## Up/Cross selling strategy

Pick up new needs for information and communications services and **continuously offer services at reasonable prices at the right time.** Build a **long-term relationship with customers.**

- ✓ Original CRM
- ✓ Subscription-based business

# | Business Summary

# Two Business Segments

## "GLOBAL WiFi" Business

Provide anytime, anywhere, safe, secure and comfortable mobile internet environment all over the world.

Wi-Fi router rental service.  
Connectable with multiple users and multiple devices (companion, smartphone, and laptop, etc.).

## Information and Communications Service Business

Provide the most suitable information and communications-related products and services tailored to the stage and needs of the company since starting business.

Our own sales structure, CRM.

Web marketing × Sales rep. × CLT

(Customer Loyalty Team)

# “GLOBAL WiFi” Business Business Model/Competitive Advantage

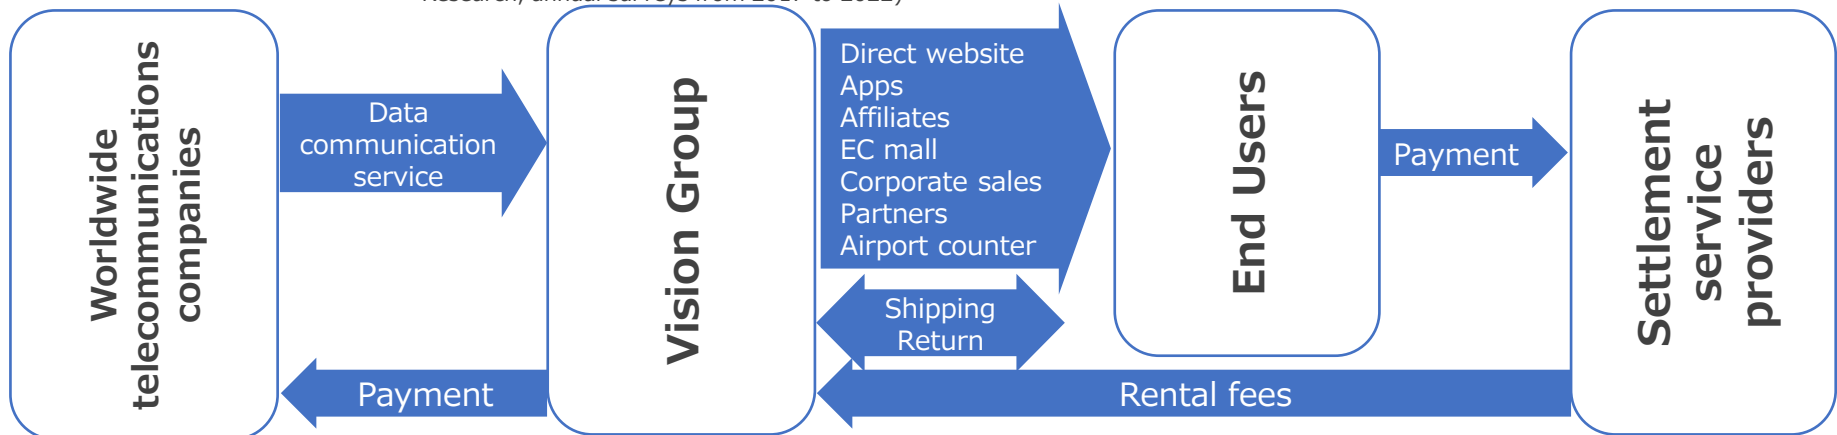

GLOBAL WiFi®

<b>Less Expensive Fixed-rate</b>	Maximum cost benefits -89.9% From JPY300/day Japanese cellphone companies' fixed-rate discount comparison
<b>Areas</b>	Available in over 200 countries and regions worldwide, leading the industry in the number
<b>Comfortable</b>	High-speed communications in partnership with telecom carriers around the world
<b>Safe / Secure</b>	Secure; 47 support bases available 24 hours a day, 365 days a year, around the world
<b>Counter</b>	Number of airport counter is the industry's largest class
<b>Corporate Sales</b>	Uptake ability of corporate needs
<b>Customers</b>	Number of users is the largest in the industry *

\* Number of users and sales revenue survey for “2016-2021 Overseas Wi-Fi rental service (domestic → overseas)” (Tokyo Shoko Research, annual surveys from 2017 to 2022)

# Comparison of Overseas Internet Connection Methods ①

“Global WiFi” “NINJA WiFi” are competitive in safety, security, comfortability, and reasonable price.

Users are unwilling to share their own data traffic with others, but they are less reluctant to share a rented Wi-Fi router with others (They tend to share it with two or three people in case of independent travel).

\* Based on our research and standard.

Means	Price	Area	Speed	Management	Security
 	○	○	○	○	○
Partnering with overseas high-quality ISP - to offer the fastest connection speed in the area, reasonable price, security and usability.					
Roaming (Telecom carriers' fixed-rate)	×	△	△	○	○
There are problems with price and quality. (It costs from about JPY980 to JPY2,980/day, and it may cost more expensive.)					
Prepaid SIM (Purchased overseas)	△	△	○	×	○
Need knowledge to manage. (Local purchase, issues with data capacity, and periodical charge is required, etc.)					
Free Wi-Fi Spot (Hotel, Café, etc.)	○	×	△	○	×
Problem with coverage (with limited communication area), speed (depending on the user's communication environment and traffic conditions), and security.					

# Comparison of Overseas Internet Connection Methods ②

Wi-Fi router rental	Com- pari- son	Roaming (Telecom carriers' fixed-rate)	Free Wi-Fi Spot / Hotel Wi-Fi
<p>JPY300-2,170/day * Round-the-world plan JPY2,980/day <b>Apply for rental on the website.</b></p>	<p><b>Fee</b></p>	<p>JPY980-2,980/day <b>Need to check in advance the contract details, compatible models, and settings, etc. according to the plan.</b> * Depending on your mobile carrier</p>	<p>Free Wi-Fi spot <b>Free Accommodation fee</b> (Hotel Wi-Fi included) or <b>JPY500-3,000</b> Hotel Wi-Fi + accommodation fee</p>
<p><b>Fixed fee and stable speed</b> Full security and compensation You can use it comfortably thanks to the fixed fee. Choose the communication capacity according to your situation.</p>	<p><b>Advan- tage</b></p>	<p><b>Easy to connect</b> * Tethering is also available.</p>	<p><b>Easy to use</b> Area is limited, but it is provided free of charge in many places, and it is easy to connect.</p>
<p><b>More luggage</b> Need to carry a Wi-Fi router in addition to your smartphone.</p>	<p><b>Dis- advan- tage</b></p>	<p><b>Expensive</b> Fee is more expensive than those for Wi-Fi rental. If the setting is wrong for data roaming, the fee can be more expensive.</p>	<p><b>Be careful about unauthorized access</b> It is easy to use, but it has some risks of virus infection and personal information being stolen by unauthorized access.</p>
<p>If you connect the Internet at a stable speed without worrying about additional charges (You can use it with several people at a lower fee by splitting the bill) <b>Available anywhere.</b> <b>No worry about busy access and difficulty to connect.</b></p>	<p><b>Reco- mend- ation</b></p>	<p><b>If you want to connect the internet easily</b> with your own device</p>	<p><b>Communication area is limited, but you want to save money.</b> <b>It is for users who only need to connect the overseas Internet in a limited amount of time.</b></p>

# “GLOBAL WiFi” Business Profit Structure

Items	Summary
Sales	<p><b>Overseas</b>  <b>Regular rental :</b>  <b>Rental fee per day × number of days used</b>                      Average: JPY1,000/day, Average number of days used: 7 days                      Options available such as insurance, mobile battery, etc.</p> <p><b>GLOBAL WiFi for Biz :</b>                      Monthly basic charge (JPY2,167) + data communication fee (plan) × number of days used                      Use service in Japan (Domestic option for teleworking)</p> <p><b>Domestic (in Japan)</b>  <b>Rental fee per month (available for rental from 1 day)</b>                      Average: Approx. JPY5,000/month, Average days used: 1.5 months (45 days)</p>
Cost of sales	<p><b>Data communication (telecom carriers in the world)</b>  <b>Terminal price (mobile Wi-Fi routers)</b>                      Recorded as rental asset (recorded by depreciation over 2 years)  <b>Outsourcing (commission paid to sales agents), etc.</b></p>
SG&A expenses	<p><b>Personnel, advertising, shipping delivery, business consignment, credit card payment, etc.</b>  <b>Operation and rent of shipping centers, airport counters, customer centers, etc.</b>  <b>Other SG&amp;A expenses, etc.</b></p>

# Active Sales Expansion of “GLOBAL WiFi for Biz”

- Gaining Competitive Advantage When Travel Recovers -

Sales of in-house permanent type “GLOBAL WiFi for Biz” for corporate customers are favorable by continuing to be used for teleworking (increase in the number of contracts and the communication usage).

Overseas communication increases (long-term use by local expatriates, etc.).

⇒ Used in China, the United States, Thailand, Vietnam, Germany, Indonesia, and other European countries.

Connect Internet anywhere in the world with one digital device

## “Global WiFi for Biz”

No need to

apply

receive

return

If you have one “GLOBAL WiFi for Biz” in your company, you can use it immediately for teleworking and sudden overseas business trips, and no application required. You will no longer use overseas roaming services because a rented Wi-Fi router is not delivered in time!

# The Launch of an Ultra-High-Speed 5G Plan

- Gaining Competitive Advantage When Travel Recovers -

Expanding area for an ultra-high-speed 5G plan, the first in the global Wi-Fi router rental industry.

Available areas are mainland USA, Hawaii, South Korea, Taiwan, Thailand, UK, Italy, France, Germany, Spain, China, and Hong Kong.

## •Our China Special Line

This plan enables the use of applications, SNS, and internet services that are partially restricted in China. The key point is that it uses a different technology for higher communication compared to conventional VPNs, it can be used as it is without the need of additional connection settings.

The image is a composite graphic. On the left, a black Wi-Fi router is shown against a background of colorful, radiating light streaks. The text '5G plan' is prominently displayed in large, bold letters, with 'Ultra-high-speed communication' written above it and 'Expanding coverage area!' below. The router's screen shows '4G LTE', '0.00', and 'GLOBAL WIFI'. On the right, a blue-to-purple gradient background contains a speed comparison diagram. At the top, a speedometer icon is next to the text 'More comfortable to use with 5G!'. Below this, three rows compare plans: '3G Plan' with 'Max 42Mbps' and a person walking icon; '4G Plan' with 'Max 150Mbps' and a person on a motorcycle icon; and '5G Plan' with 'Max 2.5Gbps' and a rocket icon. A text block above the 5G Plan row states: 'The 5G plan is ultra-high-speed communication with a maximum downlink speed of 2.5Gbps! More comfortable for travelers, Work efficiency is improved for business people.'

# Launch of "World eSIM"

- Gaining Competitive Advantage When Travel Recovers -

Launch of an eSIM service, "World eSIM", that can be used in over 120 countries around the world.

Provided by GLOBAL WiFi, number of overseas Wi-Fi rental users is the largest

**Next-generation communication overseas**

**eSIM World eSIM**

- You can use your smartphone in more than 120 countries!
- You can choose the price plan that suits you!
- No more luggage, no pick-up or return!

### Respond to various usage needs

World eSIM	Wi-Fi rental	Overseas SIM
<p><b>Built-in eSIM</b></p> <p><b>Rewrite information remotely</b></p> <p>No need to replace SIM. Since it is written directly in your smartphone, your luggage does not increase. You can also apply from overseas. <i>* If you apply from overseas, it will take about 3 days.</i></p>	<p>You need to pick up and return the Wi-Fi device. Since you connect to the internet through a Wi-Fi device, you need to carry your Wi-Fi with you.</p>	<p>After purchasing an overseas SIM, you need to replace the SIM card and set it yourself. When you return to Japan, you will need to replace the SIM card again.</p>
Alone 1 smartphone	Multiple users, multiple devices	Alone 1 smartphone

**No more luggage.**

No need to carry Wi-Fi router!

**No pick-up or return.**

No need to carry Wi-Fi router!

**Apply from overseas.**

Apply online!

For international travelers coming from Europe and the U.S., where they often purchase SIM cards locally, we plan to aggressively market to overseas travelers (inbound and overseas travelers from overseas).

# Utilize "CLOUD Wi-Fi Router"

- Maximize Convenience and Cost Efficiency -

A Wi-Fi router with next-generation communication technology that manages SIM on the cloud.

No need to insert/change SIM physically.

Communication lines of the world are available with only one device.

The device settings can be adjusted remotely in the case of communication failure.

The plan (data capacity) can be changed during the rental term.

## Maximize the characteristics of the CLOUD Wi-Fi router.

Convert the Cloud Wi-Fi router used for overseas communication service to the domestic Wi-Fi router.

Since a physical SIM card is not inserted in the router, it can be assigned to other routers depending on the communication status.

\* It can be operated even in the case that the number of rentals is more than the number of SIMs (efficient operation of communication costs).

# Expand Service Areas for Unlimited Plan

- Gaining Competitive Advantage When Travel Recovers -

Tend to consume a lot of data communication capacity, such as diversified smartphone apps, transmission and reception of large images and videos, and SNS postings, etc.

Popular to share with multiple people such as friends and family members, and to use multiple devices (smartphones, tablets, and laptops, etc.) for business.

Expand the service areas and plans, responding to requests for the plan that can be used without worrying about data capacity and long-term use (extended overseas business trip period due to COVID-19).

Increase choice ratio of unlimited plan ⇒ Improve ARPU.

## Unlimited Plan

Introducing a plan with unlimited usage capacity

Popular

You can use a lot of data without worry with the unlimited plan

Further expanded the coverage area.

Available in **91 countries**

### What's an unlimited plan?

"Unlimited plan" with unlimited data capacity was born from the voice of customers who want to use without worrying about the data capacity.

# Airport Counter and Smart Pickup

Receive and return at 19 domestic airports, 36 counters, 37 Smart Pickup units, and return BOX. Installed automatic pick-up lockers at 15 airports.

The service level is optimized according to customer.

**Smart Pickup**

You can receive in 10 seconds.

Automatic pick-up locker

Available at Haneda, Narita, Kansai, and other airports!

Eliminate waiting time for customers who do not need explanation such as repeaters (Utilize Smart Pickups). Airport staffs respond to customers who need explanation (Utilize airport counters).

The highest number of airport counters in the industry

Receive and Return according to customers needs

At the airport

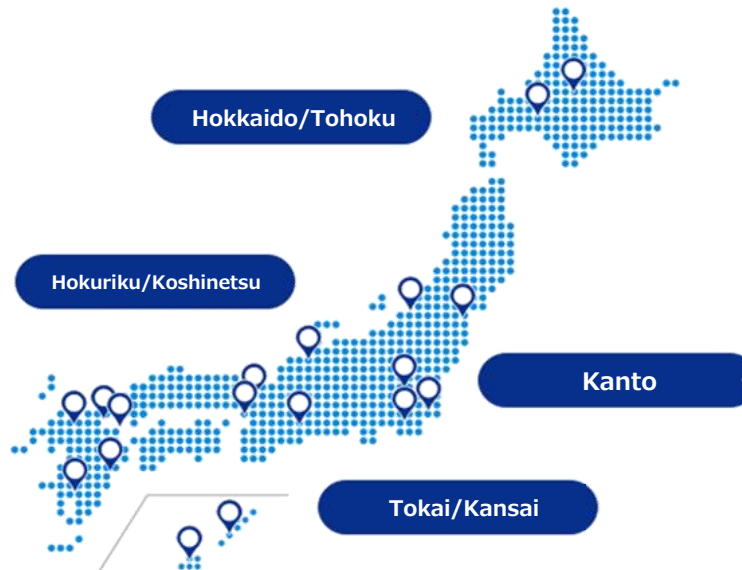

By delivery

At a convenience store

Overseas destination

## Airport and other places to receive/return in Japan

Hokuriku/Koshinetsu	Hokkaido/Tohoku
Niigata Airport	New Chitose Airport★
Komatsu Airport★	Asahikawa Airport

JR Miyazaki Sta.	Kansai Airport★
Kagoshima Airport★	Chubu Airport★
Naha Airport	Itami Airport★
Miyako Shimojishima Airport★	Mt. Fuji Shizuoka Airport★

★Available for automatic pick-up lockers

## Automatic pick-up locker

You can receive in 10 seconds without waiting.

Smart Pickup  
(Automatic pick-up locker)

Smart Pickup

## Immediate customer identification counter (QR code reception counter)

Reception

Standby

SmartCheck

Shorten waiting time

No congestion

Improve convenience

Improve CS

Increase sales

**Evolve to more convenient, comfortable, relieved counters that meet each customer's needs,** responding to the increase in the number of rental (delivery) and optional services (compensation service, accessory etc.), for Japanese traveling overseas and foreign visitors to Japan.

# Online Order System just before Departure

(Smart Strategy × CLOUD WiFi × Database)

**Acquire departing passengers on the day.**

⇒ **Increase number of users.**

\* Respond to WEB application in front of the airport counter instantly in collaboration with the database.

# Expand Tabi-naka Services (Services during Travel)

Expand Tabi-naka services (including options), responding to customer requests.

Support safe, secure, and comfortable travel.

# Pick up at Convenience Store

- Gaining Competitive Advantage When Travel Recovers -

Add Picking up at Convenience Store as an option which can be received at 7-Eleven stores nationwide (except Okinawa) near work or home based on convenience.

Provide an option to avoid crowded places such as airport counters. You can pick it up even at midnight if the store is open.

**At Seven-Eleven  
near you**

You can pick it up at Seven-Eleven near you.

**At anytime**

You can pick it up even at midnight if the store is open.

**Ready-to-go  
in advance**

You don't need to wait at the airport counter.

# Expand Unmanned Stores

- Gaining Competitive Advantage When Travel Recovers -

Increase unmanned stores with vending machines.

**Where are they set up?** (As of June 30, 2023)

Sendai Airport, Komatsu Airport, Mt. Fuji Shizuoka Airport, Kumamoto Airport, Kita-kyushu airport, Miyako Shimojishima Airport \*Plan to add more in the future.

**What type of machines are set up?**

Smart Pickup + Return BOX (Available for pick-up and return)

**Features**

Non-face-to-face receipt without waiting at the airport counter even during busy seasons (for repeaters who do not need explanation, and effective against COVID-19).

Available 24 hours a day including early in the morning and late at night, when there are needs, but it is difficult to secure personnel.

Also set up vending machines for pre-paid SIM for domestic use mainly for foreign travelers visiting Japan and those who are temporarily back to Japan.

Possible to add touch points in a small space and at low cost (convenience improved and profits increased).

# “Tsuyaku-fukikae.com”

- New Service Making the Most of Our Customer Base -

The service for online/offline business negotiations and conference interpretation, video translation/dubbing, and translation.

## “Overcoming the language barrier, make your business more global.”

Provide interpretation, translation, and dubbing services that can be available in various business situations at reasonable prices.

Emphasize communication with overseas investors and support the enhancement of the English-language disclosure.

Also support dubbing and subtitles of financial summary video, translation and other services of financial statements, financial results presentation materials, and convocation notices of general shareholders' meeting.

Video translation/dubbing (Japanese → English)  
Financial summary video (Vision Inc.)

Example of interpretation (English ⇄ Japanese)  
Special talk with Mr. Audrey Tang, Digital Minister of Taiwan

Overcoming the language barrier,  
make your business more global.
