(※ Reference) Investee companies of JIA Group: <https://www.jia-ltd.com/en/business/privateequity/>

1. Purpose of the investment

Informetis is engaged in technology development and research & development to create value from energy data and contribute to the distribution of renewable energy and the enrichment of people’s lifestyles through its unique AI technology.

Using cutting-edge machine learning algorithms, Informetis has the technology to utilize time-series data of current waveforms. The technology which is high-resolution energy data analyzes the usage status of home appliances and electrical equipment, identifies types of appliances, and performs power demand forecasting and activity prediction in a sophisticated manner.

JIA group agreed with the vision of Informetis to "create an energy data ecosystem to realize ultra-efficient use of energy and to improve people's quality of life (QoL)" and has decided to acquire shares of the company in order to support its business expansion.
