- The Company has established a policy on determining the details of remuneration payable to each Director (this “Policy”).
- The remunerations paid to Directors under our remuneration system for officers consists of “Basic Remuneration,” the amount of which is fixed, and “Bonus,” which is linked to the business results of each fiscal year, as well as “Restricted Stock,” which is linked to medium- and long-term business results.
- In the case of External Directors and Audit & Supervisory Board Members who shall be in the position independent from the management, only “Basic Remuneration” is paid because any remuneration linked to business results are not appropriate in such case.

(1) <Basic compensation>

• The basic remuneration is based on the so-called single rate remuneration system, in which the same remuneration is paid for the same position. The Company annually verifies the adequacy of the level of remuneration, which has been set according to the business results and scale of the Company and is based on comparison with other companies within the same industry or of the same scale through the investigation results on remuneration prepared by an external agency.

• Specific details of basic remuneration amount for Directors are determined by the Board of Directors based on the reports prepared by the Remuneration of Directors Advisory Committee, which is composed by members, majority of which are Independent External Directors. The basic remuneration amount for Audit & Supervisory Board Members is determined after discussion within the Audit & Supervisory Board.

(2) <Performance-based Bonus (performance-based remuneration)>

• The total amount of the performance-based bonus is based on achievement as a percentage of the consolidated operating income recorded for each fiscal year, plus other performance factors (consolidated net sales, consolidated income before income taxes), to increase the degree of linkage between bonuses and consolidated business performance. Performance-based bonus is paid once a year after approval at the general meeting of shareholders for the relevant fiscal year.

• The amount of performance-based bonus to Directors is resolved at a Board of Directors meeting and the total amount is approved at the general meeting of shareholders based on reports prepared by the Remuneration of Directors Advisory Committee, which is composed of members, half of which are Independent Directors.

(3) < Restricted Stock (non-monetary remuneration)>

• The Company had newly introduced the restricted stock compensation plan, where the Company granted shares of its common stock to Directors (excluding Outside Directors) of the Company. (hereinafter referred to as "Eligible Directors"). The Company believes that such awards better align the interests of the Eligible Directors with those of its shareholders by sharing the of price fluctuation risk with our shareholders and increasing incentives to contribute to the improvement of share price and corporate value.

• The restricted stock are determined in consideration of the monthly amount of basic remuneration and the fair value of stock, which in turn are determined pursuant to the recommendations of the Remuneration of Directors Advisory Committee, which is composed of members, majority of which are Independent External Directors and will be allotted in the number determined and resolved at a Board of Directors meeting once a year.

• To promote shared priorities with shareholders over long periods, eligible directors who are allotted transfer-restricted stock may not cancel the restriction on transfer of the allotted shares during the period from the date of delivery of the transfer-restricted stock until the date of retirement from the position of director, Audit & Supervisory Board member, or executive officer of the Company or any of its subsidiaries as determined by the Board of Directors of the Company.

I. Basic Concepts, Capital Structure, Corporate Attributes and other Basic Information on Corporate Governance

1. Basic Concepts

<Disclosure Based on Certain Principles of Corporate Governance Code>

Principle 1.4. Cross-shareholdings	When companies hold shares of other listed companies as cross-shareholdings*, they should disclose their policy with respect to doing so, including their policies regarding the reduction of cross-shareholdings. In addition, the board should annually assess whether or not to hold each individual cross-shareholding, specifically examining whether the purpose is appropriate and whether the benefits and risks from each holding cover the company's cost of capital. The results of this assessment should be disclosed. Companies should establish and disclose specific standards with respect to the voting rights as to their cross-shareholdings, and vote in accordance with the standards
------------------------------------	---

(1) Policy regarding cross-shareholdings

- In order to enhance our medium- to long-term corporate value, we may hold shares of other companies as cross - shareholdings for the purpose of maintaining and enhancing our transactional relationships, building, maintaining and enhancing our cooperative and transactional relationships for business expansion, or maintaining stable financial transactions.
- From the perspective of improving asset efficiency, we have decided to reduce our overall cross-shareholdings by over 15.0 billion yen by the end of the fiscal year ending March 31, 2025, and to reduce the ratio of policy shareholdings to net assets to 15% or less.

(2) Examination regarding cross-shareholdings

- We will examine whether the purpose of a cross -shareholding is appropriate from a medium- to long-term perspective and whether the benefit and risks related to such cross-shareholding are appropriate given the capital cost, and will report to the Board of Directors on a periodic basis. The Board of Directors will assess whether such shareholding contributes to the enhancement of our medium - to long-term corporate value based on the outcome of such examination, and will decide on whether to continue the cross-shareholding or to dispose of such shares. If our holding of any shares loses its significance, we will dispose of and reduce as appropriate our holding of such shares after considering the circumstances of the issuer. The Board of Directors will examine the significance on each individual company.
- During the current medium-term management plan (from the fiscal year ending March 2023 to the fiscal year March 2025), we initially decided to reduce our cross-shareholdings by at least 10 billion yen. The Board of Directors examined whether income realized from each stock holding exceeds the Company's capital cost, and whether such cross-shareholding contributes to the enhancement of our corporate value. Based on results of such examination, we disposed of and reduced a total of 7 stocks that had diluted value amounting to approximately 4.0 billion yen during the current fiscal year. And we have decided to raise our reduction of cross-shareholdings target to 15.0 billion yen.

(3) Criteria for exercising voting rights

- In voting any of the shares held for cross-shareholding purposes as to any agenda item, we will determine whether or not to vote in favor of such agenda item after closely examining comprehensively whether the relevant vote would contribute to the enhancement of the issuer's and our corporate value, while fully respecting the issuer's management policy. A close due diligence review will be performed in case an issuer releases Updated losses for certain consecutive periods, its shareholder value is significantly damaged as a result of reorganization, or there is a matter of serious concern regarding the issuer's corporate governance such as a corporate scandal.

Principle 1.7 Related party transactions	When a company engages in transactions with its directors or major shareholders (i.e., related party transactions), in order to ensure that such transactions do not harm the interests of the company or the common interests of its shareholders and prevent any concerns with respect to such harm, the board should establish appropriate procedures beforehand in proportion to the importance and characteristics of the transaction. In addition to their use by the board in approving and monitoring such transactions, these procedures should be disclosed.
--	--

- We prescribe guidelines on related party transactions and conduct periodic investigations regarding related parties. Any related party transactions are subject to the approval of the Board of Directors.

Supplementary Principle 2.4.1 Ensuring diversity within the company, including promoting the active participation of women (Ensuring diversity in the recruitment of core human resources, etc.)	Companies should present their policies and voluntary and measurable goals for ensuring diversity in the promotion to core human resources, such as the promotion of women, foreign nationals, and midcareer hires to middle managerial positions, as well as disclosing their status. In addition, in light of the importance of human resource strategies for increasing corporate value over the mid-to long-term, companies should present its policies for human resource development and internal environment development to ensure diversity, as well as the status of their implementation.
--	---

(1) Ensuring diversity

- The Company is pursuing a sound corporate culture and strong management structure by pursuing a mechanism to enhance the motivation of each employee, while simultaneously optimizing the quantity and quality of human resources.
- Based on the Management Philosophy of “Mutual Trust”, we are committed to achieving a workplace environment where each employee can maximize their abilities by accepting diverse human resources and values and deepening mutual trust. We will review our business portfolio such as by expanding the variety of career paths and work options, and introducing a new personnel evaluation system. - (1) The Company’s initiatives towards sustainability
- In addition to responding to the demands of society, our group will strive to enhance our corporate value by promoting “sustainability management” that aims to both “solve social issues” and “achieve sustainable growth” through our business activities, viewing our efforts to address increasingly complicated and diversified social issues as future “growth opportunities”.
 - It is also important to increase the number of employees who can act with a clear vision of what the company should be and the company’s mission should be in order to realize the enhancement of our group’s corporate value. By increasing the number of employees practicing our management philosophy, we will achieve personal growth for each employee, as well as corporate growth.
 - In April 2022, based on our basic policy on issues surrounding sustainability, including climate change, global environmental issues, and respect for human rights, we established the Sustainability Committee. The committee is responsible for formulating specific measures to address these issues, monitoring progress, and evaluating achievement. The committee is chaired by the Representative Director, President and CEO and holds a meeting on the same day as the meeting of the Board of Directors. The Board of Directors monitors the allocation of management resources and the implementation of strategies related to the business portfolios to ensure that the initiatives of the Sustainable Committee contribute to sustainable growth.
 - We have also established 4 Steering Committees (Subcommittee for Carbon Neutral, Subcommittee for Resource Circulation, Subcommittee for CSR Procurement, Subcommittee for Human Rights, D&I) under the Sustainability Committee in order to strengthen our response to important sustainability issues.

① Climate change / global environment issues

- We believe that climate change, which has a significant impact on the Earth and our business activities, presents both risks to our group's management, and at the same time new business opportunities. In order to achieve a sound corporate development and a sustainable society, we are promoting initiatives to solve environmental issues and working to expand disclosure of environmental related information.
 - Our group has set its own environmental activity goals for 2030, the "Environmental Goals for 2030" in order to promote efforts to solve increasingly serious climate change issues and realize a carbon-free society.
- Environmental Goals for 2030
- i) In-house Emissions (Scope 1 & 2) "Net Zero" <Target: Domestic offices >
Gradually switch to renewable energy, aiming to achieve net zero in-house greenhouse gas emissions (Scope 1 & 2).

② Respect for human rights

- The Company has been built on its "founding spirit" of "Mutual Trust Management" and "Management Respecting Humanity". We are always deepening our basic understanding of human rights, "the right to live freely", and "the right to live as human beings" and practice these ideas through our corporate activities. The "Wacoal Group Human Rights Policy" was created based on the United Nations "Guiding Principles on Business and Human Rights" as a guideline for promoting human rights initiatives throughout the Group and fulfilling that responsibility.
- In April 2022, the Group became a signatory to the United Nations Global Compact (UNGC), proposed by the United Nations. At the same time, we have joined the "Global Compact Network Japan", a local network in Japan. We will support the 10 principles in the four areas of "human rights," "labor," "environment," and "anti-corruption" set by the UNGC, and will enhance our efforts to resolve social issues and achieve sustainable development.
- In response to the expectations of society, the Company believes that CSR procurement with manufacturing contractors based on the concept of mutual trust and collaboration will maximize the common interests of manufacturing contractors and the Company, and this will contribute to the sustained growth of both sides. We are making an effort to actively engage in these activities. In addition, as the Group's common procurement policy, we set forth in the CSR Procurement Guidelines the promotion of transactions based on trust and collaboration with manufacturing contractors that emphasize consideration for social requirements including human rights, labor practices, the environment, and ethics.
- The Company believes that the appropriate use and protection of personal information is an even more important social responsibility and established the Subcommittee for Information Security under the umbrella of the Corporate Ethics and Risk Management Committee. The initiatives of the Subcommittee for Information Security are as follows.

③ Considerations for employees' health and work environment, and fair and appropriate treatment

- As the business environment is becoming increasingly uncertain, the strategies related to human resources, which will play a key role in the rapid transformation of the business model, will only increase in importance. In Japan, in particular, as the working population declines due to the aging of the population and the declining birthrate, competition for human resources is certain to intensify more than ever before, and it is therefore necessary to formulate and implement a human resources strategy to be an attractive company. In addition, in order to promote reforms without interruption, it is necessary to create an environment and/or a culture that will enable individual employees to grow further and to link their strengths to the organizational strengths.
- At Wacoal Corp., in parallel with measures to quickly improve profitability, we will promote initiatives based on the three axes of (i) supporting career autonomy and providing growth opportunities (human resources development), (ii) strengthening management capabilities to maximize teamwork (organizational development), and (iii) creating systems and mechanisms that support job satisfaction, DE&I and well-being (culture development) in order to be a company that is chosen and will continue to be chosen over the medium to long term.
- Please see our website for more information.

Based on these provisions, we have clarified the responsibility system for each risk category and have established a risk management system that exhaustively and comprehensively manages risk across the Group. · The Company has also established the “Subcommittee for BCP and Disaster Control Measures” as a subordinate organization of the “Corporate Ethics and Risk Management Committee” chaired by the Corporate Officer in charge of the Group HR. Under the assumption of accidents and damage caused by natural disasters, the organization formulates policies for preventing and responding to emergencies, and the continuation of work, and implements monitoring for crime and misconduct.

(2) Investment in human capital and intellectual property

- ·In April, 2019, Wacoal Corporation began operating a new human resource development system called “WACOAL TERAKOYA”, with the aim of fostering a culture of human development and independent innovative human resources that can embody our management philosophy. In order to support employees' voluntary career development and continuous learning, the new system has expanded training other than stratified training and increased opportunities to participate on a voluntary basis.
- In addition to modifying our programs to increase the focus on productivity and practical training, we are conducting joint training with other companies to expose employees to diverse viewpoints. By fostering personnel who can create new value through the implementation of our management philosophy, we will achieve sustainable growth in the changing business environment.
- The Company aims to be one of the world's leading companies, with a wealth of knowledge by accumulating data on “women's bodies (size) and minds”. In addition to the start and development of a new customer-driven customer service called “3D smart & try”, which has evolved the Company’s original know-how on body measurements, research, and customer service that it has cultivated so far through digital technology, the Company has been recognized for its commitment to take on new challenges to expand its business areas through collaboration with a broad range of fields using the service. The Company was selected for the “Noteworthy DX Companies 2023” by the Ministry of Economy, Trade and Industry and the Tokyo Stock Exchange. (for the third year in a row.) In a recent example, by linking with our official app “Wacoal Carnet”, 3D images and data of one’s own body measurement can be viewed on a smartphone anytime, anywhere. and this contribute to enhance the convenience of the customer.

These intangible investments do not include human resources or R&D investments, or investments in new business areas. (We do not disclose investments that are limited to intellectual property.)

- (3) Impact of climate change risk and profit opportunities on our business activities and profits
- In accordance with the recommendations of the TCFD, our group conducted a scenario analysis on climate change during the fiscal year ended March 31, 2023. In the scenario analysis, we examined countermeasures and identification of risks and opportunities for Wacoal Corp., which has the highest percentage of overall sales in our group, in two hypothetical scenarios in which the global temperature increased by 2°C and 4°C.
 - The scenario analysis showed that while a rise of 2°C had some positive impacts, such as gaining support from environmentally conscious consumers, transition risks, such as the introduction of carbon taxes, could have a negative impact on business. In addition, it was found that a rise of 4°C could lead to physical risks, such as storms, floods, and other extreme weather, that could have a negative impact on business. We will expand the scope of scenario analysis will be expanded sequentially in the future, and we will continue making efforts to enable detailed risk analysis for the entire group.
