[Features of "ChatM.AI"]

"ChatM.AI" is a convenient service that allows AI to learn the content of any website and provide answers through a chatbot.

"ChatM.AI" is a groundbreaking service for site administrators and individual users. AI chatbot integration is realized with a simple process, making information gathering easier than ever before. Moreover, the service can be used for free up to a certain number of times, allowing you to try it out with ease.

1. Easy AI chatbot integration

With "ChatM.AI," all you need to do is enter your website URL on the service page and add the displayed JS code to your website's source code to easily transform any site into an AI chatbot. "ChatM.AI" reads the site information from the entered URL domain and provides answers accordingly. This facilitates smooth communication with customers and can potentially improve business efficiency.

2. Answers are based on all information available on the site

"ChatM.AI" acts as a concierge, with AI providing answers based on all information within the site (including PDF data). The information source for the answers is the site's content, and the source of the information is also provided.
