(3) Cash Flows

Cash and cash equivalents at June 30, 2023 was ¥1,665.1 billion, an increase of ¥108.1 billion from March 31, 2023.

(Operating activities)

Net cash provided by operating activities was ¥486.6 billion, mainly due to cash flows from operating transactions and dividend income, as well as decreases in working capital requirements, despite the payment of income taxes.

(Investing activities)

Net cash provided by investing activities was ¥63.4 billion. The main sources of cash were gains from the sale of investments in affiliated companies and investment property, despite the payments for investments and loans to affiliated companies and the purchase of property, plant and equipment.

Main items (Segments) included in investing cash flows were as follows.

New/Sustaining Investments

- Australian metallurgical coal business (Mineral Resources)
- European integrated energy business (Power Solution)
- LNG-related business (Natural Gas)
- Convenience store business (Consumer Industry)
- North American real estate business (Urban Development)

Sales and Collection

- Automobile finance business (Automotive & Mobility)
- Domestic investment property business (Urban Development)
- Investment in an affiliated company (Food Industry)

As a result, free cash flows, the sum of operating and investing cash flows, was positive ¥550.0 billion.

(Financing activities)

Net cash used in financing activities was ¥475.5 billion. The main uses of cash were payments of dividends, the acquisition of treasury stock, and repayments of debts and lease liabilities.

The dividends were paid in compliance with the shareholder returns policy of progressive dividends in line with sustained profit growth. The acquisition of treasury stock was carried out in order to optimize total payout ratio, as well as the Company's capital structure. Regarding financing through debt, the policy is to maintain debts at an appropriate level in light of liquidity and financial soundness.

In addition to the aforementioned operating cash flows for financial accounting purpose, in order to present the source of funds for future investments and shareholder returns appropriately, the Company defined “Underlying operating cash flows (after repayments of lease liabilities)”, which is operating cash flows excluding changes in working capitals whilst including repayments of lease liabilities which are necessary in the ordinary course of business activities, and “Adjusted free cash flows”, which is the sum of “Underlying operating cash flows (after repayments of lease liabilities)” and investing cash flows.

Underlying operating cash flows (after repayments of lease liabilities) was positive ¥344.0 billion.

As a result, Adjusted free cash flows was positive ¥407.4 billion.

(4) Forecasts for the Year Ending March 2024

There has been no change to the forecasts for the year ending March 2024 announced on May 9, 2023.

Note:

Earnings forecast and other forward-looking statements in this release are based on data currently available to management and certain assumptions that management believes are reasonable. Therefore, they do not constitute a guarantee that they will be achieved. Actual results may differ materially from these statements for various reasons.

3. Changes in Accounting Policies and Accounting Estimates

The significant accounting policies applied to the condensed consolidated financial statements for the three months ended June 2023 are identical to those for the previous fiscal year, except for the following:

New standards and interpretations applied

Standards and interpretations	Outline
IAS 12 Income Taxes (Amended)	Deferred Tax related to Assets and Liabilities arising from a single Transaction

IAS 12 Income Taxes (Amended)

The Company has applied IAS 12 (Amended) from the first three months of the fiscal year ending March 2024. As a result, the beginning balance of “Investments accounted for using the equity method” and “Retained earnings” in the consolidated statement of financial position, and “Retained earnings” in the consolidated statement of changes in equity for the year ended March 2023, decreased by ¥5,381 million, respectively.

In the consolidated statement of changes in equity for the year ended March 2023, “Cumulative effects of change in accounting policy” in “Retained earnings” decreased by ¥22,384 million. This includes a decrease of ¥5,381 million due to the application of IAS 12 (Amended) as above, as well as a decrease of ¥17,003 million due to IAS 37 “Provisions, Contingent Liabilities and Contingent Assets” (Amended) applied from the previous fiscal year.

In accordance with the application of IAS 12 (Amended), the accounting treatment at the time of initial recognition of transactions that result in recognizing equivalent amounts of taxable and deductible temporary differences is clarified, and “Deferred tax liabilities” and “Deferred tax assets” are recognized in the consolidated statement of financial position for such taxable and deductible temporary differences, respectively. In certain businesses under investments accounted for using the equity method, the Company recognized deferred tax liabilities without recognizing deferred tax assets due to lack of recoverability. As a result, the Company made the retrospective adjustment to “Investments accounted for using the equity method” and “Retained earnings” as described above.

Except standards and interpretations outlined above, the adoption of new standards and interpretations had no significant impact on the condensed consolidated financial statements for the three months ended June 2023.
