

Notice of the 104th Ordinary General Meeting of Shareholders

MITSUI & CO., LTD.

Note: This document has been translated from Japanese original for reference purpose only, without any warranty as to its accuracy or as to the completeness of the information. The Japanese original version is the sole official version.

Dear Shareholders,

Thank you for your ongoing support extended to Mitsui & Co. I hereby present a notice of the convocation of the 104th Ordinary General Meeting of Shareholders.

The fiscal year ended March 31, 2023 was the final year of our Medium-term Management Plan. It was a time of significant changes in the business environment, including heightened geopolitical risks, an escalating worldwide inflationary trend, and an accelerating shift toward decarbonization. Despite this environment, Mitsui & Co. was able to set record-highs for both net profit and Core Operating Cash Flow, by generating strong earnings through our geographically-diversified and expansive business portfolio and trading functions that ensure stable supplies.

In our new, three-year Medium-term Management Plan, which kicked off on April 2023, we adopted a theme of “Creating Sustainable Futures”. Although the world continues to face elevated economic uncertainty, we are determined to work from global and cross-industry perspectives to identify social issues across every industry, form strong business clusters, and create new industries through business innovation, while adhering to our comprehensive risk management approaches. With the generous support of our shareholders, and with a continuing commitment to sustainability as a responsible global corporation, we will strive to create new value in the spirit of “Challenge & Innovation” engrained in each and every employee and through the concerted efforts of the entire Mitsui & Co. group.

On behalf of Mitsui & Co., I would like to convey my sincere wishes for the health and success of all our shareholders, and to ask for your continued, kind support and encouragement.

May 2023

Kenichi Hori
Representative Director, President and Chief Executive Officer
Mitsui & Co., Ltd.

Information on Gift Drawing upon Exercising Voting Rights via QR Code

After exercising your voting rights via 株主総会ポータル(Shareholders' Meeting Portal) as stated on page 6-7, there is a questionnaire survey for you to inform us your concerns prior to the Meeting. We will respond to the matters, that we receive prior to the Meeting and are of particular concern to shareholders, on the day of the Meeting. Furthermore, to 3,000 individual shareholders, selected by drawing from among the shareholders who have answered the questionnaire survey, we will be presenting "THE SHARKBAY SALT MILL SET," a product handled by the Salt Dept. of the Chlor-Alkali Div. at the Mitsui & Co. Basic Materials Business Unit.

The Company has been operating a salt business for more than 50 years through Shark Bay Salt Pty Ltd, a wholly owned subsidiary, in the State of Western Australia's vast Shark Bay, which is registered as a world heritage natural site in 1991.

THE SHARKBAY SALT is manufactured by natural solar salt production, a method using the power of nature such as the sun, wind and differential height of terrain, and generating barely any greenhouse gases.

The Company strives to protect the environment of the Shark Bay marine area, which is a world heritage natural site, and plans to operate this sustainable salt business for many years in the future while co-existing with the indigenous peoples and local communities.

We actively update THE SHARKBAY SALT's brand website and Instagram on a regular basis. Please, by all means, check it out.

Important considerations pertaining to the livestream of the General Meeting of Shareholders

- Those viewing the Meeting via the livestream are not deemed to have attended the Meeting pursuant to the Companies Act of Japan and accordingly will not be able to exercise their voting rights on the day of the Meeting. As such, we ask that those viewing the proceedings via the livestream exercise their voting rights using the enclosed voting card or via the Internet, etc. prior to the Meeting.
- Please be aware that you may encounter issues regarding livestream video and audio due to factors that include the model, performance, etc. of your PC or smartphone, etc. or your Internet connection environment (line connection status, connection speed, etc.).
- The livestream may have video or sound issues, or be suspended temporarily due to system failure, the communications environment, etc. Furthermore, the Company assumes no responsibility whatsoever for any damages incurred by shareholders due to the communications environment, system failure, etc.
- The Company is making every effort to ensure the livestream of the Meeting. However, it may be stopped depending on the situation in the event that people are unable to participate due to some unforeseen matter, such as the deterioration of the communications environment, system failure, etc.
- The recording of sound, video or the publication of the proceedings of the livestream of the Meeting is prohibited as it may infringe on shareholders' portrait rights, etc.
- The Company limits access for viewing the livestream to shareholders only. It is strictly forbidden to share the shareholder ID and password for viewing the livestream with others.
- Shareholders are to assume responsibility for payment of telecommunications fees and other such costs incurred with respect to viewing the livestream.

Proposed Resolutions and Related Information

Item 1: Dividend of Surplus for the 104th Fiscal Year

Regarding the distribution of profits, to increase corporate value and maximize shareholder value, we seek to maintain an optimal balance between meeting demand for capital in our core and growth areas through the reinvestment of our retained earnings, and directly providing returns to shareholders by paying out cash dividends. Based on this profit distribution policy, taking into consideration Core Operating Cash Flow and Profit for the Year Attributable to Owners of the Parent in the 104th fiscal year as well as stability and continuity of the amount of dividend, we propose to pay a full-year dividend of ¥140 per share (including an interim dividend of ¥65) and a year-end dividend of ¥75 per share for the 104th fiscal year as follows.

(1) Type of Dividend Payment

Cash

(2) Matters Relating to the Dividend Payment and the Total Amount Distributed to Shareholders

Payment of ¥75 per ordinary share, for a total amount of ¥114,607,423,575

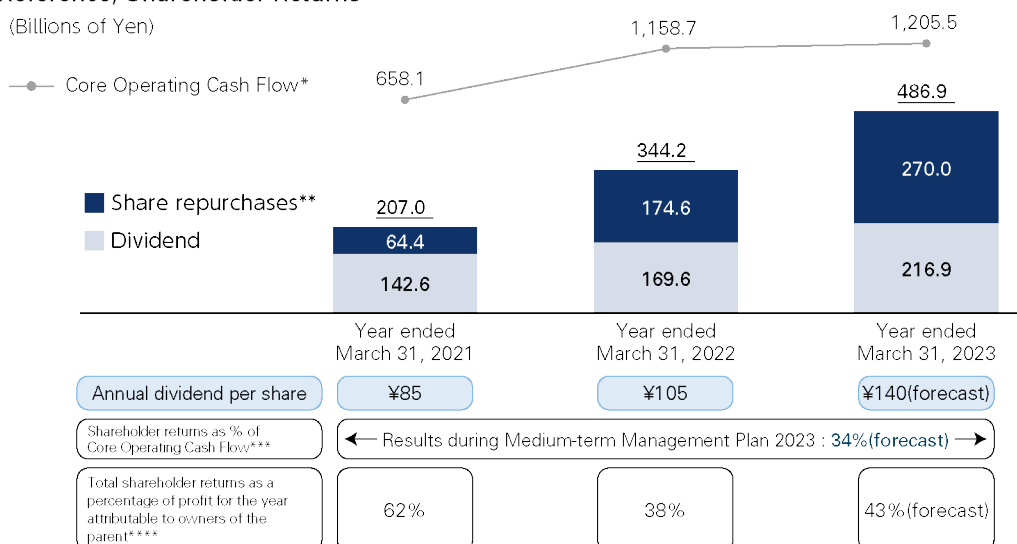

An interim dividend of ¥65 per ordinary share was paid in December 2022, which would result in a full-year dividend for the 104th fiscal year of ¥140 per ordinary share.

(3) Date the Dividend of Surplus will become Effective

June 22, 2023

(Reference) Shareholder Returns

(Billions of Yen)

*Cash flows from operating activities less changes in assets and liabilities related to operating activities, and less repayment of lease liabilities in cash flows from financing activities.

**The amount for the year ended March 31, 2021 does not include share repurchases for share-based compensation plan for employees of ¥6.9billion.

***Amount of shareholder returns÷Core Operating Cash Flow

****Amount of shareholder returns÷profit for the year attributable to owners of the parent

Note: The year-end dividend per share and full-year dividend per share for the 104th fiscal year (the current fiscal year), were calculated based on the assumption that this Item will be approved as proposed.

Item 2: Election of Fifteen (15) Directors

The terms of office for all the current fourteen (14) Directors will expire at the conclusion of this Meeting. Accordingly, the Company proposes to elect fifteen (15) Directors, increasing the number of External Directors by one (1) in order to strengthen the supervisory functions. The Board of Directors has determined the following candidates for the Director positions. Each candidate has received confirmation from all members of the Nomination Committee, an advisory body to the Board of Directors, in which External Members comprise a majority, that they all fulfill the necessary requirements based on the selection criteria formulated by the Nomination Committee.

1. Tatsuo Yasunaga*	(Date of Birth: December 13, 1960) 62 years old	Reelection	Term of office for Director: Eight (8) years (at the conclusion of this Ordinary General Meeting of Shareholders)

		<i>Reasons for Appointment as Director</i>	
		<p>Mr. Yasunaga served as General Manager of Corporate Planning & Strategy Division and COO of Integrated Transportation Systems Business Unit, etc. and then spent six (6) years from April 2015 to March 2021 as President of the Company. During this time, he showed outstanding managerial skills and made a significant contribution to the Company's growth. Since his appointment as Chair of the Board of Directors in April 2021, he has focused his efforts on external activities and on supervision of management and contributed to the operation of a highly effective Board of Directors. We have selected Mr. Yasunaga as a candidate for another term as Director so that he may utilize his wide-ranging management experience and deep knowledge of corporate governance to strengthen the Company's governance.</p> <p>Mr. Yasunaga's role as Chair of the Board of Directors of the Company chiefly involves carrying out supervision of management. He will not concurrently serve as a managing officer and will not be involved in the execution of day-to-day business operations.</p>

I. Business Review

1. Operating Environment

For the fiscal year ended March 31, 2023, the pace of global economic growth slowed further compared with the previous fiscal year due to the high inflation in the US and Europe and rapid tightening of monetary policy in response, the widening impacts of the Russia/Ukraine situation, and disruptions in the Chinese economy caused by its strict application of a “zero Covid” policy and the sudden abandonment of it at the end of the year. Further risks in the financial sector such as collapses of US regional banks emerged this spring.

The crude oil price soared last spring in response to the Russia/Ukraine situation and stayed at above US\$100/barrel before softening in the second half of the year as global economic growth slowed. The price stabilized at the US\$70-US\$80 level with support from the OPEC+ decision to cut production since autumn. The US economy saw a slowdown in its pace of growth with the dampening effects of rapid tightening of monetary policy on residential and equipment investment, although a tight labor market helped a continued recovery of household consumption despite the background of high inflation.

The European economy weakened with severe supply constraints on energy caused by the Russia/Ukraine situation and soaring consumer goods prices.

The Japan’s economy was in a phase of slow recovery with consumption in services and inbound tourist spending recovering as normalization of economic activities proceeded, although their impacts were attenuated by household restraint on consumption of goods in response to higher prices and sluggishness in exports.

China’s economic growth decelerated further last year due to its strict “zero Covid” policy and deterioration in the real estate market. But termination of the “zero Covid” policy toward the end of last year brought about a recovery in domestic demand such as the consumption of services. In Brazil, increases in policy interest rates up to the end of last year have weighed on economic recovery, while in Russia, the economy has been stagnant as economic sanctions imposed by the international community have led to a decrease in production.

The yen depreciated sharply against the U.S. dollar in the first half of the fiscal year, due to a widening difference of interest rates between the two currencies, with the yen temporarily depreciating to the ¥150 level in October. Since then, however, the yen has started to appreciate again due to background market expectation of a slowing pace of policy interest rate increases by the U.S. Federal Reserve Board (FRB), and it reached the ¥130 level at the end of the fiscal year.

2. Operating results, financial condition, etc.

1. Results of Operations

- Gross Profit for the year ended March 31, 2023 totaled ¥1,396.2 billion, an increase of ¥254.8 billion from the previous year. The Energy Segment reported an increase mainly due to higher sales prices in oil and gas projects. The Machinery & Infrastructure Segment reported an increase mainly due to the effect of newly consolidated subsidiaries and strong sales in the industrial machinery and construction equipment-related business. On the other hand, the Mineral & Metal Resources Segment reported a decrease mainly due to lower sales prices in the iron ore mining operations.

- Share of Profit (Loss) of Investments Accounted for Using the Equity Method for the year ended March 31, 2023 was ¥555.5 billion, an increase of ¥124.2 billion from the previous year. The Energy Segment reported an increase mainly due to higher sales prices in the LNG business. The Machinery & Infrastructure Segment reported an increase mainly due to automobile-related businesses such as truck leasing and rental business in the United States. On the other hand, the Mineral & Metal Resources Segment reported a decrease mainly due to lower sales prices in the copper and iron ore mining operations.

- Profit for the Year Attributable to Owners of the Parent for the year ended March 31, 2023 totaled ¥1,130.6 billion, an increase of ¥215.9 billion from the previous year. In addition to the above, the main factors were as follows:

- Selling, General and Administrative Expenses were ¥702.8 billion (up ¥106.5 billion year on year), mainly due to increases in personnel and travel.
- Gain on Securities and Other Investments was ¥59.5 billion, an increase of ¥50.8 billion. For the year ended March 31, 2023, the Company recorded gains on the sale of the metallurgical coal business in the Mineral & Metal Resources Segment and the real estate business in the Innovation & Corporate Development Segment, respectively.
- Impairment Loss of Fixed Assets was ¥30.0 billion, a deterioration of ¥10.9 billion. For the year ended March 31, 2023, the Machinery & Infrastructure Segment recorded a valuation loss in the passenger railway business.
- Gain on Disposal or Sales of Fixed Assets was ¥19.4 billion, an increase of ¥4.9 billion. For the year ended March 31, 2023, the Innovation & Corporate Development Segment recorded a gain on the sale of a real estate business.
- Other Income was ¥9.2 billion, a decrease of ¥5.7 billion. For the year ended March 31, 2023, while the Energy Segment recorded a provision, the Lifestyle Segment recorded a valuation gain for a put option, and the Chemicals Segment recorded insurance proceeds.
- Dividend Income decreased by ¥41.6 billion to ¥154.9 billion, mainly due to lower dividend income in the Mineral & Metal Resources Segment.
- Income Taxes increased by ¥13.9 billion to ¥240.7 billion. This is mainly attributable to the higher expense owing to the increase in Profit before Income Taxes.

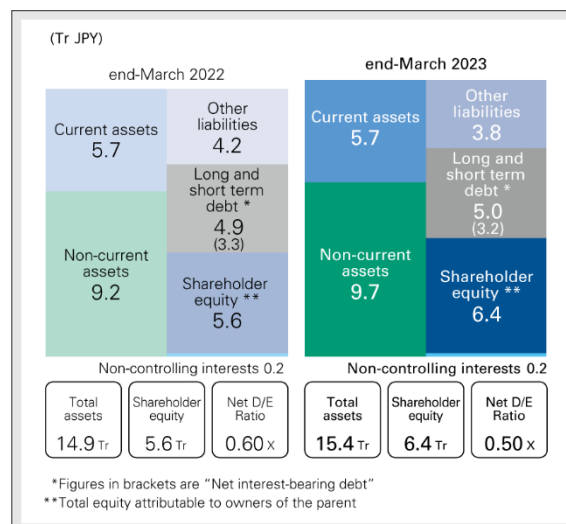

- Return on Equity (“ROE”) for the year ended March 31, 2023 was 18.9%, 0.9 points up from the 18.0% recorded in the previous year.

2. Financial Condition and Cash Flows

■ Financial Condition

Total assets as of March 31, 2023 were ¥15,380.9 billion, an increase of ¥457.6 billion from the previous fiscal year-end. Current assets decreased by ¥41.9 billion mainly due to lower amounts for other financial assets and trade receivables, and non-current assets increased by ¥499.5 billion due mainly to an increase in investments accounted for using the equity method.

Net interest-bearing debt (interest-bearing debt less cash and cash equivalents and time deposits) decreased by ¥126.2 billion to ¥3,212.7 billion. Shareholders’ equity(*) increased by ¥762.6 billion to ¥6,367.8 billion, due to increases in retained earnings, foreign currency translation adjustments and cash flow hedges. As a result, the net debt-to-equity ratio (“Net DER”) was 0.50 times, 0.10 points lower than the previous fiscal year-end.

(*) The term “Shareholders’ equity” refers to “Total equity attributable to owners of the parent” as shown in the “Consolidated Statements of Financial Position” on page 70.

■ Cash Flows

Cash Flows from Operating Activities for the year ended March 31, 2023 was ¥1,047.5 billion, an increase of ¥240.6 billion from the previous year. Core Operating Cash Flow, which equals cash flows from operating activities excluding changes in working capital and repayments of lease liabilities, was ¥1,205.5 billion, an increase of ¥46.8 billion.

Cash Flows from Investing Activities was ¥178.3 billion, a decrease of ¥2.9 billion, owing mainly to acquisition of property, plant and equipment. As a result, Free Cash Flow – the sum of net cash provided by operating activities and net cash used in investing activities – was a net inflow of ¥869.2 billion, an increase in inflow of ¥243.5 billion.

Cash Flows from Financing Activities was ¥634.7 billion, an increase in outflow of ¥20.4 billion.

We provide sales, financing, leasing, transportation and logistics services, and invest in various areas including large-scale plants, marine resource development facilities, ships, aviation, aerospace, rail, automobiles, and mining, construction, and industrial machinery. ● Main factors behind results Profits increased, mainly due to the strong performance of automobile-related businesses, especially in North America, such as Penske Truck Leasing and Penske Automotive Group, despite recording impairment losses in the railway business in Brazil and the power generation business in China. 							

Chemicals

- Business activities

The chemicals segment spans a wide range of industries, from upstream areas, such as basic chemicals and inorganic raw materials, to middle-downstream areas including functional materials for various applications, electronic materials, specialty chemicals, housing and lifestyle materials, agricultural inputs, animal/human nutrition, health products, and logistics infrastructures business including tank terminal operation. We take initiatives on a global scale to solve social issues for sustainable society, including plastic recycling, next-generation energy such as hydrogen and ammonia and forest resources businesses.

- Main factors behind results

Profits increased, mainly due to strong operations and insurance income in the U.S. tank terminal business, agrochemicals-related business, fertilizer and fertilizer raw materials-related business and trading, and phosphate ore business, despite lower profit due to higher raw material prices in the U.S. methanol business.

Iron & Steel Products

- Business activities

We operate our business across a wide range of areas, from steel manufacturing and the sale of steel products to steel processing, parts manufacturing, maintenance, and recycling. We are committed to realizing a sustainable society by building value chains that contribute to a low-carbon emitting society, de-carbonized society and circularity, based on our diverse connections with the market and industry.

- Main factors behind results

Profits decreased at NuMit (investment in Steel Technologies, a steel processing company) in the U.S. and at an overseas trading subsidiary due to the decline in steel prices, although trading at Mitsui & Co. Steel was strong in the first half of the year.

Lifestyle

- Business activities

Adapting to changes in consumption and lifestyles while meeting consumers' diverse needs, we provide value-added products and services, develop businesses, and make investments in business fields such as food resources, food products, merchandising, retail, fashion and textiles, wellness, healthcare, pharma, hospitality, and human capital business.

- Main factors behind results

Profits decreased, mainly due to the absence of a valuation gain related to the merger of Mitsui Bussan I-Fashion in the previous fiscal year, and the absence of gains on sales and valuation of the shares of PHC Holdings, although there was a decrease in corporate tax burden related to the sale of stock holdings, and strong performances by IHH Healthcare, WILSEY FOODS (investment in Ventura Foods, a processed oil food company) in the U.S., and grain trading.

Innovation & Corporate Development

- Business activities

We engage in a diverse range of initiatives across ICT, finance, real estate, and logistics, with the aim of developing innovative business. We also promote DX incorporating shifts in technological innovation, and work to expand company-wide business by delivering advanced capabilities across multiple fields.

- Main factors behind results

Profits increased, mainly due to gains on sales in the domestic and overseas real estate business and strong performance in commodity derivatives trading, despite the absence of gains from the sale and fair value valuation of securities held in the previous fiscal year.

3. Review of the previous Medium-term Management Plan

A review of the previous Medium-term Management Plan (FY March 2021 to FY March 2023) “Transform and Grow” announced in May 2020 is provided below.

(1) Achievements of Quantitative Targets

The period covered by the previous Medium-term Management Plan was three years of a highly uncertain business environment. The spread of COVID-19, changes in geopolitical conditions, along with interruptions and disruptions of the supply chain and rising inflation were all factors. In such an operating environment, Mitsui’s strength of its globally diversified and extensive business portfolio generated strong earnings and the business targets set at the start of each fiscal year were achieved. In the fiscal year ended March 31, 2023, Profit for the Year Attributable to the Owners of the Parent was ¥1,130.6 billion and Core Operating Cash Flow was ¥1,205.5 billion, both reaching record levels and significantly exceeding the targets for the previous Medium-term Management Plan. We also achieved ROE of 18.9%, exceeding the target of 10%.

Using strong cash flow as a source of funds, we continuously increased dividends from ¥80 per share in the fiscal year ended March 31, 2020 to ¥140* per share in the fiscal year ended March 31, 2023. We also increased share repurchases from ¥108.0 billion over the three years of the Medium-term Management Plan that ended in fiscal year ended March 31, 2020 to ¥509.0 billion over the three years of the previous Medium-term Management Plan.

* Subject to approval of the proposed year-end dividend of ¥75 per share at the Ordinary General Meeting of Shareholders to be held on June 21, 2023.

(2) Medium-term Management Plan ended FY Mar/2023: Achievements

◇ Strengthened Business Management Capabilities and Profitability

In a highly uncertain business environment, Mitsui demonstrated the trading functions it has developed globally, engaging in the stable supply, expansion of sales channels, and diversification of supply sources of energy, materials and food supporting society such as LNG, mineral & metal resources, chemicals, iron & steel products and grain, strengthening its earnings power. Furthermore, in addition to the automotive and commercial vehicles businesses centered on the Americas, earnings were generated by strengthening the healthcare, ship, chemicals and food businesses.

◇ Progression of Financial Strategy and Portfolio Management

Three-year cumulative Core Operating Cash Flow for the period of the previous Medium-term Management Plan was ¥3,023.0 billion, and combined with the ¥792.0 billion acquired from asset recycling, cash-in was ¥3,815.0 billion. Funded by robust cash generation capabilities, we strategically allocated funds to investment and loans and to shareholder returns. Cash-out through investment and loans was ¥1,584.0 billion, and total shareholder returns are scheduled to be ¥1,039.0 billion.

Furthermore, we introduced ROIC (Return on Invested Capital) as an internal management indicator during the period covered by the previous Medium-term Management Plan. We visualized both the targets of the business portfolio along the two axes of earnings and growth potential as well as the process for realizing this, and by ensuring investment discipline, we made bold reallocation of resources. The funds obtained from recycling such as recovery of loans in Chilean copper operations and the sale of Australian metallurgical coal operation company Stanmore SMC were reallocated to growth investments in an effort to transform and improve the quality of the business portfolio.

◇ **Human Resources Strategy**

The diverse human resources working at our offices and affiliates in and outside Japan are a source of competitive strength, and we aim to achieve sustainable growth by facilitating the “Challenge and Innovation” of these individuals to create added value. During the period covered by the previous Medium-term Management Plan, we strengthened hiring by only taking on new graduate hires that participated in internship schemes, and by more active hiring of mid-career personnel. In addition to the development of the “Bloom” talent management system supporting global assignment of appropriate personnel and advance rollout in some regions overseas. Furthermore, to accelerate the empowerment of diverse personnel, we continued to engage in the programs to develop female leaders and programs to develop next-generation leaders chosen from overseas offices. We have continued to promote remote work, as well as the introduction of a flexible work time system, to support the adoption of new ways of working, and will continue to promote initiatives that recognize our employees’ diverse values and lead to the creation of new value.

◇ **Strategic Focus and Pursuit of New Business**

Our progress on the three initiatives of the previous Medium-term Management Plan is as follows:

(1) Energy Solutions

To provide solutions for each region in the global energy transition, we utilized our knowledge and network in the upstream oil & gas business in the energy area to invest in UK-based Storegga promoting the CCS business, and to engage in feasibility study of the CCS business eyeing clean fuel ammonia production in Australia. Furthermore, progress was made in joint businesses with multiple partners aimed at promotion of the clean fuel ammonia production business. In the power business, in parallel with the sale of thermal power generation businesses, we participated in the renewable energy projects operated by Mainstream in the UK, Latin America, Africa and Asia, and a large-scale renewable energy project with ReNew Power, promoting the enhancement of efforts in the electric power value chain along with our existing electricity sales in North America, South America, Europe and Japan. In addition, we carried out the commercialization of the e-dash CO2 visualization and reduction cloud service, expansion of the business of the French battery system manufacturer Forsee Power, and acquisition of shares in Climate Friendly, an Australian emission credits developer, by utilizing the knowledge Mitsui has obtained through the emissions credits business.

(2) Healthcare/Nutrition

In the IHH Healthcare, in which Mitsui is invested, we have established a framework to strengthen the group management base by making contributions through the provision of healthcare services during the lockdown period caused by the spread of COVID-19, later revising the hospital business portfolio for post-COVID-19, improving operations including cost reductions realized through a centralized purchasing system and providing telemedicine services. Furthermore, to accelerate the improvement of wellbeing from “food” through the operation of a complex hospitality service business, we decided to acquire AIM SERVICES, a major contract food service company in Japan, as a wholly owned subsidiary. We promoted the provision of DX solutions utilizing healthcare data and the provision of services meeting health and productivity management needs of companies through HOKENDOHJIN-FRONTIER. In addition, we have been transitioning from regular “treatment” of patients toward “pre-symptomatic and preventative treatment”, as well as expanding into the animal healthcare and multi-species animal genetics and technology fields, making progress in forming business groups that support the health of people across the globe. Initiatives have included establishing a preventative care business in Asia with Thorne, in which we are an investor, participating in Hendrix, a multi-species animal genetics and technology company in which we invest through a private equity fund, and investing in the animal health company Ouro Fino and Eu Yan Sang, a Singaporean manufacturer of traditional Chinese medicine, and making the decision to invest in Sumitomo Pharma Animal Health.

(3) Market Asia

In order to capture the growth of the “growing and changing consumer market in Asia” and respond to diversifying consumer needs, we have been promoting new initiatives in healthcare/nutrition, infrastructure and other areas. Despite the continued impact of COVID-19, our affiliated companies mainly in iron & steel products and chemicals, which are our strong areas, have achieved steady growth in business performance, while our logistics business also performed well. Furthermore, we subscribed convertible bonds issued by the holding company of CT Corp, an Indonesia-based local conglomerate operating a consumer-related business including finance, retail, media, real estate, hospitality, entertainment and lifestyle, and made progress toward the creation of a “Consumer Platform” in Market Asia. In addition to jointly acquiring shares in Lee Soon Seng Plastic Industries, a Malaysian functional food container manufacturer, with major Japanese food container manufacturer FP Corporation, we invested in Position Partners, an Australian computerized construction systems integrator.

◇ **Sustainability Management; Evolution of ESG**

During the period of the previous Medium-term Management Plan, Mitsui continued to promote the implementation of sustainability management, focusing on the three issues of climate change, the circular economy, and business and human rights.

To address climate change, we are promoting the initiatives that contribute to the reduction of Mitsui’s own emissions and the reduction contribution in line with the GHG reduction roadmap announced on ESG Day held in December 2021. Furthermore, for business areas with large amounts of GHG emissions, we have implemented and disclosed analysis of the 1.5°C scenario in addition to the 2.0°C scenario during the period of the previous Medium-term Management Plan, and also introduced various support systems (Environmental (“Green”) Business Assessment Working Group and internal carbon pricing system) for business areas turning GHG reductions into opportunities. In circular economy, we identified risk areas by business and by region, and key areas that provide opportunities. In business and human rights, we identified high-risk business areas and promoted human rights due diligence, in addition to formulating individual procurement policies, and conducting various seminars and surveys contributing to raising awareness within the company.

With respect to strengthening corporate governance, we continued to hold free discussions among Directors and Audit & Supervisory Board Members, and conducted discussion on management issues such as the Medium-term Management Plan and climate change. In the Board of Directors, in addition to ensuring there was adequate time for deliberation of important themes such as business strategy, business portfolio, sustainability, and occupational health and safety, we sought to further improve the effectiveness of the Board of Directors through the revision of standards and methods for board resolution, reports and other such materials to the Board of Directors and the utilization of written resolutions. Furthermore, we established a new stock-based compensation system for officers using elements such as ROE and ESG as KPIs, and discussed the institutional design of the Company and the form of the Board of Directors in the Governance Committee including the perspectives of External Members. For details on our corporate governance framework, please refer to “Corporate governance” on pages 67-68.

4. Outline of financing and capital expenditure

1. Financing

The basic funding policy of the Company is to secure appropriate liquidity required for our business activities and to maintain financial strength and stability. We procure long-term funds, mostly with maturities of around 10 years, primarily through long-term borrowings from domestic financial institutions, including insurance companies and banks, and the issuance of corporate bonds. In cases where projects require large amounts of financing, we utilize loans from government financing agencies and/or project finance. In addition, financing subsidiaries and overseas offices procure long-term and short-term borrowings as well as issue commercial papers (short-term corporate bonds) in accordance with their funding needs.

In principle, wholly owned subsidiaries procure funds not from financial institutions outside the Group, but by utilizing our Cash Management Service, in which wholly owned subsidiaries can procure financing from financing subsidiaries and overseas offices of the Company. Through this service, we are promoting centralization of fund raising and the efficient use of funds.

Interest-bearing debt (excluding lease liability) outstanding as of March 31, 2023, totaled ¥4,609.5 billion, marking a ¥100.3 billion increase from the previous fiscal year-end. Net interest-bearing debt (after subtracting cash and cash equivalents and time deposits) totaled ¥3,212.7 billion, a ¥126.2 billion decrease.

2. Capital Expenditure

Material expenditures with respect to acquisitions of property, plant, equipment and investment property for the fiscal year ended March 31, 2023 are listed as follows.

(Billions of Yen)		
Operating Segments	Business	Amount
Energy	Oil and gas projects	50.9
Mineral & Metal Resources	Australian iron ore mining operations	43.7
	Australian coal mining operations	24.7
Energy/ Machinery & Infrastructure	Power generating businesses	17.7
Chemicals	Tank terminal business for chemicals	13.0

Due to the application of “Accounting Standard for Revenue Recognition” (ASBJ Statement No. 29, March 31, 2020) and “Implementation Guidance on Accounting Standard for Revenue Recognition” (ASBJ Guidance No. 30, March 26, 2021) from the previous year, the presentation item was changed from “Sales” to “Revenue”.
2. Net Income per Share was computed based on the average number of shares outstanding during the fiscal year.
3. Figures less than ¥1.0 million are rounded down and figures less than ¥1/100 (in the case of Net Income per Share) are rounded.

6. Key Issues to Address

1. New Medium-term Management Plan

(1) Mitsui’s Goals

Mitsui recently established its new Medium-term Management Plan (FY March 2024 to FY March 2026) “Creating Sustainable Futures”. Mitsui aims to create strong business clusters and new industries by placing sustainability at the center of management, unearthing social challenges in all industries from the perspective of global sustainability, and using that as a foundation for creating new business innovation.

(2) Quantitative Targets for FY March 2024 and FY March 2026

For the fiscal year ending March 31, 2024, we plan to generate Core Operating Cash Flow of ¥870 billion and Profit for the Year Attributable to the Owners of the Parent of ¥880 billion. Furthermore, for the fiscal year ending March 31, 2026, the final year of our new Medium-term Management Plan, we aim to generate Core Operating Cash Flow of ¥1 trillion and Profit for the Year Attributable to the Owners of the Parent of ¥920 billion, with ROE averaging over 12% for the three years of the new Medium-term Management Plan.

(3) Five Corporate Strategies

As a companywide measure aimed at achieving “Creating Sustainable Futures” that we aim for in the new Medium-term Management Plan, we established five corporate strategies.

(i) Enhancement of Ability to Make Global, Cross-Industry Proposals

It is essential to have a global approach and a cross-industry response to increasingly complex global issues. The strength of Mitsui’s Business Unit System and Global Matrix System is that barriers between business units and regions are low, enabling flexible and dynamic coordination. By utilizing this system to combine Mitsui’s strengths globally and across industries, we will enhance our ability to make proposals to solve increasingly complex social issues.

(ii) Promotion of “Create, Grow, Extend”

By combining core and adjacent businesses, we will provide the most optimal solutions that factor in the time for the purpose of solving social issues. By strengthening businesses in adjacent areas where Mitsui possesses knowledge, we will be able to increase the probability of business success. To create an impactful revenue base and business clusters, we will thoroughly implement allocation of management resources from the perspective of companywide optimization.

(iii) Deeper Sustainability Management

We will lead initiatives through the entire supply chain in response to social issues such as climate change, natural capital, and business and human rights. In response to climate change, we will continue transformation of our business portfolio for the realization of a decarbonized society. Mitsui’s targets for 2030 are to halve the GHG impact compared to FY March 2020 to 17 million tons, and achieve a renewable energy ratio of over 30%. In FY March 2026, which is the final year of the new Medium-term Management Plan, we expect the GHG impact to be 27 million tons and the renewable energy ratio to be 27%.

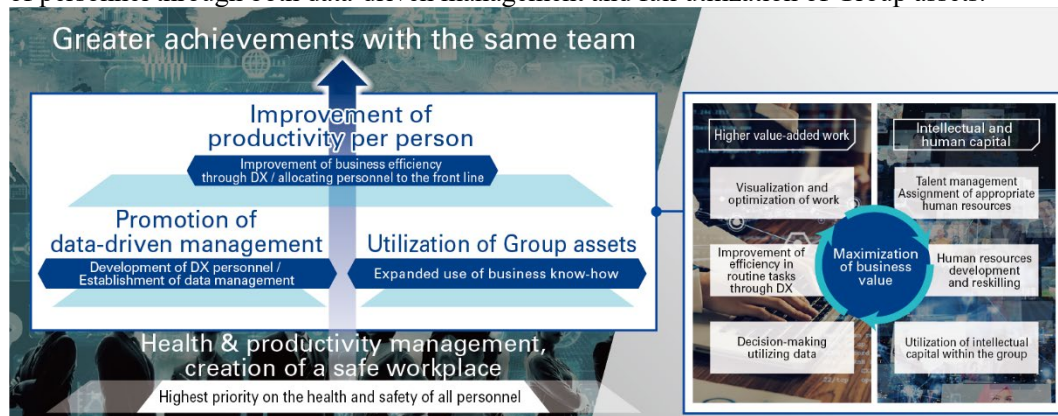

* Target: Halve the GHG impact after deducting the reduction contributions made through business from Mitsui’s emissions in 2030 compared to FY March 2020.

** Target: Increase the renewable energy ratio in the power generation business to over 30% by 2030.

(iv) Strengthening of Group Management Capability

It is necessary to increase productivity per person in order to continuously drive the transformation of Mitsui's business portfolio. We will efficiently and effectively implement greater achievements with the same number of personnel through both data-driven management and full utilization of Group assets.

(v) Promotion of Globally Diverse Individuals

We will further accelerate investing in our people to promote autonomous career development. The three pillars of the human resources strategy remain unchanged from the previous plan: Development of capable individuals, inclusion, and strategic assignment of personnel. In addition to these, we will support transformation of the business portfolio by improving productivity per person and pursuing value-added work.

(4) Three Key Strategic Initiatives

Based on the deepening of the Strategic Focus initiatives of the previous MTMP and key changes in the environment occurring in recent years, we have established three Key Strategic Initiatives as areas where Mitsui can demonstrate its strengths.

(i) Industrial Business Solutions

We will provide advanced solutions for stable supply of energy, mineral & metal resources, food and materials, etc. through a globally extended business portfolio. We will seek to stabilize the supply chain through securing and appropriately reorganizing supply destinations and suppliers to address the interruption and disruption of global supply chains, and sharpening and sophistication of trading functions. Furthermore, we will contribute to the realization of a sustainable and affluent society through the stable supply of materials for which there are increasingly sophisticated and diverse needs such as highly functional materials supporting the advance of digitalization and environmentally friendly materials and green materials to address climate change.

(ii) Global Energy Transition

We will provide the latest available optimal solutions through business, from the perspectives of both stable energy supply and climate change, in order to transition into a decarbonized society in a sustainable manner. By globally managing a portfolio of multiple businesses with differing timelines, Mitsui will contribute to the resolution of the social issue of energy transition while maintaining earnings. We will promote business that contributes to a decarbonized society, such as next-generation energy in response to climate change, next-generation mobility with low environmental impact, and a circular economy decarbonizing the entire value chain of materials and chemicals, etc.

(iii) Wellness Ecosystem Creation

In addition to healthcare and prevention, we will contribute to the improvement in quality of life through the provision of healthy food and nutrition. In addition to providing food and nutrition that meets a diverse range of needs such as for the stable supply of food and a reduction of environmental impact, we will coordinate healthcare-related businesses through the utilization of data and organically combining them in the wellness business cluster to create much added value along the value chain.

(5) Approach to Profit Distribution

Our profit distribution policy is as follows:

- To increase corporate value and maximize shareholder value, we seek to maintain an optimal balance between meeting investment demand in our core and growth areas while directly providing returns to shareholders by paying out cash dividends.
- In addition to the above, we will continue to consider share repurchases in a timely and flexible manner as part of measures to improve capital efficiency. Deliberation on the timing and amount of any share repurchase will include consideration of the overall business environment such as the balance with growth investment, the level of cash flow after shareholder returns, interest-bearing debt and return on equity.

For the fiscal year ended March 31, 2023, we currently forecast a fully-year dividend of ¥140* per share (up ¥35 from the previous year, including an interim dividend of ¥65), taking into consideration Core Operating Cash Flow and profit for the year attributable to owners of the parent as well as the stability and continuity of the amount of dividend.

Regarding dividends in the new Medium-term Management Plan, we are placing importance on stability and continuity, and based on the level of Core Operating Cash Flow that we have determined can be stably generated, we have set a minimum dividend of ¥150 per share. In addition, we will introduce a progressive dividend that will have the dividend level maintained or increased. Furthermore, we have set a shareholder returns policy (dividends and share repurchases) of around 37% of Core Operating Cash Flow on a three-year cumulative basis for the new Medium-term Management Plan.

* Subject to approval of the proposed year-end dividend of ¥75 per share at the Ordinary General Meeting of Shareholders to be held on June 21, 2023.

2. Forecasts for the Year Ending March 31, 2024

Notes:

1. Directors Izumi Kobayashi, Jenifer Rogers, Samuel Walsh, Takeshi Uchiyamada and Masako Egawa are External Directors, and the Company has submitted filings with the domestic financial instruments exchanges on which it is listed designating all five individuals as independent Directors. Audit & Supervisory Board Members Hiroshi Ozu, Kimitaka Mori and Yuko Tamai are External Audit & Supervisory Board Members, and the Company has submitted filings with the domestic financial instruments exchanges on which it is listed designating all three individuals as independent Audit & Supervisory Board Members. For information regarding the criteria of independence for External Directors or External Audit & Supervisory Board Members (“External Members”) set by the Company, please refer to pages 69-70 of “Other Items Subject to Measures for Electronic Provision for the 104th Ordinary General Meeting of Shareholders (Items Excluded From Paper-Based Documents)” posted on the Company’s website (URL: <https://www.mitsui.com/jp/en/ir/information/general/index.html>).
2. The Company has entered into agreements with the respective External Directors and respective Audit & Supervisory Board Members pursuant to Article 427, Paragraph 1 of the Companies Act of Japan, to limit their liability under Article 423, Paragraph 1 of the Companies Act of Japan, to the minimum amount of liability as stipulated in Article 425, Paragraph 1 of the Companies Act of Japan.
3. The Company has executed a directors and officers liability insurance (D&O insurance) policy under Article 430-3, Paragraph 1 of the Companies Act of Japan, covering all of the Directors and Audit & Supervisory Board Members of the Company as the insured, with insurance companies. This insurance policy covers compensation for damages and litigation expenses, etc. borne by the insured due to claims for damage compensation arising from actions (including inaction) carried out by the insured in relation to the execution of their duties. The full amount of the insurance premiums is borne by the Company.
4. Full-time Audit & Supervisory Board Member Kimiro Shiotani has considerable expertise in finance and accounting, having worked in the field of accounting since joining the Company where he has served as General Manager of Segment Controller Division, General Manager of Financial Management & Advisory Division I, and Managing Officer & General Manager of Global Controller Division. Audit & Supervisory Board Member Kimitaka Mori has considerable expertise in finance and accounting cultivated through his many years of experience as a certified public accountant.
5. There is no special relationship between the organizations listed in the column “Important Concurrent Position(s) Held in Other Organizations” and the Company that would interfere with or raise problems with regard to their performance of their duties as External Directors or External Audit & Supervisory Board Members. Although there are certain businesses between the Company and the organizations the External Members belong to as shown below, the Company has determined that there is nothing that would affect the independence of these External Members.
The Company and its consolidated subsidiaries sell automobile components, etc. to Toyota Motor Corporation, where Director Takeshi Uchiyamada has served as Director; however, the annual sales in each of the last three fiscal years is less than 1% of the annual consolidated transaction volume of Toyota Motor Corporation and the Company. In addition, the Company and its consolidated subsidiaries purchase automobiles and automobile components from Toyota Motor Corporation, but the yearly amount paid in each of the last three fiscal years is less than 1% of the annual consolidated transaction volume of Toyota Motor Corporation and the Company.
6. The role of Chair of the Board of Directors of the Company chiefly involves carrying out supervision of management. It does not involve concurrent duties as a management officer or execution of day-to-day business operations.

2. Remuneration of Directors and Audit & Supervisory Board Members

The Company has established the policy for determining the remuneration, etc. of individual Directors by resolution of the Board of Directors, following deliberation by and report of the Remuneration Committee. The remuneration for Directors of the Company is comprised of basic fixed remuneration, results-linked bonuses based on important management indicators for the Company, and performance-linked restricted stock-based remuneration and tenure-linked and restricted-stock-based remuneration as medium- to long-term incentive remuneration. From the perspective of respecting the independence of External Directors and Audit & Supervisory Board Members who are independent from business execution, the External Directors and Audit & Supervisory Board Members are not eligible for the results-linked bonuses or stock-based remuneration.

The Company's Remuneration Committee is chaired by an External (Independent) Member. The Committee discusses the remuneration system for Directors and Audit & Supervisory Board Members, and examines the appropriateness of the level, proportions, etc. of fixed remuneration, results-linked bonuses, and medium- to long-term incentive compensation based on trends at other companies and then reports this as well as the appropriateness of clawback provision to the Board of Directors, among other measures, in order to emphasize transparency in the determination of Directors' and Audit & Supervisory Board Members' remuneration. Regarding the remuneration, etc. of individual Directors for the year ended March 31, 2023, after receiving the report of the Remuneration Committee, the Board of Directors has confirmed that the contents of the determined remuneration, etc. are consistent with the applicable policy and has judged that they are in line with such policy.

1) **Base: Basic remuneration (fixed monetary remuneration)**

(Maximum amount: ¥1.0 billion per year)

The Company is to make monthly payment of a monetary amount determined according to rank.

2) **Short Term Incentive (STI): Results-linked bonuses (variable monetary remuneration)**

(Maximum amount: ¥1.5 billion per year)

- a) Operating diverse businesses, the Company emphasizes profit for the year (attributable to owners of the parent) and Core Operating Cash Flow as common performance indicators, and references these when determining the dividend policy. Directors' bonuses are calculated using the following formula, which is linked to these performance indicators, and are paid once a year in cash. (starting from the year ended March 31, 2023, the calculation was revised to the following formula as decided by the Board of Directors after receiving a report from the Remuneration Committee affirming that the revision is appropriate).

- b) Total payment amount = (Profit for the year (attributable to owners of the parent) x 50% x 0.12%) + (Core Operating Cash Flow x 50% x 0.12%)

* Note that the upper limit for the total payment amount is set at ¥1.5 billion and if the profit for the year (attributable to owners of the parent) is negative, i.e., loss, or if the Core Operating Cash Flow is negative, i.e., net cash outflow, this negative item will be calculated as 0.

* The actual results of each performance indicator related to the results-linked bonuses for the year ended March 31, 2023 are as follows:

Profit for the year (attributable to owners of the parent): ¥1,130.6 billion

Core Operating Cash Flow: ¥1,205.5 billion

Amount individually paid = Total amount of bonus x (Position points / Sum of position points)

Position	Chair	President	Executive Vice President	Senior Executive Managing Officer	Executive Managing Officer
Points	10	20	7	6	5

3) **Long Term Incentive (LTI)-1: Performance-linked restricted stock-based remuneration (stock-based remuneration (variable))**

(Maximum amount: ¥300 million per year)

- a) As an incentive to fulfill the Company's social responsibilities and continuously improve its

medium-term performance and corporate value, the Company's ordinary shares, with an established transfer restriction period, are delivered ex post according to the level of achievement of the Company's key management indicators as of the end of the evaluation period. The evaluation period is three fiscal years, and the initial evaluation period consists of the three fiscal years from the fiscal year ended March 31, 2023, which is the initial applicable fiscal year, to the fiscal year ending March 31, 2025. After the initial evaluation period, the evaluation period is the three fiscal years immediately preceding the granting year, and the ordinary shares are granted every fiscal year (hereinafter referred to as the "Three-Year Rolling Period").

- b) For the performance indicators during the initial evaluation period, as the management indicators that the Company focuses on, the Company selects ESG elements, including the response to climate change, and ROE as explained below, and the amount of remuneration varies within a range from 80% to 120% according to the level of achievement of each indicator for the targets established by the Company. Since this system was introduced in the fiscal year ended March 31, 2023, and the initial evaluation period ends in the fiscal year ending March 31, 2025, there are no actual performance indicators for this evaluation period. Considering the accelerating pace of change in the surrounding global business environment, the Company needs to constantly review the management indicators, etc. that the Company must focus on. Accordingly, the appropriateness of the management indicators, targets, etc., the progress in achieving them and other related matters are regularly reviewed by the Remuneration Committee and the Board of Directors and are revised as necessary. In addition, during the evaluation period, the Company will not provide this stock-based remuneration if the Board of Directors determines that the provision of the stock-based remuneration would be inappropriate, particularly in the event of a mishap or impropriety deemed critical from the perspective of the Company's key management indicators (clawback provisions).

Performance-linked remuneration conditions for the fiscal year ended March 31, 2023

ESG (20%)	E element	Progress made in the business initiatives for halving the GHG impact by 2030 and achieving net-zero emissions by 2050
	S element	Change in the positive response rate regarding "employee engagement" in the Mitsui Engagement Survey compared with the previous fiscal year
	G element	Average score of the responses (five-point scale) by External Members regarding important questions in the evaluation of effectiveness of the Board of Directors
ROE (80%)	ROE	

Note: The evaluation plan for both ESG elements and ROE will be formulated after comprehensive consideration of the performance of each indicator during the three-year evaluation period, as well as the progress of matters related to each indicator.

- c) Number of shares granted: The number of shares granted is determined by the Board of Directors after the end of the evaluation period (Three-Year Rolling Period) in consideration of the report received from the Remuneration Committee, the clawback provisions according to the level of achievement of each indicator and other matters.
- 4) **Long Term Incentive (LTI)-2: Tenure-linked and restricted-stock-based remuneration (stock-based remuneration (fixed))**
(Maximum amount: ¥500 million per year)
To have a heightened sense of shared value with shareholders, ordinary shares of the Company with a transfer restriction period and clawback provisions are granted to Directors, with the number of the ordinary shares being determined according to rank (once per year).

● Restricted stock remuneration

Furthermore, eligible Directors for stock-based remuneration (hereinafter referred to as "Eligible Directors") will receive the issuance or disposal of the shares based on the performance-linked and restricted-stock-based remuneration (stock-based remuneration (variable)) and tenure-linked and restricted-stock-based remuneration (stock-based remuneration (fixed)) (hereinafter collectively referred to as the "System") in exchange for the in-kind investment of their full entitlement to receive monetary remuneration of the target business year based on the resolution of the Company's Board of Directors. The total number of ordinary shares that will be newly issued or disposed to Eligible

Directors by the Company under the System will be no more than 300,000 per year for performance-linked and restricted-stock-based remuneration and 500,000 per year for tenure-linked and restricted-stock-based remuneration (however, this number may be changed within reasonable limits if the Company's ordinary shares are affected by a stock split (including a free allotment of new ordinary shares in the Company) or a reverse stock split after the date on which this Item is approved, or if other circumstances arise that necessitate adjustments to the total number of the Company's ordinary shares that are issued or disposed of as restricted shares). The paid-in amount per share will be determined by the Board of Directors based on the average daily closing price for the Company's ordinary shares on the Tokyo Stock Exchange (excluding days on which there is no closing price, with the price to be rounded up to the nearest whole yen) in the three months immediately prior to the month containing the date of the Board of Directors' resolution concerning issuance or disposal of the shares, within a range that is not especially advantageous to the Eligible Directors. The issuance of shares under the System is conditional on the Company and the Eligible Directors entering into allocation agreements for the granting of the shares (hereinafter referred to as the "Allocation Agreements") in principle. An outline of the System, including the terms of the Allocation Agreements, is provided below and other matters shall be determined by the Board of Directors.

1. Restriction on transfer

The Eligible Directors will be unable to transfer, pawn, or otherwise dispose of the shares for a period of 30 years from the pay-in date (hereinafter referred to as the "Restriction on Transfer Period"). However, the restriction on disposal will be lifted if an Eligible Director retires as a Director and Managing Officer of the Company before the end of the Restriction on Transfer Period.

2. Grounds for acquisition without compensation and extinction of rights (Clawback provisions)

The Company will extinguish all or part of the right to receive performance-linked and restricted-stock-based remuneration and tenure-linked and restricted-stock-based remuneration and acquire without compensation all or part of the shares based on the System of an Eligible Director who engages in actions that contravene laws and regulations during the Restriction on Transfer Period, or on other grounds as stipulated in the Allocation Agreement.

● Composition of Director remuneration

The Company's Director remuneration is to consist of: (1) fixed remuneration (basic remuneration) and (2) results-linked bonuses (short-term incentive) as monetary remunerations, and (3) restricted stock remuneration (long-term incentive) as restricted-stock-based remuneration. Director remuneration currently consists of a roughly 3:1 mix of monetary remuneration to restricted-stock-based remuneration, and a roughly 1:2:1 mix of basic remuneration, short-term incentive, and long-term incentive.

■ Share Ownership Guidelines

We have introduced the Share Ownership Guidelines applicable to the Eligible Directors. In the Share Ownership Guidelines, we set goals regarding ownership of the Company's shares as follows: Ownership of the Company's shares equivalent to three times the basic remuneration (annual amount) for the President and Chief Executive Officer, and equivalent to the basic remuneration (annual amount) for the other Eligible Directors.

As stated below, with respect to the remuneration for Directors and Audit & Supervisory Board Members, approvals have been given by resolutions of the General Meeting of Shareholders on the maximum amount and that the individual amounts shall be determined by the Board of Directors within their respective maximum amounts.

	Basic Remuneration		Results-linked Bonuses	Stock-based Remuneration (variable)	Stock-based Remuneration (fixed)
Date of resolution of General Meeting of Shareholders	Ordinary General Meeting of Shareholders held on June 21, 2017	Ordinary General Meeting of Shareholders held on June 21, 2017	Ordinary General Meeting of Shareholders held on June 22, 2022	Ordinary General Meeting of Shareholders held on June 22, 2022	Ordinary General Meeting of Shareholders held on June 22, 2022
Maximum (per year)	¥1.0 billion	¥240 million	¥1.5 billion	¥300 million	¥500 million
Eligibility for payment	Directors	Audit & Supervisory Board Members	Directors (excluding External Directors)	Directors (excluding External Directors)	Directors (excluding External Directors)
Number of the recipients (at the conclusion of the resolution of General Meeting of Shareholders)	14	5	9	9	9

The remuneration of the Company's Directors and Audit & Supervisory Board Members regarding the year ended March 31, 2023, is as follows:

	Number of Recipients	Basic Remuneration	Results-linked Bonuses	Stock-based Remuneration (variable)	Stock-based Remuneration (fixed)	Total Remuneration Paid Relating to the Year Ended March 31, 2023
Directors (Excluding External Directors)	13	¥685 million	¥1,402 million	¥256 million	¥353 million	¥2,696 million
Audit & Supervisory Board Members (Excluding External Audit & Supervisory Board Members)	2	¥150 million	–	–	–	¥150 million
External Directors	5	¥109 million	–	–	–	¥109 million
External Audit & Supervisory Board Members	4	¥62 million	–	–	–	¥62 million
Total	24	¥1,007 million	¥1,402 million	¥256 million	¥353 million	¥3,017 million

Notes:

1. The above includes Directors and Audit & Supervisory Board Members who retired from office in the year ended March 31, 2023.
2. The results-linked bonuses above show the expected payment amount. The actual amount paid is determined using a formula decided by the Board of Directors based on discussions by the Remuneration Committee (please refer to page 62).
3. The stock-based remuneration (variable) above shows the amount recognized as expenses during the year ended March 31, 2023 because the initial evaluation period for the performance-linked restricted stock-based remuneration is the three fiscal years from the fiscal year ended March 31, 2023 to the fiscal year ending March 31, 2025 and the amount has not been determined at this time.
4. The stock-based remuneration (fixed) above shows the amount recognized as expenses during the year ended March 31, 2023, of the expenses related to tenure-linked and restricted-stock-based remuneration to be allotted to nine Directors (excluding External Directors).
5. In addition to the above amounts, a total of ¥399 million was paid to 89 retired Directors (excluding External Directors), and ¥37 million to 11 retired Audit & Supervisory Board Members (excluding External Audit & Supervisory Board Members), as pensions (representing payments determined prior to the abolition of such systems).
6. Neither Directors nor Audit & Supervisory Board Members receive payment of special retirement compensation.
7. Each Director (excluding External Director) is required to purchase Mitsui's shares with his or her monthly remuneration

- but less than ¥1.0 million through the Mitsui Executive's Shareholding Association.
8. Amounts are rounded to the nearest ¥1.0 million.

3. Corporate governance

The Company adopts the structure of a company with the Audit & Supervisory Board. To achieve effective corporate governance for shareholders and other stakeholders, the Company has established the following structures and is working to strengthen its governance.

- (1) The Board of Directors is the highest authority for business execution and supervision. To ensure those functions, the Company has set the number of Directors at an appropriate number where effective discussion is possible. At least one-third of the total number of Directors are made up of independent External Directors. The Company has also established Governance Committee, Nomination Committee, and Remuneration Committee as advisory bodies to the Board of Directors, with External Directors and External Audit & Supervisory Board Members serving as members of these committees. External Members compose a majority of the members of each of these committees.

The expected role, function and membership of each committee as of March 31, 2023, are as follows:

	Expected role	Function	Committee Chair and Members
Governance Committee	The Committee will work to enhance management transparency and fairness and achieve sustained improvement in the Company's corporate governance by continually monitoring corporate governance and considering governance enhancement measures.	To consider basic policies and measures concerning the governance of the Company, to consider the composition, size, and agenda of the Board of Directors, with the aim of achieving further improvement in corporate governance, and to consider the role of the Board of Directors' advisory committees, including recommendations based on deliberations and discussions in meetings of the Nomination and Remuneration Committees	Committee chair: Chair of the Board of Directors (Yasunaga) Members: President (Hori); CSO (Sato), three External Directors (Rogers, Walsh, and Egawa); and one External Audit & Supervisory Board Member (Tamai)
Nomination Committee	The Committee will work to enhance the transparency and objectivity of processes relating to the nomination of Directors and Managing Officers (referred to collectively as "Officers", including the CEO; the same shall apply hereinafter) through the involvement of External Members, and to ensure the fairness of Officer nominations.	To study the selection and dismissal standards and processes for nominating Officers, to establish succession planning for President and Chief Executive Officer and other top executives, to evaluate Director nomination proposals, and to deliberate on the dismissal of Officers	Committee chair: External Member (Kobayashi) Members: Chair of the Board of Directors (Yasunaga); President (Hori); one External Director (Uchiyamada); and one External Audit & Supervisory Board Member (Ozu)
Remuneration Committee	The Committee will work to enhance the transparency and objectivity of decision-making processes relating to remuneration for Officers through the involvement of External Members, and to ensure the fairness of remuneration for Officers through ongoing monitoring.	To study the system and decision-making process relating to remuneration and bonuses for Officers, to evaluate proposals of remuneration and bonuses for Directors, and to evaluate proposals for evaluation and bonuses for Managing Officers	Committee chair: External Member (Mori) Members: CFO (Shigeta); CHRO (Takemasu); and two External Directors (Kobayashi and Egawa)

- (2) The Audit & Supervisory Board Members audit the execution of duties of the Directors as an independent body with a mandate from the shareholders. In pursuit of this objective, the Audit & Supervisory Board Members carry out multifaceted and effective auditing activities, such as attending important internal meetings, verifying various types of reports and investigating corporate business operations, and take necessary measures in a timely manner.

Please refer to the Company's website (<https://www.mitsui.com/jp/en/company/outline/governance/index.html>) for more information regarding the corporate governance structure.

Each year, the Company conducts an evaluation of the effectiveness of the Board of Directors, and uses the results of this evaluation to guide further improvement. The Company also concluded that the effectiveness of the Board of Directors of the Company was valid again in the year ended March 31, 2023. The members of the Board of Directors are highly diverse in terms of gender and nationality, and making free and open discussions in the Board's meetings, leveraging such diversity. The free discussions between Directors and Audit & Supervisory Board Members that are considered to be meaningful in the annual evaluations of effectiveness were held during the year ended March 31, 2023 on the themes of (1) "Climate Change Responses" and (2) "Exchange of Opinions to Enhance Corporate Value, Taking Into Consideration Next Medium-Term Management Plan" in September 2022; and "Response to Economic Security" in March 2023. Please refer to the link to the Company's website below for details regarding the results of the evaluation of the effectiveness of the Board of Directors for the year ended March 31, 2023.

Opinion

Pursuant to the fourth paragraph of Article 444 of the Companies Act, we have audited the consolidated financial statements of Mitsui & Co., Ltd. and its consolidated subsidiaries (the "Group"), namely, the consolidated statement of financial position as of March 31, 2023, and the consolidated statement of income and consolidated statement of changes in equity for the fiscal year from April 1, 2022 to March 31, 2023, and the related notes.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of March 31, 2023, and its consolidated financial performance for the year then ended in accordance with accounting standards prescribed pursuant to the provisions of the second sentence of the first paragraph of Article 120 of the Ordinance on Company Accounting that omit a part of the disclosures required under International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the other information. The other information comprises the information included in the Business Report and the accompanying supplemental schedules.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Audit & Supervisory Board Members and the Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting standards prescribed pursuant to the provisions of the second sentence of the first paragraph of Article 120 of the Ordinance on Company Accounting that omit a part of the disclosures required under International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting standards prescribed pursuant to the provisions of the second sentence of the first paragraph of Article 120 of the Ordinance on Company Accounting that omit a part of the disclosures required under International Financial Reporting Standards.

Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks. The procedures selected depend on the auditor's judgment. In addition, we obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we

conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate whether the overall presentation and disclosures of the consolidated financial statements are in accordance with accounting standards prescribed pursuant to the provisions of the second sentence of the first paragraph of Article 120 of the Ordinance on Company Accounting that omit a part of the disclosures required under International Financial Reporting Standards, as well as the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with Audit & Supervisory Board members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board members and the Audit & Supervisory Board with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

Opinion

Pursuant to the first item, second paragraph of Article 436 of the Companies Act, we have audited the nonconsolidated financial statements of Mitsui & Co., Ltd. (the "Company"), namely, the nonconsolidated balance sheet as of March 31, 2023, and the nonconsolidated statement of income and nonconsolidated statement of changes in equity for the 104th fiscal year from April 1, 2022 to March 31, 2023, and the related notes and the accompanying supplemental schedules.

In our opinion, the accompanying nonconsolidated financial statements present fairly, in all material respects, the financial position of the Company as of March 31, 2023, and its financial performance for the year then ended in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Nonconsolidated Financial Statements section of our report. We are independent of the Company in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Audit & Supervisory Board's Audit Report

Having examined the Directors' performance of their duties during the 104th fiscal year from April 1, 2022 to March 31, 2023, we, the Audit & Supervisory Board, make this report as follows, based upon discussion on the basis of the auditors' reports submitted by the respective Audit & Supervisory Board Members:

1. METHODS AND SUBSTANCE OF AUDIT BY AUDIT & SUPERVISORY BOARD MEMBERS AND AUDIT & SUPERVISORY BOARD

The Audit & Supervisory Board decided upon auditing policies, allocation of work duties, etc., received a report on the auditing work performed and its results from each Audit & Supervisory Board Member, and received a report on their status of work executed from the Directors and the Independent Auditor and requested their explanations as necessary.

While conforming to the auditing standards as decided by the Audit & Supervisory Board, the auditing policies, the allocation of duties, etc., each Audit & Supervisory Board Member endeavored to facilitate mutual understanding with the Directors, the internal auditing division, other employees and the Independent Auditor, to collect information and to improve the auditing environment, attended the meetings of the Board of Directors and other important meetings, received reports on their status of work executed from the Directors and the employees and requested their explanations as necessary, inspected material internal decision-making documents, etc., and investigated the status of operations and assets of the headquarters and major business sites. During the year ended March 31, 2023, the Audit & Supervisory Board Members also used the online conference system as necessary to communicate and exchange information regarding the execution of duties and received reports on the business and business conditions. In addition, regular reports were received and explanations given by directors and employees, and audits were conducted, including expressing opinions, covering the substance of decisions made by the Board of Directors with regard to necessary systems to ensure appropriate operations of the company group comprised of the company and its subsidiaries described in the Business Report and of the status of construction and operation of the systems actually developed on the basis of those decisions (the internal control systems). With respect to subsidiaries, we designated some of the affiliated companies both in Japan and overseas as "Affiliated Companies to be Monitored Designated by the Audit & Supervisory Board," and make visits to these designated affiliated companies or have meetings via online conference system as necessary with the management of these designated affiliated companies, and endeavored to facilitate mutual understanding and exchanging of information with their directors, audit & supervisory board members, etc., and collected reports on their business as necessary. Based on the above methods, the business report and its supplementary schedules for the relevant fiscal year were examined.

In addition, we examined whether the independence of the Independent Auditor was maintained and whether appropriate audit was being undertaken, received reports from the Independent Auditor on the status of operations, and requested explanations as necessary. We also received reports from the Independent Auditor that "Necessary systems to ensure appropriate execution of operations" (pursuant to Article 131 of the Corporate Accounting Regulations of Japan) was duly developed in line with "Quality control standards for auditing" (issued by the Japan Corporate Accounting Council on October 28, 2005), and requested explanations as necessary. Based on the above methods, we examined the financial statements for the relevant fiscal year (the balance sheets, the statements of income, the statement of changes in equity and the notes to non-consolidated financial statements) and their supplementary schedules and then the consolidated financial

statements for the relevant fiscal year (the consolidated statements of financial position, the consolidated statement of income, consolidated statements of changes in equity and the notes to consolidated financial statements).

Regarding internal control of financial reporting, the Directors and Deloitte Touche Tohmatsu LLC provided us with reports assessing the internal control procedures and audit status, as well as explanations where necessary.

2. RESULTS OF AUDIT

(1) Results of examination of the business report, etc.

- a) In our opinion, the business report and its supplementary schedules are in conformity with the applicable laws and regulations of Japan and the Articles of Incorporation of the Company and fairly present the state of the Company's affairs;
- b) We have found no material fact constituting misconduct or a violation of any applicable laws and regulations of Japan or the Articles of Incorporation in connection with the Directors' performance of their duties; and
- c) In our opinion, the substance of the decisions made by the Board of Directors with regard to the internal control systems is appropriate. Furthermore, we find no matters that require noting with regard to the description in the Business Report and the Directors' performance of their duties in connection with the relevant internal control systems.

(2) Results of examination of the financial statements and their supplementary schedules

In our opinion, the auditing methods used and the conclusions reached by the Independent Auditor, Deloitte Touche Tohmatsu LLC, are appropriate.

(3) Results of examination of the consolidated financial statements

In our opinion, the auditing methods used and the conclusions reached by the Independent Auditor, Deloitte Touche Tohmatsu LLC, are appropriate.
