**Insource Selected by Nara Prefecture as a contractor of the "Project to Promote Online Training"
- Provide a learning environment for DX and business skills for people working in companies in
Nara Prefecture -**

Insource Co., Ltd., (hereafter referred to the Company), a company that helps organizations solve problems through the power of education and IT, is pleased to announce that the Company has been selected as a contractor for the "Nara Prefecture Online Training Project" (hereafter referred to the Project) conducted by Nara Prefecture. We provide an environment for those who are working in Nara Prefecture to learn DX knowledge, OA skills, and various sales and administrative skills, and support career development through relearning. The Project will also be linked to Nara Prefecture's official LINE, X (formerly known as Twitter), facebook and other social media, and will be open to a wide range of people who work at companies in Nara Prefecture.

This Project will provide a learning environment for "e-Learning" based on "Leaf," Japan's largest LMS (Learning Management System), which is used by approximately 2.8 million people (*as of the end of July 2023).

More than 230 e-Learning courses are available, including DX-related courses based on our know-how, courses for sales representatives to improve their skills as a working member of society, and courses to improve administrative skills. In addition, the "Leaf Corporate University" function (available from April 2023), which allows attendees to objectively assess their current skills and receive recommendations to supplement the skills they lack, will be used to effectively improve the skills of attendees. The Company is committed to contributing to supporting the career development of those who are working in Nara Prefecture.

◆ What LMS "Leaf" (education management system) is

An LMS developed by the Company to support productivity improvement. It helps not only training and career support such as training management, administration, and e-Learning, but also has streamlined personnel-related tasks such as personnel evaluations and stress check operations, and saved labor by using IT.

We will continue to support human resources personnel with the power of IT, and will make every effort to expand and improve our services.
