Notice of Strategic Long-Term Supply Agreement (MOU)

Our subsidiary, W-SCOPE CHUNGJU PLANTCO., LTD., has signed MOU with Samsung SDI on the product supply volume for five years from 2023 in order to respond to the further increase in demand for lithium-ion batteries in the future.

1. Supply Destination : Samsung SDI
2. Supplier : W-SCOPE CHUNGJU PLANT CO., LTD.
3. period : 2023 – 2027 (5 years)
4. volume : about 4 billion square meters
5. Supply area : South Korea, USA and other areas

The content of the agreement is mainly for EV applications (including cylindrical type), and the total supply volume of separators for five years from 2023 has been agreed. In line with future demand for EVs and an increase in our separator supply capacity, we will make appropriate revisions.

It should be noted that this has already been factored into the results for this fiscal year.
