**Overseas Wi-Fi Router Rental Service “GLOBAL WiFi®”
expands its Ultra-high-speed Unlimited 5G Service Area to China and Hong Kong**

Vision Inc., (Head Office: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereafter “Vision”), provider of the low-cost, high-quality “Global WiFi®” (<https://townwifi.com/>) overseas Wi-Fi router rental service, has added China and Hong Kong to its Ultra-high-speed 5G coverage area starting July 27.

This addition marks the 11th and 12th entry to Visions 5G coverage areas, with more areas being added in the near future.

In order for our users not to worry about their data capacity, we have started offering “Unlimited Plans” through our Ultra-high-speed 5G service, which doesn’t set any limits on their daily data usage. We will continually put our efforts on improving service quality, network quality, and area coverage, which includes the recent expansion of the Ultra-high-speed 5G service area, aiming to provide a comfortable mobile connectivity for tourists and business travelers around the world.

■ **Our China Special Line**

This plan enables the use of applications, SNS, and internet services that are partially restricted in China. Reference: Apps and websites available via our special line *As of July 2023

- Facebook
- Instagram
- LINE
- X (Twitter)
- Youtube

- Googlemap
- Google
- Google Calendar
- Gmail
- Yahoo (some functions)

The key point behind this service is that it uses a different technology for higher communication compared to conventional VPNs, it can be used as it is without the need of additional connection settings. It is also possible to share the service with multiple users.

■ “Global WiFi®” Ultra-high-speed 5G Unlimited Plan Service Area Expansion

France: 3,370 yen (Early booking discount [*] 3,170 yen)
Germany: 3,370 yen (Early booking discount [*] 3,170 yen)
Spain: 3,370 yen (Early booking discount [*] 3,170 yen)
Hawaii: 3,170 yen (Early booking discount [*] 2,970 yen)
Mainland U.S.A.: 3,170 yen (Early booking discount [*] 2,970 yen)
[*] Early booking discount applies within application period. For details, check our website.

Precautions:

- Plan provides data communications even without an 5G connection by switching to 4G.
- 5G may be unavailable due to local circumstances; in such cases, 4G only is provided.
- Because the plan uses the most up-to-date devices, customers can expect higher communication speeds compared to previous 4G devices, even when connecting via 4G.
*Varies depending on location.
- If data volumes become excessive, connectivity may be restricted depending on the policies of partner carriers at the destination country or our own assessment.

■ About Vision’s “communication quality” standards and “signal audits”

Under “GLOBAL WiFi®”, Vision provides global high-speed mobile communications based on information updates and verifications conducted in collaboration with partner communications carriers around the world.

When adding coverage areas, communication methods, and plans, we also verify locations with “signal audits”.

After verifying the extent of the coverage area (signal area), including dead spots and locations where signals are blocked by buildings, etc., we measure actual communication speeds. Only if these measurements meet our own communication quality standards do we begin purchasing communications bandwidth.

The verification is undertaken by our own overseas staff and partner companies in some areas.

There are many 5G communications carriers around the world, but at Vision, we only begin providing service in areas that meet our quality standards.

■ Outline of the GLOBAL WiFi® service

- Service details: Mobile Wi-Fi router rental service for overseas use
