KAIZEN the World

KAIZEN the world with a smooth working style

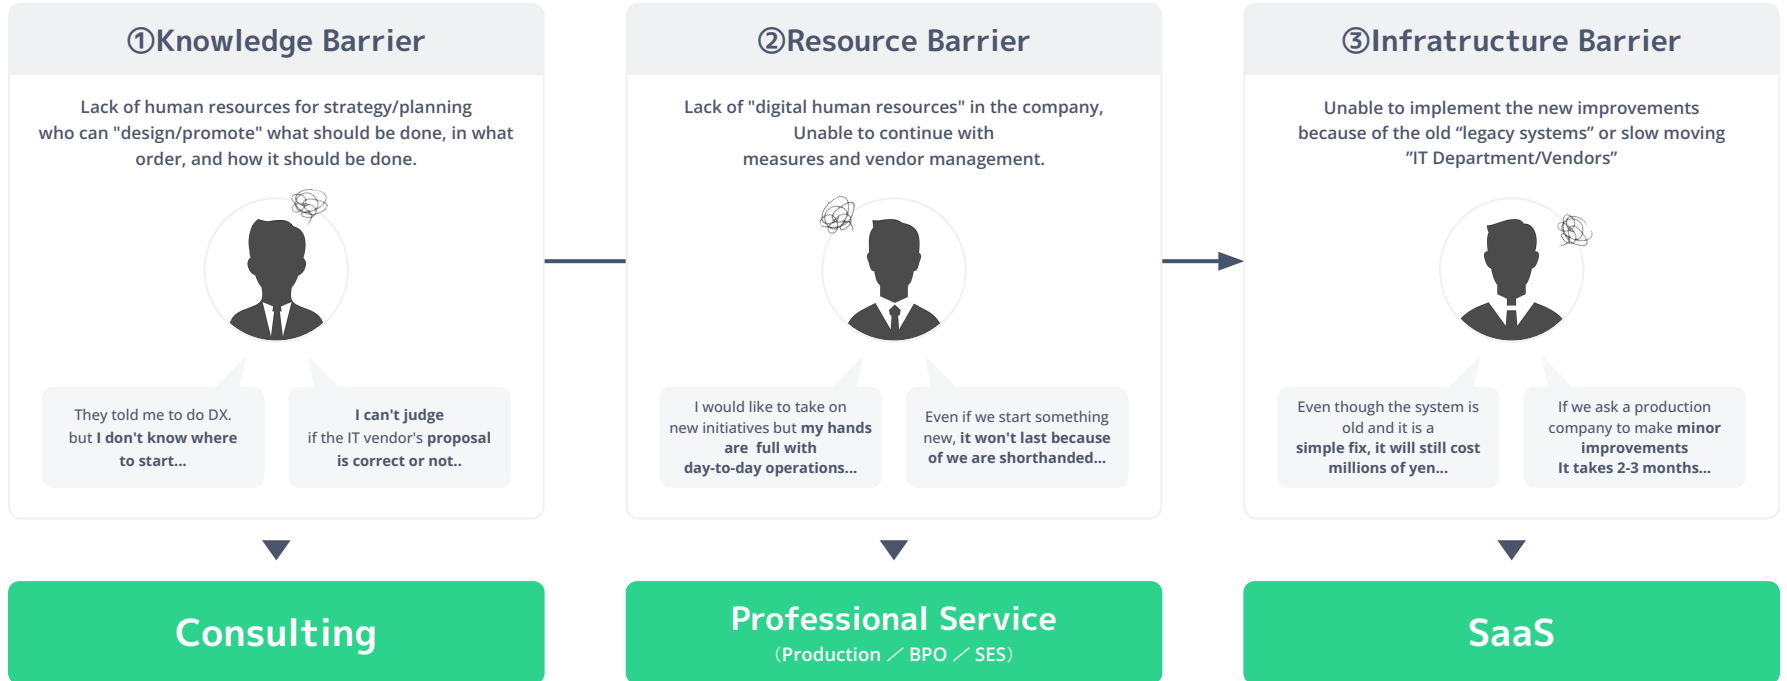

Aiming for a DX-accelerated society

Become a DX Acceleration Partner

Three barriers exist to improve customer experience on digital and achieve business growth.

We provide a combination of

"Consulting," "Professional services," and "SaaS" to overcome these barriers.

Improve the client's digital "customer experience" to support their "business growth"

The aggressive DX market will expand significantly, followed by the expansion of the even larger "marketing" and "DX (development)" markets.

Both marketing and development needs will increase with customers' DX progress

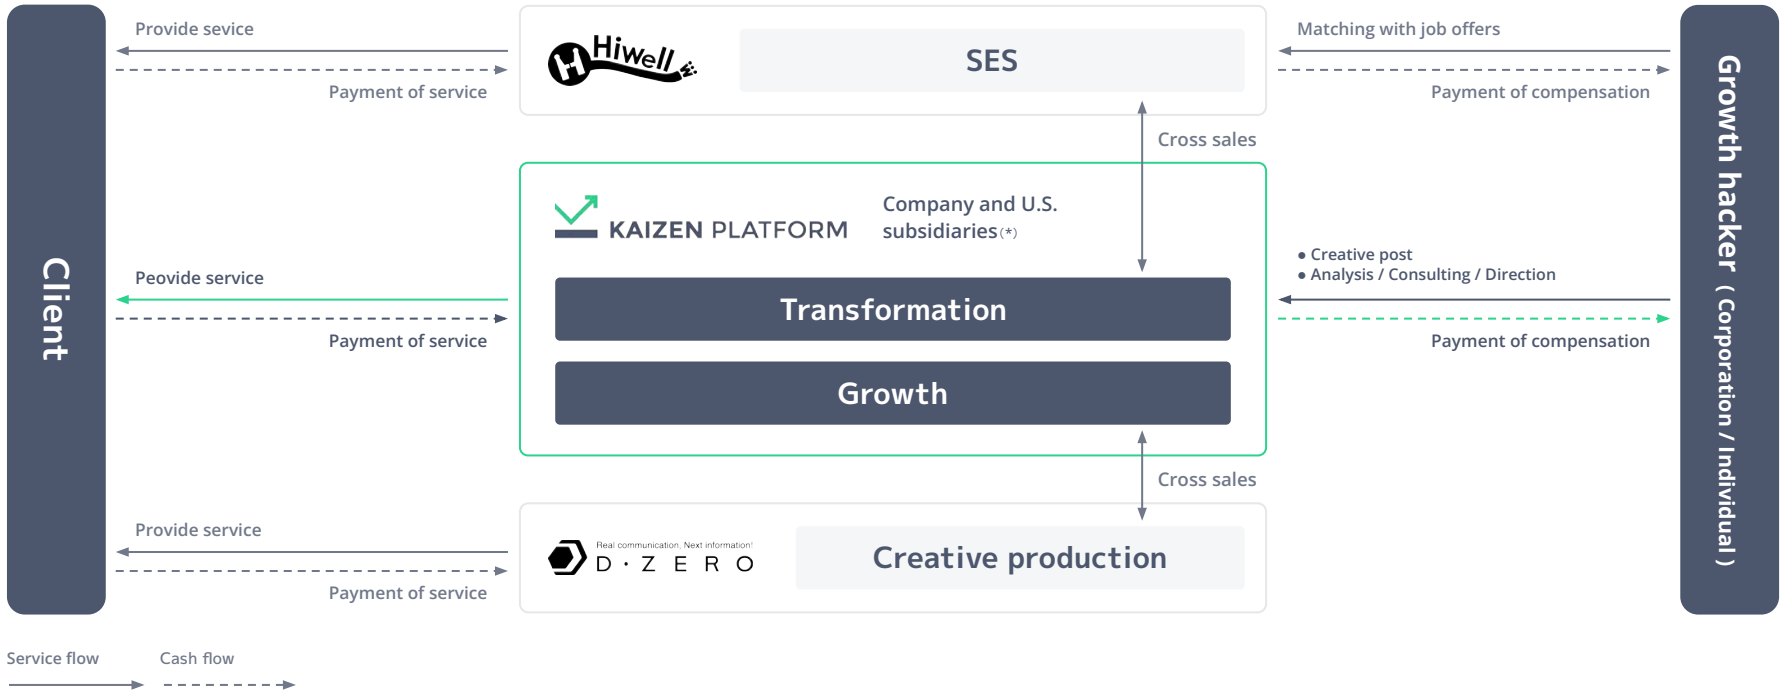

A system to thoroughly to meet customer needs as a group

Shift from a "product-based business" to a "structure that responds to customer issues" as a partner that accompanies customers and accelerates aggressive DX.

Maximize consulting capabilities for
a structure that starts upstream and earns revenue downstream (production/BPO/SES)

We are dedicated to PM (project management) and support. We team up with growth hackers on the platform to execute DX projects maintaining elasticity of variable costs

3 Future Growth Strategy

AI has been acquiring human skills one after another since last year, and over 100 new AI tools are emerging every day

The democratization of AI that anyone can use even without being an expert has begun

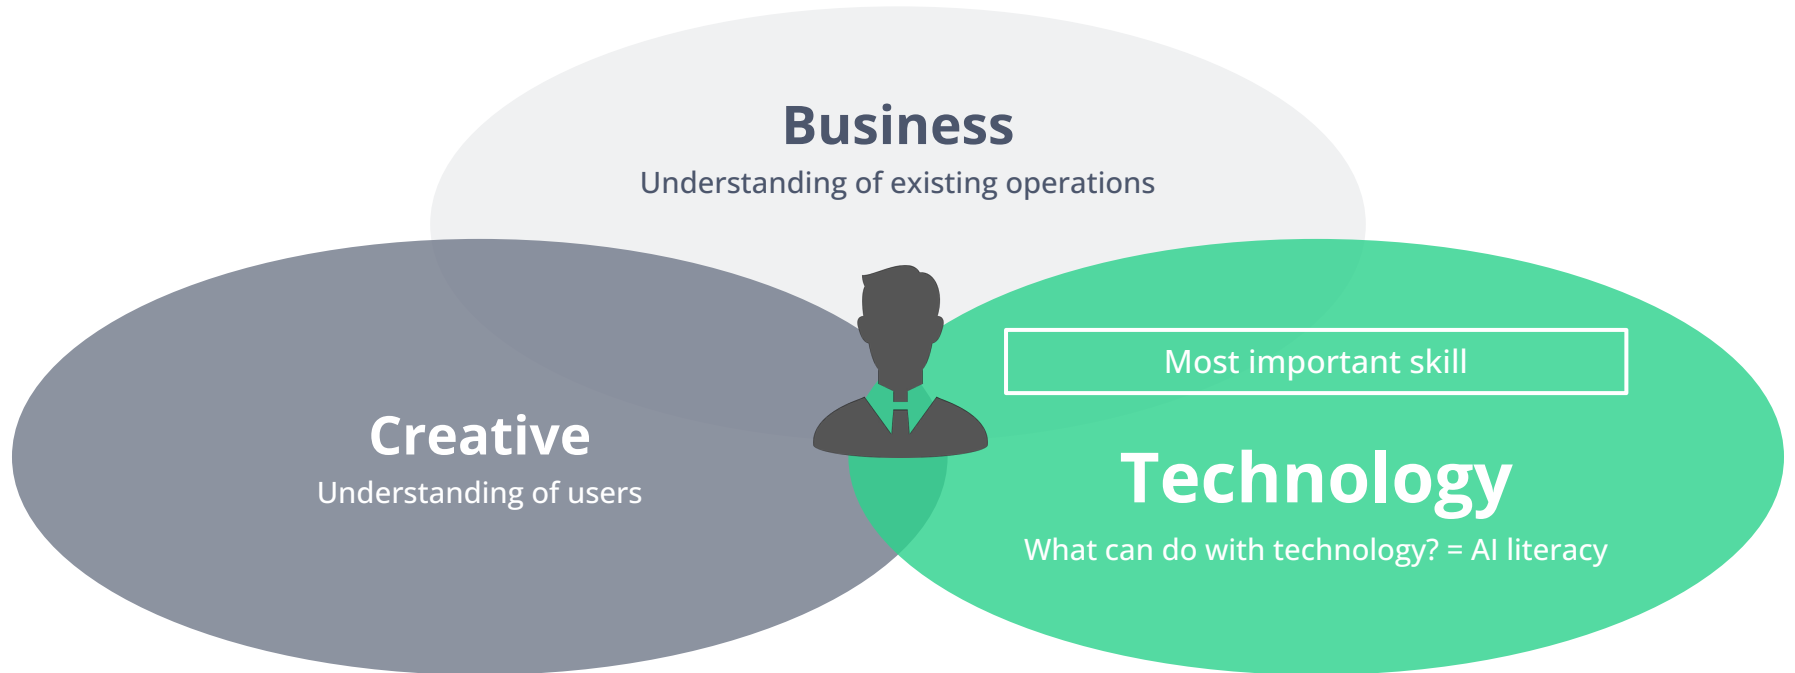

Eyes	Text recognition / Image recognition / Video recognition
Ears	Voice recognition
Mouth	Speaking / Moving mouth to match speech
Understanding	Summarizing / Understanding situations
Emotion	Emotional recognition / Emotional expression
Creation	Draw pictures / Create video / Create UI / Produce ideas
Knowledge	Answer questions / Code programs
Operation	Operate UI

The era of DX of “customer experience” and “business processes” being connected by AI has arrived due to the emergence of generative AI such as ChatGPT and GPT-4

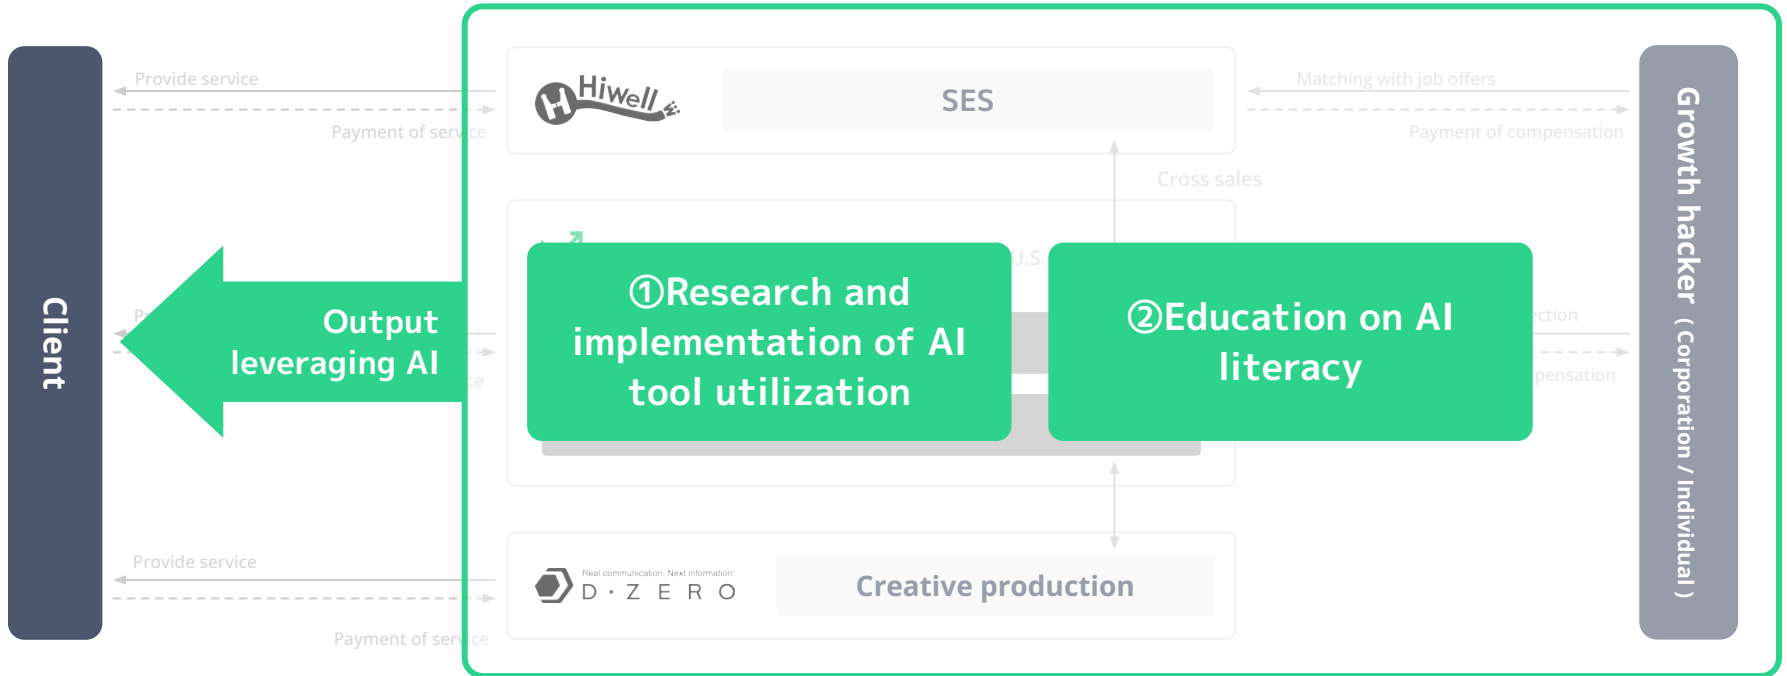

Can correctly determining what AI can do and what the risks are in previously existing DX Human Resources requirements

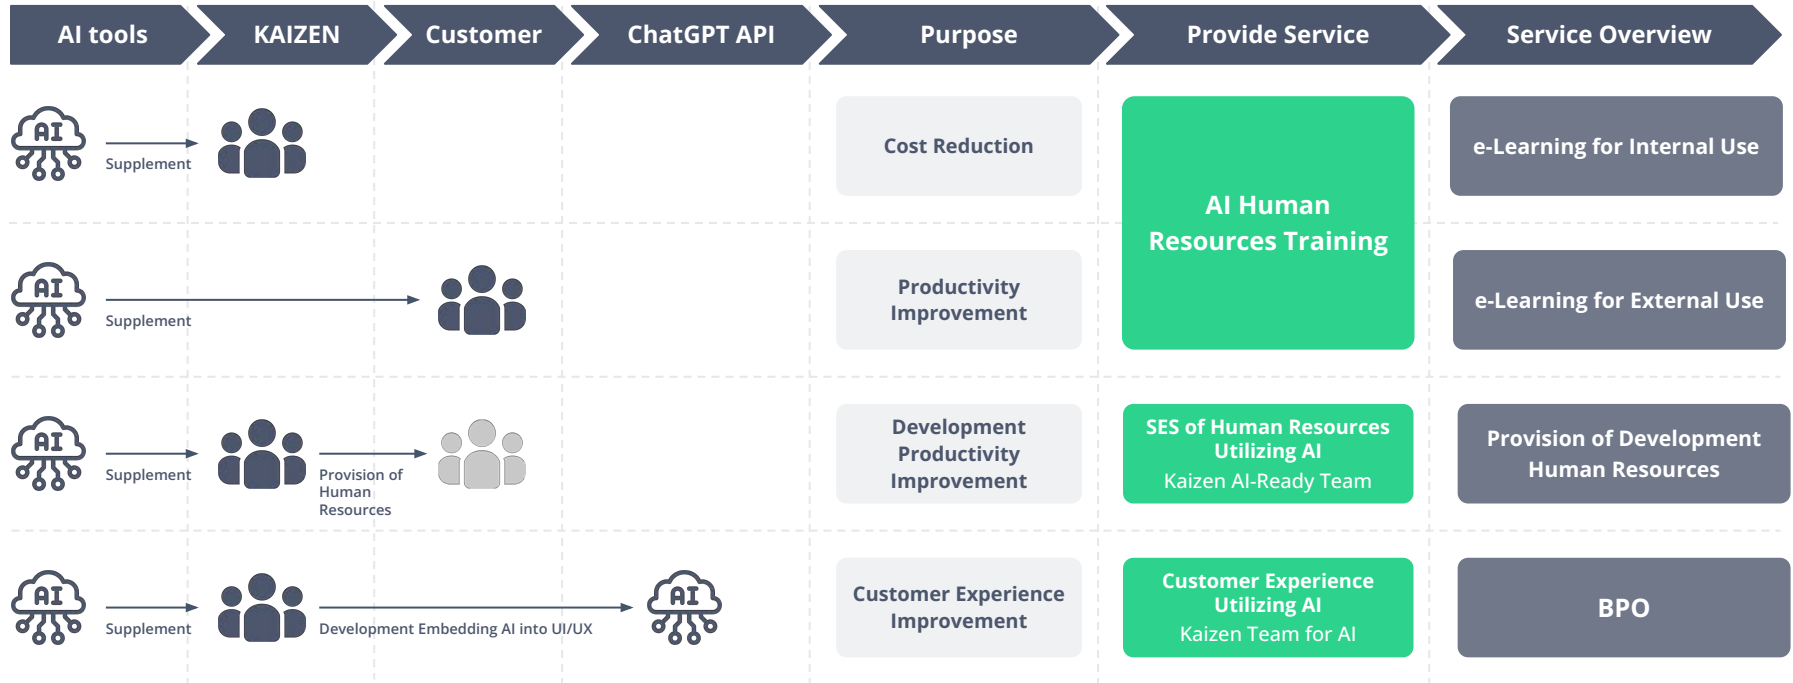

It is necessary to increase AI literacy, and this was determined to be **the most important skill for accelerating DX**

Toward a policy of actively considering the utilization of AI in all businesses throughout the entire Kaizen Platform Group
 Develop an AI human resource development program that can be used immediately in operations for engineers, designers and business
 It is anticipated to start with development for in-house use and later be sold externally

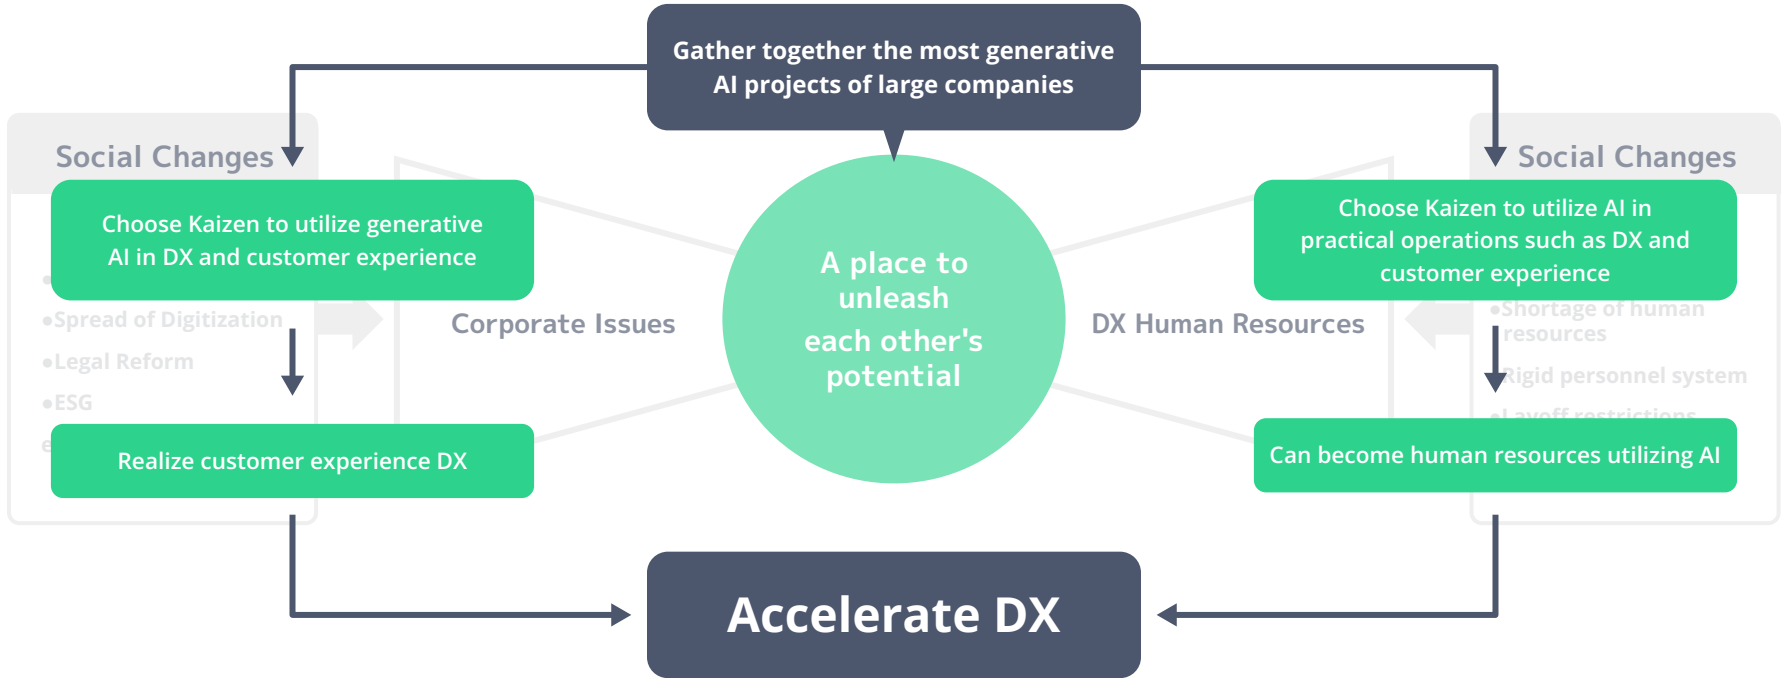

Develop human resources able to utilize generative AI, and provide existing customer experience DX while seeking to evolve into BPO embedding AI

It is important to create a place for DX projects by generative AI to be gathered to accelerate DX

Keeping the position of “the place where the best generative AI projects are gathered in Japan” is very important for acquiring both customer and human resources

We will invest to strengthen our position as a platform in the growing DX market, aiming to become a DX EMS*

Appendix

By Segment : Number of Transaction Accounts and ARPU (Cumulative)

Growth

In the turnaround of the former Video segment, it is anticipated to bounce back in around the second half

Transformation

ARPU (Q1 Cum) Unit: Thousand JPY

Revenue (Q1 Cum) Unit: Thousand JPY

Transformation

The strategy of concentrating on major customers has succeeded in raising ARPU. Fewer trading accounts by narrowing the target for new small-lot trading accounts

Accumulation of profit by recurring model

A change in strategy to narrow the focus to customer targets that are easier to cross-sell to has resulted in a rearrangement of the customer portfolio.

Improvement in the recurring ratio due to the shift from one-off sales to recurring sales will be carried over to FY2023
