

Notice Concerning Corporate Website Renewal: Channel of Financial and Non-financial Information Dissemination Aiming to Increase Corporate Value

Leopalace21 Corporation (Headquarters: Nakano-ku, Tokyo; President and CEO: Bunya Miyao; the “Company”) announced a complete renewal of its corporate website on August 28 in order to effectively disseminate information for stakeholders.

■ Company's corporate website

<https://www.leopalace21.co.jp/english>

■ Background

The website structure had become increasingly complex as years have passed since the previous corporate website was originally designed. The website was completely redesigned in order to improve the visibility and dissemination of financial and non-financial information to shareholders, investors and other stakeholders in order to achieve sustainable growth and increase corporate value over the medium to long term.

■ Renewal Points

(i) Expansion of content

We have re-organized the dispersed content and expanded the information sought by the stakeholders from both financial and non-financial perspectives. In addition, to make up for the lack of information on the website to date, content has been added to further increase understanding of the Company's strengths and attractiveness.

(ii) Revamped design and structure

The design and structure of the website has been revamped to improve navigation for the visitors and to adopt a stakeholder perspective in the design. The website is now multi-device compatible and has been designed with an emphasis on usability.

We will continue to provide information about the new initiatives and useful tips on the website and look forward to your continual visit.
