1. Qualitative Information on Quarterly Consolidated Financial Results

(1) Explanation of operating results

During the three months ended May 31, 2023, the Japanese economy saw a gradual recovery trend in social and economic activities, including improvements in personal consumption as well as employment and income conditions, due to the reclassification of the novel coronavirus disease (COVID-19) as a Class 5 infectious disease. However, the future economic trend remains uncertain due to the soaring prices of energy resources including crude oil, and of raw materials caused by the prolonged situation in Ukraine and Russia; and the fluctuation of exchange such as the depreciation of the yen; and other factors.

Amid such an economic situation, a mainstay business of the Company group (the "Group"), the industrial waste treatment business of the Company centered on industrial wastewater treatment, was affected by increases in processing costs due to soaring raw materials and energy prices and production adjustments by customers. However, with a rise in crude oil prices, the selling prices of recycled fuels have been on a gradual rise, and the Company has expanded business by increasing its market share in all areas across Japan. In addition, the social reputation of the Company's recycling-centered processing method and recycled fuel grew further as moves toward carbon neutrality gained momentum globally.

In the soil remediation business of Daiseki Eco. Solution Co., Ltd., large-scale soil treatment deals in the Chukyo, Kanto, and Kansai areas, which were acquired by actively focusing on winning orders of high-added value deals and consulting sales activities, led to significant increases in both net sales and profits. In addition, the waste gypsum board business performed well.

In the lead recycling business of Daiseki MCR Co., Ltd., the domestic market for recycled lead remained firm, and the factory maintained nearly 100% capacity.

The washing business for large tanks in System Kikou Co., Ltd. continued to operate at nearly 100% capacity, but as a result of the delay in recording net sales due to the completion of construction, net sales and profits fell short of the plan for the three months ended May 31, 2023. However, the order situation is favorable, and the Company can expect to achieve the plan for the full year.

The Group has aimed for a company that is well-liked by local communities by conducting management that emphasizes our purpose of becoming "an environment-creating company contributing to society through the environment and making the best use of limited resources" as an environment-creating company, continuing to step up efforts to retain and train human resources while also investing to expand capacity.

As a result, for the three months ended May 31, 2023, net sales, operating profit, ordinary profit, and profit attributable to owners of parent were $\pm 17,874$ million (up 29.9% year on year), $\pm 3,935$ million (up 25.1% year on year), $\pm 4,040$ million (up 23.0% year on year), and $\pm 2,431$ million (up 9.8% year on year), respectively, securing an increase in both net sales and profits and achieving record-high results for the first quarter.

As the Group consists of a single business segment, the environment-related business, the information by segment is omitted.

(2) Explanation of financial position

Total assets as of May 31, 2023 increased by \$4,149 million compared with the end of the previous fiscal year, amounting to \$104,294 million. The increase was largely due to increases in notes and accounts receivable - trade, and contract assets of \$3,028 million, goodwill of \$1,481 million, property, plant and equipment of \$1,123 million, and long-term time deposits of \$1,000 million, offset by a decrease in cash and deposits of \$2,750 million. Liabilities increased by \$4,120 million compared with the end of the previous fiscal year, amounting to \$19,839 million. The increase was largely due to increases in long-term borrowings of \$2,632 million, notes and accounts payable - trade of \$1,080 million, and current portion of long-term borrowings of \$364 million, respectively, offset by a decrease in short-term borrowings of \$800 million. Net assets increased by \$28 million compared with the end of the previous fiscal year, amounting to \$84,455 million. The increase was largely due to increases in retained earnings of \$950 million and non-controlling interests of \$205 million by recording profit gains, etc., respectively, offset by a \$1,057 million decrease due to an increase in treasury shares resulting from purchase of treasury shares.

(3) Explanation of consolidated earnings forecasts and other forward-looking statements

No revisions have been made to the consolidated earnings forecasts announced on April 5, 2023.

Not applicable.

Notes on significant changes in the amount of shareholders' equity

(Purchase of treasury shares)

The Company resolved a matter regarding repurchase of its own shares at the Board of Directors' meeting held on April 24, 2023 in accordance with the provisions of Article 156 of the Companies Act as applied mutatis mutandis pursuant to Article 165, Paragraph 3 of the same Act, and acquired 265,500 shares of its common stock. As a result, treasury shares increased by \$1,057 million in the three months ended May 31, 2023.

Changes in accounting policies

(Application of Implementation Guidance on Accounting Standard for Fair Value Measurement)

The Company has applied the "Implementation Guidance on Accounting Standard for Fair Value Measurement" (ASBJ Guidance No. 31, June 17, 2021; hereinafter "Fair Value Measurement Guidance") from the beginning of the first quarter of the fiscal year under review. The Company will prospectively apply the new accounting policies stipulated by the Fair Value Measurement Guidance in accordance with the transitional treatment provided in Paragraph 27-2 of the Fair Value Measurement Guidance. This has no impact on the quarterly consolidated financial statements.
