(Regarding changes in the calculation method for profit or loss of reporting segments)

Management guidance fees paid by group companies, which were previously included in each reportable segment's profit, are included in the segment profit adjustment as a corporate expense beginning in the current consolidated fiscal year in order to more accurately present each segment's operating results. Segment information for the previous consolidated fiscal year is based on the classification and the calculation method for profit or loss after the change.

1-04 FY03/23 Funeral Services Segment (YoY)

(Millions of yen)

	Net sales		YoY change		Operating profit		YoY change	
	FY03/23	FY03/22	Change	Percentage (%)	FY03/23	FY03/22	Change	Percentage (%)
Funeral Services	11,943	9,384	2,559	27.3	4,200	3,233	967	29.9

Operating environment

- Despite the continuing trend toward the simplification of funerals, demand for funeral halls, confectionery, beverages and waiting rooms increased due to a rise in the number of visitors.

Net sales

- ↑ The number of funerals and times that waiting rooms were used increased year on year.
- ↑ Despite the spread of COVID-19 between around August and December of 2022, there were no restrictions on movement, resulting in the suppression of the trend toward the simplification of funerals. Fees in relation to the use of funeral halls, confectionery, beverages and waiting rooms recovered year on year.

Operating profit

- ↑ Profit improved due to increased sales related to the use of funeral halls, confectionery, beverages and waiting rooms.
- ➡ Introduced a surcharge-type variable fee due to soaring fuel costs (implemented from June 2022)

1-05 FY03/23 Information Segment (YoY)

	Net sales		YoY change		Operating profit		YoY change	
	FY03/23	FY03/22	Change	Percentage (%)	FY03/23	FY03/22	Change	Percentage (%)
Information	18,047	19,120	-1,073	-5.6	833	729	104	14.3

Operating environment

- Demand for publication printing continued to decline. Competition intensified in business for BPO-related needs of government and municipal agencies.

Net sales

- ↓ BPO: Public works projects related to COVID-19 shrank and competition intensified. There was a reactionary decrease in the previous fiscal year's COVID-19-related special demand in Q4.
- ↓ Printing: Although there were strong projects for some titles in publishing and printing, decreases in the number of new editions and reprints and the shrinking trend in commercial printing continued.
- ↓ Package Printing (China): Sales in China deteriorated due to lockdowns, etc.

Operating profit

- Printing-related: Despite improvement of the in-house production rate (factory utilization rate), work allocation continued to decrease year on year.
- ↑ Printing-related: Improved for the full year due to significant improvement in Q1 (after profit had deteriorated in the previous fiscal year due to inadequate facility upgrades).
- ↑ BPO: Despite a reactionary decrease in Q4 from the completion of large-scale projects in the previous fiscal year, full-year profits were secured.

Net sales

- ↑ HR Media/HR Tech: YoY growth in HR media and HR tech services for the full year.
- ↑ Temporary staffing: Higher sales at Career Station Inc. (clerical temp staffing in Niigata) and NT Co., Ltd. (logistics temp staffing in Saitama) contributed to higher sales.
- ↑ Recruitment: The domestic recruitment business performed firmly year on year.
- ↓ BPO: A reactionary decrease in COVID-19-related special demand for BPO projects in the previous fiscal year.

Operating profit

- ↑ HR Media/Temporary staffing: Despite an increase in advertising expenses, overall profit increased year on year due in part to higher sales thanks to the effect of advertising.
- ↓ BPO: A reactionary decrease in COVID-19-related special demand for BPO projects in the previous fiscal year.

To put our corporate philosophy of “contributing to society at large” into action, we have identified and are acting on four materialities that contribute to the SDGs.

As our company name (KOSA “iDO”) implies, we aspire to take action (“DO”) together with our stakeholders, including our employees, to solve societal issues and create a bright future.

Economy

Providing wide-ranging support

Value creation for sustainable economic activities

Even in a fast-changing world, we will create value in collaboration with others as an innovator of sustainable economic activities with flexibility unconstrained by preconceived assumptions, in keeping with our company name, "Kosai," which means contributing to society at large and is in our DNA.

Society

Live in harmony with others

Developing equitable and diverse communities

In the coming era where people live for 100 years, we will serve as a facilitator of local communities, “putting care first,” so that everyone can choose their own way of life and achieve a lifestyle of freedom both physically and mentally.

Company that guides the future in a positive direction

Environment

Protect our future

Reduce environmental burden to leave a beautiful earth to future generations.

We will strive to safeguard the Earth by reducing greenhouse gas emissions and conserving ecosystems so that the next generation of children and living creatures can coexist in harmony, and we will work with our partners to further reduce environmental risks.

Corporate Culture

Connect with smiles

Sound corporate management characterized by transparency and dialogue

We will not only comply with laws and regulations, but also promote "respect for human rights," "gender equality," and "women's empowerment" based on the SDGs' universal values, so that no one is left behind. As a result, each of us will be a mood maker who fosters a rewarding workplace and maintains a communication-rich corporate culture.
