

Launch of CloudSign Review, an AI Review Support Service — Bengo4.com Forms Capital and Business Alliance with Lisse —

Bengo4.com, Inc. (Minato-ku, Tokyo; Representative Director and President: Taichiro Motoe; hereafter “the Company”) announces that the Company has formed a capital and business alliance with Lisse Co., Ltd. (Chuo-ku, Tokyo; Representative Director and President: Miki Fujita) and has begun providing CloudSign Review, an AI-powered automated contract review service through CloudSign, the contract management platform provided by the Company. The impact of this development on business results for the current fiscal year is insignificant.

■ Introducing CloudSign Review, the AI Review Support Service

CloudSign Review is an AI-powered contract automated review service provided by CloudSign, Japan’s leading contract management platform which has been introduced by more than 2.5 million companies and which has been used to send more than 15 million contracts. The client uploads the contract file and selects its own standpoint and AI immediately identifies disadvantageous clauses or missing clauses and automatically displays disqualification clauses, clauses that need attention and commentaries. Since commentaries prepared by specialist lawyers and a draft text that is more favorable for the client is also displayed, the service significantly reduces the man-hours required to review contracts even in the absence of high levels of specialist knowledge.

弁護士ドットコム

The service has the following three features.

(1) High AI accuracy supervised by lawyers

High accuracy review function supervised by lawyers from leading law firms

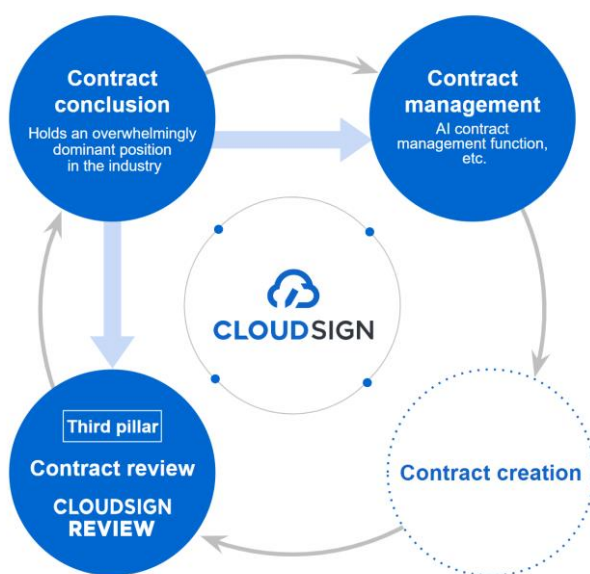

(2) Reasonable price structure

Reasonable pricing which facilitates introduction of the service at all enterprises whatever their size A special plan for users who introduce the service in combination with the electronic contracting service CloudSign is also available.

(3) Extensive support system

Provision of an extensive support system based on the experience of supporting introduction of CloudSign at more than 2.5 million customers

The Company aims to integrate this service with its other contracting and contract management services, as a third pillar of the Company's contract lifecycle management (CLM) business model.

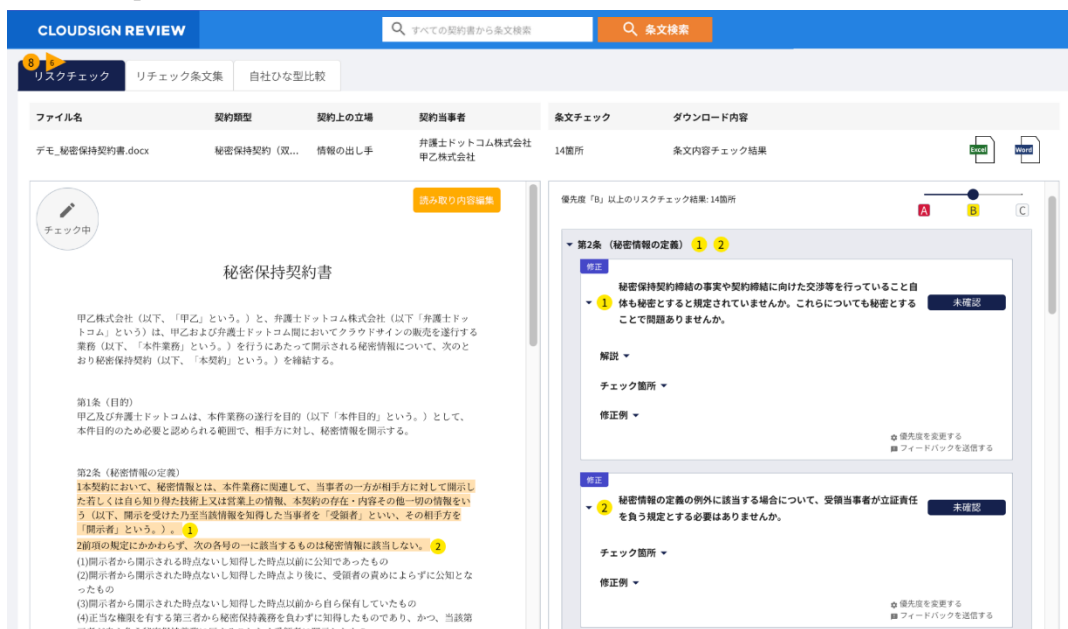

Contract lifecycle management

■ Schematic of operations

■ Comments by Daichi Tachibana, Director and GM of CloudSign Business Division. (Background to provision of the service)

“We have now formed a capital and business alliance with Lisse and begun offering an AI-powered review service as a third pillar of our contract lifecycle management framework. By integrating the excellent review technology that Lisse has developed into our contract management platform CloudSign and combining the service with our customer base of 2.5 million companies and our extensive support system, we aim to become market leader in the AI-powered review market.”

■ About CloudSign: <https://www.cloudsign.jp/>

CloudSign is a contract management platform that digitizes everything from contract execution to management. The electronic signatures and timestamps are compliant with the Electronic Signature Law, ensuring smooth and secure contract execution. CloudSign also offers various contract management functions, such as an AI contract management capability that uses natural language processing technology and a smart cabinet function to automate the sorting of contracts and allow users to centrally search and manage previous paper-based contracts. Launched in 2015, CloudSign has become the No. 1 service in the electronic contract market(*), and is widely adopted by companies and local governments.

* Market share in “New Markets of Software Business 2021” (2020 result of e-contract tools) by Fuji Chimera Research Institute, Inc.
