■ **Outline of Food Bank**

It is a volunteer activity in which foodstuffs with no quality problems but contained in damaged packaging, or unsellable food and food ingredients that are approaching their expiration date, are donated by the companies, retailers, and individuals. Those foodstuffs are delivered at free of charge to the organizations and welfare facilities in need.

■ **Background**

After considering what the Company could do to contribute to the food loss reduction from a sustainability perspective, the Company decided to register with Food Bank Tokushima.

The Company believes that its registration will help apartment owners solve the problem of discarding surplus or imperfect-looking produce generated from their crops, which leads to sustainable social contribution activities. The Company will continue to work with many apartment owners to solve the food loss problem.

The Company formulated in 2013 a new Basic CSR Action Policy (renamed Basic Sustainability Action Policy in 2022) in response to changing needs of its stakeholders, social and environmental problems arising from the changing times, and the requirements of ISO 26000 as well as other standards and guidelines. The Company will steadily carrying out initiatives based on five-theme basic action policy to further develop sustainability activities through the business.

Leopalace21's Basic Sustainability Action Policy

The Company aims to create new value together with all stakeholders by promoting sustainability activities in accordance with this basic sustainability action policy, based on compliance and corporate governance that support its business operations.

This initiative contributes to the following five items of the Sustainable Development Goals (SDGs).
