News Release

Fuyo General Lease Co., Ltd.
(Securities Code: 8424 TSE Prime)
President & CEO, Hiroaki Oda

Investment in Renewable Energy Development Loan Fund Managed by Copenhagen Infrastructure Partners P/S

We are pleased to announce that Fuyo General Lease Co., Ltd. (Chiyoda-ku, Tokyo; President & CEO Hiroaki Oda; hereinafter “Fuyo Lease”) has participated in Copenhagen Infrastructure Green Credit Fund I (hereinafter the “Fund”), a debt fund that finances renewable energy businesses.

The Fund is managed by Copenhagen Infrastructure Partners P/S (Copenhagen, Denmark; Management Partner: Jakob Baruël Poulsen; hereinafter “CIP”), a fund manager dedicated to investments in renewable energy related projects and financing renewable energy businesses in OECD countries, including onshore/offshore wind power, solar power and storage batteries. Fuyo Lease aims to actively expand renewable energy business outside of Japan and obtain the latest industry trends and know-how through facilitating multifaceted business collaboration with CIP who has one of the world’s largest renewable energy assets under management and a system and know-how that can handle everything from development to management of renewable energy related projects.

Under our new medium-term management plan, Fuyo Shared Value 2026, which began in fiscal 2022, the Fuyo Lease Group aims to achieve sustainable growth as a corporate group by simultaneously solving social issues and creating economic value through the practice of Creating Shared Value (CSV). In addition, we have positioned the “Energy and Environment” business field as one of the growth drivers for intensive investment of management resources, and are actively participating in renewable energy projects both in Japan and overseas. By building medium and long term partnership in Japan and overseas, including investment in the Fund, we will expand the renewable energy business domain and contribute to the realization of a decarbonized society.
