1. Details of the secondary offering through over-allotment

Secondary offering through over-allotment is the offering through which a bookrunner of the primary offering, shall offer the investment units (up to 4,150 units) borrowed from a certain LLR's unitholder, upon the primary offering after taking into account the demand and other circumstances. The number of investment units to be offered in the secondary offering through over-allotment is scheduled to be 4,150 units, however, this number is the maximum amount and may be reduced or the secondary offering through over-allotment itself may not take place at all, depending on the demand and other circumstances.

In order to allow such bookrunner to acquire the investment units needed to return the investment units borrowed from the LLR's unitholder (the "borrowed investment units") in relation to the secondary offering through over-allotment, LLR has resolved at its Board of Directors meeting held on June 23, 2023 (Friday) to newly issue 4,150 units of the investment units through a third party allotment (the "Third Party Allotment"), to such bookrunner as the allottee with the payment date on August 1, 2023 (Tuesday).

In addition, such bookrunner may, within a specific period (the "Syndicate Cover Transaction Period"), purchase investment units up to the maximum number of investment units offered in the secondary offering through over-allotment on the Tokyo Stock Exchange, Inc. (the "Syndicate Cover Transaction") with the aim of returning the borrowed Investment Units. The investment units purchased by such bookrunner through the Syndicate Cover Transaction shall be appropriated in full for returning the borrowed investment units. Such bookrunner, at its discretion, may choose not to enter into any Syndicate Cover Transaction, or to terminate the Syndicate Cover Transaction prior to reaching the maximum number of investment units to be offered in the secondary offering through over-allotment during the Syndicate Cover Transaction Period.

Further, such bookrunner may conduct stabilizing transactions in connection with the primary offering and secondary offering through over-allotment, and appropriate all or part of the investment units that are purchased through such stabilizing transactions to return the borrowed investment units.

Such bookrunner intends to agree to the Third Party Allotment to purchase the number of investment units calculated by deducting the number of the investment units purchased through stabilizing transactions and the Syndicate Cover Transaction to be appropriated to the return of the borrowed investment units, from the number of investment units to be sold in the secondary offering through over-allotment. As such, there may be no subscription for all or a part of the investments units to be issued through the Third Party Allotment. As a result, the subscription right may be forfeited partly or entirely and the final number of investment units to be issued through the Third Party Allotment may be reduced to the same extent, or the issuance itself may not take place at all.

This press release does not in any way constitute any part of an offering of securities for investment. Additionally, this press release is not an offer of securities for sale in the United States.
