*Figures in parentheses indicate the number of franchise stores.

[Monthly comment]

In April, net sales totaled 114.0% for existing stores compared with the previous year and 124.0% for all stores.

Due to factors including favorable sales of spring and summer apparel with the rise in temperature as well as increase in demand to go out, favorable sales of brand items with growth of sales to foreign tourists, robust sales of items such as home appliances, hobby-related items and furniture, and increased customer visits due to the sales promotion campaign conducted in early April, sales for both existing stores and all stores increased year on year.
