I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Information

1. Basic Views

At Nintendo, we strive to maximize long-term, continuous corporate value while carefully considering the benefits for everyone we touch, including shareholders but also consumers, business partners, employees, local communities and other stakeholders. We are working to achieve a highly transparent and sound system of corporate governance, as well as improve our corporate ethics.

[Disclosure Based on the Principles of the Corporate Governance Code] **New**

[Principle 1-4 Cross-Shareholdings]

In addition to the purpose of pure investment, the Company holds listed shares to maintain or develop business alliances or business relationships when it is deemed to contribute to the improvement of the Company’s corporate value over the mid- to long-term.

Cross-shareholdings are examined by the Board of Directors whether the holding is reasonable in light of the above policy upon confirming the purpose and rationality of holding shares per individual issuer. If the significance of holding these shares is deemed to have diminished as a result of the examination, the Company will consider selling the shares issue by issue and seek to reduce cross-shareholdings.

Voting rights attached to cross-shareholdings are exercised upon considering the operating results over a certain period and the impact on financial balances from a perspective of improving the corporate value of the investee over the mid- to long-term and approval or disapproval is determined on a per-proposal basis.

[Principle 1-7 Related Party Transactions]

Transactions with Directors in conflict of interest are stipulated in internal regulations to require approval by the Board of Directors pursuant to laws and regulations. Transactions with other related parties also require procedures stipulated in internal regulations. In addition, the Company conducts an annual survey of Directors, Executive Officers and the management teams of significant subsidiaries to confirm whether there are related party transactions.

[Supplementary Principle 2-4-1 Ensuring Diversity in Key Personnel within the Organization]

The Company respects human rights in its recruitment process, hiring employees regardless of gender, age, nationality, disability, sexual orientation, gender identity, or marital status. The Company conducts fair employee appraisal and treatment in accordance with the quality and quantity of skills demonstrated by employees, and helps employees demonstrate their skills even further.

The Company does not have specific targets for the appointment of women, foreign nationals, and mid-careers to managerial positions. However, as a global company engaging in the entertainment business, which is

characterized by increasingly diversifying customer needs and preferences, it is essential that we leverage the talents of a diverse workforce. Therefore, we are committed to respecting the personality and strengths of each and every employee, including employees from our overseas subsidiaries, and developing an environment where employees of diverse backgrounds can maximize their potential.

As part of these efforts, we are promoting the employment of women and creating an environment in which women can build successful careers. We will continue our efforts to increase the proportion of women in managerial positions.

(Global) Proportion of women in managerial positions in Nintendo Group's main offices: 23.5%

The Company nominates candidates for Directors who are judged to be eligible as determined by a comprehensive assessment of their character, knowledge, and experience, regardless of gender, age, or nationality, based on election standards prepared with the consent of the Audit and Supervisory Committee.

Based on this policy, the President proposes a list of candidates to the Nomination and Advisory Committee, which deliberates and reports to the Board of Directors. The Board of Directors confirms the list, considering this report, and submits a proposal for election to the General Meeting of Shareholders.

Based on this policy, the President (or another Director in the case of the President) suggests dismissal of the Director to the Nomination Advisory Committee, which deliberates and reports to the Board of

Directors. The Board of Directors then considers this report and submits a proposal for election to the General Meeting of Shareholders. Prior to making the decision on the dismissal of Directors (excluding Directors who are Audit and Supervisory Committee Members), the Board of Directors obtains input from the Audit and Supervisory Committee on whether the dismissal is reasonable.

[First Part of Supplementary Principle 3-1-3, and Supplementary Principle 4-2-2 Sustainability initiatives, etc.]

In accordance with our CSR goal of “putting smiles on the faces of everyone we touch,” the Company aims to contribute to the realization of a sustainable society and weave smiles through its products, services, and business activities.

Protecting, maintaining, and developing Nintendo’s intellectual property (game characters, etc.), which has gained recognition and evolved together with our gaming devices, is a top priority issue for the Company’s business. We have been developing new intellectual property and actively implementing measures against false and counterfeit products, and are expanding our intellectual property into a range of areas, including merchandise, amusement parks, mobile devices, and video content, in line with our basic strategy to “expand the number of people who have access to Nintendo IP,” thereby creating a structure that will allow our business centered on “proposing integrated hardware-software entertainment” to remain competitive in a sustainable manner.

In addition, in line with the recommendations of the TCFD (Task Force on Climate-related Financial Disclosures), we identify potential risks and opportunities related to climate change under the 1.5°C and 4°C scenarios, and assess their potential financial impacts. [Principle 4-8 Structure of the Board of Directors]

Of the current 10 Directors constituting the Board of Directors, one third or more, or four are Outside Directors, and all Outside Directors satisfy the standards for independent officers stipulated by the Tokyo Stock Exchange.

The Company has not filed a notification of one of the four Outside Directors as an Independent Officer with the Tokyo Stock Exchange. However, the Outside Director in question supervises and advises on the execution of operations appropriately from an independent position similarly to the other Outside Directors.

[Principle 4-9 Independence Standards and Qualification for Independent Directors]

In addition to referring to the standards for independence of Independent Officers defined in the “Guidelines concerning Listed Company Compliance, etc.” of Tokyo Stock Exchange, Inc., the Company appoints

Independent Outside Directors focusing on their ability to provide objective advice from a neutral position as well as excellent character, professional knowledge and experience.

[Supplementary Principle 4-10-1 Structure of Voluntary Advisory Committees, etc.]

Currently, three, that is, more than half of the five members of the Nomination Advisory Committee are Outside Directors, and all the Outside Directors satisfy the standards for Independent Officers stipulated by the Tokyo Stock Exchange. Currently, two Outside Directors concurrently serve as an Outside Director at other listed companies.

[Supplementary Principle 4-11-3 Analyzing and Evaluating the Effectiveness of the Board as a Whole]

The Company analyzes and evaluates the effectiveness of the Board of Directors once a year at fiscal year-end during the period from late March to May.

Analysis and evaluation is performed through questionnaires to all Directors which are collected and compiled by the secretariat of the Board of Directors to confirm the content of the analysis and evaluation.

Based on the results of the evaluation of the effectiveness of the Board of Directors for the previous fiscal year, the Company has determined that the Board of Directors is functioning effectively in all matters, including those related to the composition and operation of the Board of Directors and the provision of information to Outside Directors. While the increased number of Outside Directors has been highly evaluated for contributing to improving the quality of deliberations, we have received opinions that address the need for deeper discussions on management conducted among Directors, including Outside Directors, through various opportunities, not limited to Board of Directors meetings.

The Company will determine matters that need to be addressed in the future through further evaluation of the Board of Directors and work on enhancing the effectiveness of the Board.

Supplementary Explanation New

Compensation for Directors (excluding Directors who are Audit and Supervisory Committee Members) consists of fixed compensation, performance-based compensation as short-term incentives, and stock compensation as long-term incentives.

The performance-based compensation for each Director uses consolidated operating profit as a benchmark for the purpose of raising his or her commitment to enhancing the Company's performance and is calculated using the following formula.

$$\frac{\text{Consolidated operating profit} \times 0.2\% \times \text{Each Director's points}}{\text{Total points for all Directors}}$$

- * Please refer to the most recent securities report (Japanese Only) for the number of points corresponding to each Director's position, etc.

In the event that the consolidated operating profit average over the latest three fiscal years (including the fiscal year of payment) exceeds 400 billion yen and the consolidated operating profit in the fiscal year of payment exceeds 400 billion yen, the following will be added:

Stock compensation is paid as restricted stock. The total amount of monetary compensation claims to be provided to the Directors to acquire said shares shall not exceed 100 million yen annually, and the total number of shares to be issued shall not exceed 10,000 shares annually. The number of shares to be allotted individually to each Director within this scope will be determined by the Board of Directors.

- * The Company enacted a 10-for-1 stock split of its common stock effective October 1, 2022. The annual cap on the number of shares represents the number after adjusting for this stock split.

Policy on Determining Compensation Amounts
 and Calculation Methods

Established

Disclosure of Policy on Determining Compensation Amounts and Calculation Methods

The compensation for the Company's Directors who are not Audit and Supervisory Committee Members and Directors who are Audit and Supervisory Committee Members is determined within their respective upper limits which are established by resolution of the General Meeting of Shareholders.

The Company uses results of a compensation survey by an external research agency as a reference for setting compensation standards, etc. Also, matters related to the compensation for Directors are deliberated in the non-mandatory Nomination Advisory Committee mainly consisting of Outside Directors, and the deliberation results are reported to the Board of Directors.

1. Compensation for Directors (excluding Directors who are Audit and Supervisory Committee Members)
 Compensation for Directors (excluding Directors who are Audit and Supervisory Committee Members) consists of fixed compensation, performance-based compensation as short-term incentives, and stock compensation as long-term incentives. However, compensation for Outside Directors consists solely of fixed compensation, in view of their position of providing supervision and advice on management, without engaging in business execution.

The Company has not determined specific relative proportions of fixed compensation, performance-based compensation, and stock compensation.

(1) Fixed compensation

The amount of fixed compensation to individual Directors is decided by the Representative Director and President, under authority delegated by the Board of Directors, based on each Director's position and responsibilities, including whether or not he or she engages in business execution. Fixed compensation is paid in the same amount monthly.

(2) Performance-based compensation

The performance-based compensation is calculated using a formula that uses consolidated operating profit as a benchmark and is determined by the Board of Directors based on points corresponding to each Director's position within the cap set by a resolution of the Board of Directors. It is paid at a designated time each year. In addition to that, when both the average of consolidated operating profit of the most recent three fiscal years including the subject fiscal year for compensation payment and consolidated operating profit of the subject fiscal year for compensation payment exceed the amount set by resolution of the General Meeting of Shareholders, the amount calculated with a formula set by the General Meeting of Shareholders in advance is added.

(3) Stock compensation

Stock compensation is paid with restricted stock. The number of stocks allocated to each Director is decided according to the Director's position by resolution of the Board of Directors, and the compensation is paid

at a designated time each year. Restrictions on the transfer of shares are lifted when the Director leaves both the offices of Director and Executive Officer.

2. Compensation for Directors (who are Audit and Supervisory Committee Members)

Compensation for Directors (who are Audit and Supervisory Committee Members) consists only of fixed compensation in view of the fact that they are in the position of engaging in audit and supervisory duties independently from Directors who engage in business execution. The amount of individual compensation is determined through deliberation of the Audit and Supervisory Committee Members, and the same amount is paid monthly.

[Supporting System for Outside Directors]

- The Company has no department dedicated to assisting Outside Directors who are not Audit and Supervisory Committee Members, but those Outside Directors are supported as needed by the staff of the secretariat of the Board of Directors or other staff. Outside Directors who are Audit and Supervisory Committee Members are supported by the Audit and Supervisory Committee Office staff.
