##### (2) Reason

The Company pays dividends to its shareholders with an emphasis on its progressive dividend policy, which provides consistent and stable dividends.

In addition, in order to increase corporate value sustainably in the future, we will continue to make growth investments, such as the development of low-CO2 vehicles and the construction of a new plant in our expanding Indian market.

In light of the above, we propose to pay an annual dividend of 100 yen per share for the current fiscal year, an increase of 9 yen from the previous fiscal year, in order to balance shareholder returns with growth investments.

As we paid an interim dividend of 50 yen per share, this will result in a year-end dividend of 50 yen per share.
