration Amounts or Calculation Methods

The Company has determined by a resolution of the Board of Directors the method of deciding the "decision policy regarding the content of individual remuneration of directors". When determining individual remuneration for directors, the basic policy is to set the level at an appropriate level based on individual responsibilities. In addition to basic remuneration paid as fixed remuneration, performance-linked remuneration and stock remuneration are introduced as variable remuneration. Regarding the ratio of each remuneration, the ratio of variable remuneration to basic remuneration 1 is set to 0.7 based on the average ratio of listed companies. The breakdown of variable Remuneration is that the ratio of performance-linked Remuneration to stock Remuneration is 5: 7, and the ratio of medium- to long-term incentives is increasing. The basic remuneration is within the range of the remuneration limit approved at the general meeting of shareholders, and the basic remuneration for each individual according to the position is based on the general level of employee remuneration and executive remuneration of the Company and the business condition of the company. The appropriateness and appropriateness of determining the amount is decided by a resolution of the Board of Directors after deliberation and report by the Advisory Board for Nomination and Remuneration. The basic remuneration may be temporarily reduced by a resolution of the Board of Directors after deliberation and report by the Advisory Board for Nomination and Remuneration depending on the company's business performance and other reasons.

Performance-linked remuneration shall be based on 26% to 35% of the annual amount of basic remuneration, depending on the position, within the range of remuneration approved at the general meeting of shareholders, and shall be in accordance with the executive performance-linked remuneration rules separately established by the Company. The amount to be paid is determined by a resolution of the Board of Directors after deliberation and reporting by the Advisory Board for Nomination and Remuneration within the range of 0 to 200% of the standard amount, depending on the consolidated performance of the company in the fiscal year preceding the payment date, the degree of contribution of each person to the company performance, the status of efforts to address medium- to long-term management issues, etc.

It consists of two parts: a part linked to applicable indicators such as the company's consolidated business performance (hereinafter referred to as "applied index linked portion") and a part reflecting the individual evaluation of each director (hereinafter referred to as "individual evaluation portion "). The composition ratio is determined for each position. The "applied index-linked portion" is calculated from financial metrics like balance of operating assets, ordinary profit, ROA etc. The "individual evaluation portion" is determined by the president based on the performance and qualitative evaluation of the section of business the director is in charge of.

Performance-linked remuneration may be reduced or not paid if the director inflicts great material loss to the company or if the director is on long-term leave due to illness treatment.

The performance indicators that form the basis for calculating the amount of performance-linked remuneration are divided and set into financial items, which are important performance evaluation indicators, and non-financial items of environment and human capital investment, in order to achieve the medium-term management plan "Fuyo Shared Value 2026". The financial items are consolidated ordinary profit, consolidated ROA, consolidated shareholder's equity ratio and consolidated ROE. Non-financial items are the amount invested in the promotion of decarbonization (non-consolidated) and human resources development-related expenses (non-consolidated).

[Calculation method of performance-linked remuneration]

Performance-linked remuneration amount = payment standard amount for each position x performance-linked payment coefficient (*)

(*...Consolidated ordinary profit, "consolidated ROA," and "consolidated shareholder's equity ratio" are calculated by combining the percentage of achievement against the target value and the ratio against the same period of the previous fiscal year. Consolidated ROE" is 100% when achieved, and when not achieved, it is calculated as the ratio of the actual value to the target value. Non-financial items are calculated based on the percentage of achievement compared to the target value. For directors under the Senior Managing Director, the performance of the business under their jurisdiction and qualitative evaluation are taken into consideration, and the individual evaluation decided by the president is also reflected.)

For stock Remuneration, we have introduced a "stock benefit trust (BBT (= Board Benefit Trust))", which is based on the directors' stock benefit regulations resolved by the Board of Directors within the Remuneration limit approved at the general meeting of shareholders. If a director retires after satisfying the eligibility requirements, they will acquire the right to receive benefits of the Company's shares acquired by the Trust according to their position and term of office on the date of resignation. If it is resolved for a director is to be dismissed at a general meeting of the shareholder, or if a director retires during tenor because of certain misconduct, or if there is any inappropriate behavior that might damage the company during tenor, the director will not have the right to receive benefits.

For outside directors and corporate auditors who are supervisors, performance-linked remuneration and stock remuneration are not suitable, so only fixed remuneration is provided.

Regarding the amount of individual remuneration for the directors of the Company, Hiroaki Oda, Director and CEO, who supervises and controls the business activities of each department as the chief executive officer and evaluates the directors in charge of each department, who based on the resolution of the Board of Directors, is entrusted with the determination of the amount of performance-linked remuneration to be paid to directors and the specific details regarding the timing of payment. After deliberation and report by the Nomination and Remuneration Advisory Committee, the appropriateness of the evaluation method of performance-linked remuneration and the appropriateness of the calculated remuneration amount should be examined and reported so that the authority can be exercised appropriately; the Director and CEO decides the amount and timing of performance-linked remuneration to be paid to each director.
