RAKSUL Selected as Constituent of FTSE Blossom Japan Index for the First Time

RAKSUL INC. (the “Company”) is pleased to announce that we have been selected for the first time as a constituent of “FTSE Blossom Japan Index,” a leading ESG Investing index in Japan.

The index was designed by FTSE Russell, a wholly owned subsidiary of the London Stock Exchange Group, to measure the performance of Japanese companies demonstrating strong ESG practices and is consisted of 310 Japanese stocks* with outstanding ESG ratings. In addition, this index is used as an important decision criterion for investors, and is adopted as one of the benchmarks for ESG investment by the Government Pension Investment Fund (GPIF), the world’s largest pension fund.

*As of June 19, 2023

The Company established the Sustainability Committee in September 2022 and has been working to disclose information corresponding to TCFD (“Task Force on Climate-related Financial Disclosures”) and the ongoing development of its corporate governance structure. Following our selection as a constituent of the “FTSE Blossom Japan Sector Relative Index” in April 2022, we believe that our commitment to ESG-conscious management has been highly evaluated.

FTSE Blossom Japan Index

We will continue to further strengthen our efforts toward promoting sustainability/ESG initiatives and actively disclose such information to realize both a sustainable society and medium-to-long term enhancement of corporate value through our corporate activities.
