**[Monthly comment]**

In March, net sales totaled 113.6% for existing stores compared with the previous year and 122.7% for all stores.

Due to factors including favorable sales of spring apparel following the previous month with temperatures being high, favorable sales of brand items with growth of sales to foreign tourists, growth of sales of home appliances with demand arising from people starting new chapters in their lives and robust sales of items including hobby-related items and furniture, sales for both existing stores and all stores increased year on year.
