1. Business Summary

Mission

**Create many "good life"
for others with technology
and heart.**

Vision

**Create society where
comfortable life circulates.**

Our History

20 years since the dawn of the Internet, with the growth of the market

- Windows XP launched (2001)
- Listed on Google (2004)
- YouTube established (2005)
- Amazon Web Services started (2006)
- Twitter started (2006)
- The term "cloud computing" emerged (2006)
- The first iPhone is released (2007)
- **Lehman Shock (2008)**
- Android smartphone launched (2008)
- Microsoft Azure launched (2010)
- **The Great East Japan Earthquake (2011)**
- Government Adopts Cloud-by-Default Principle (2018)
- **First report on COVID-19 (2019)**
- 5G service launched in Japan(2020)
- Digital reform law passed (2021)
- Tokyo 2020 Olympics (2021)
- Windows 11 Published. (2021)
- Starlink Started (2022)

- Payment

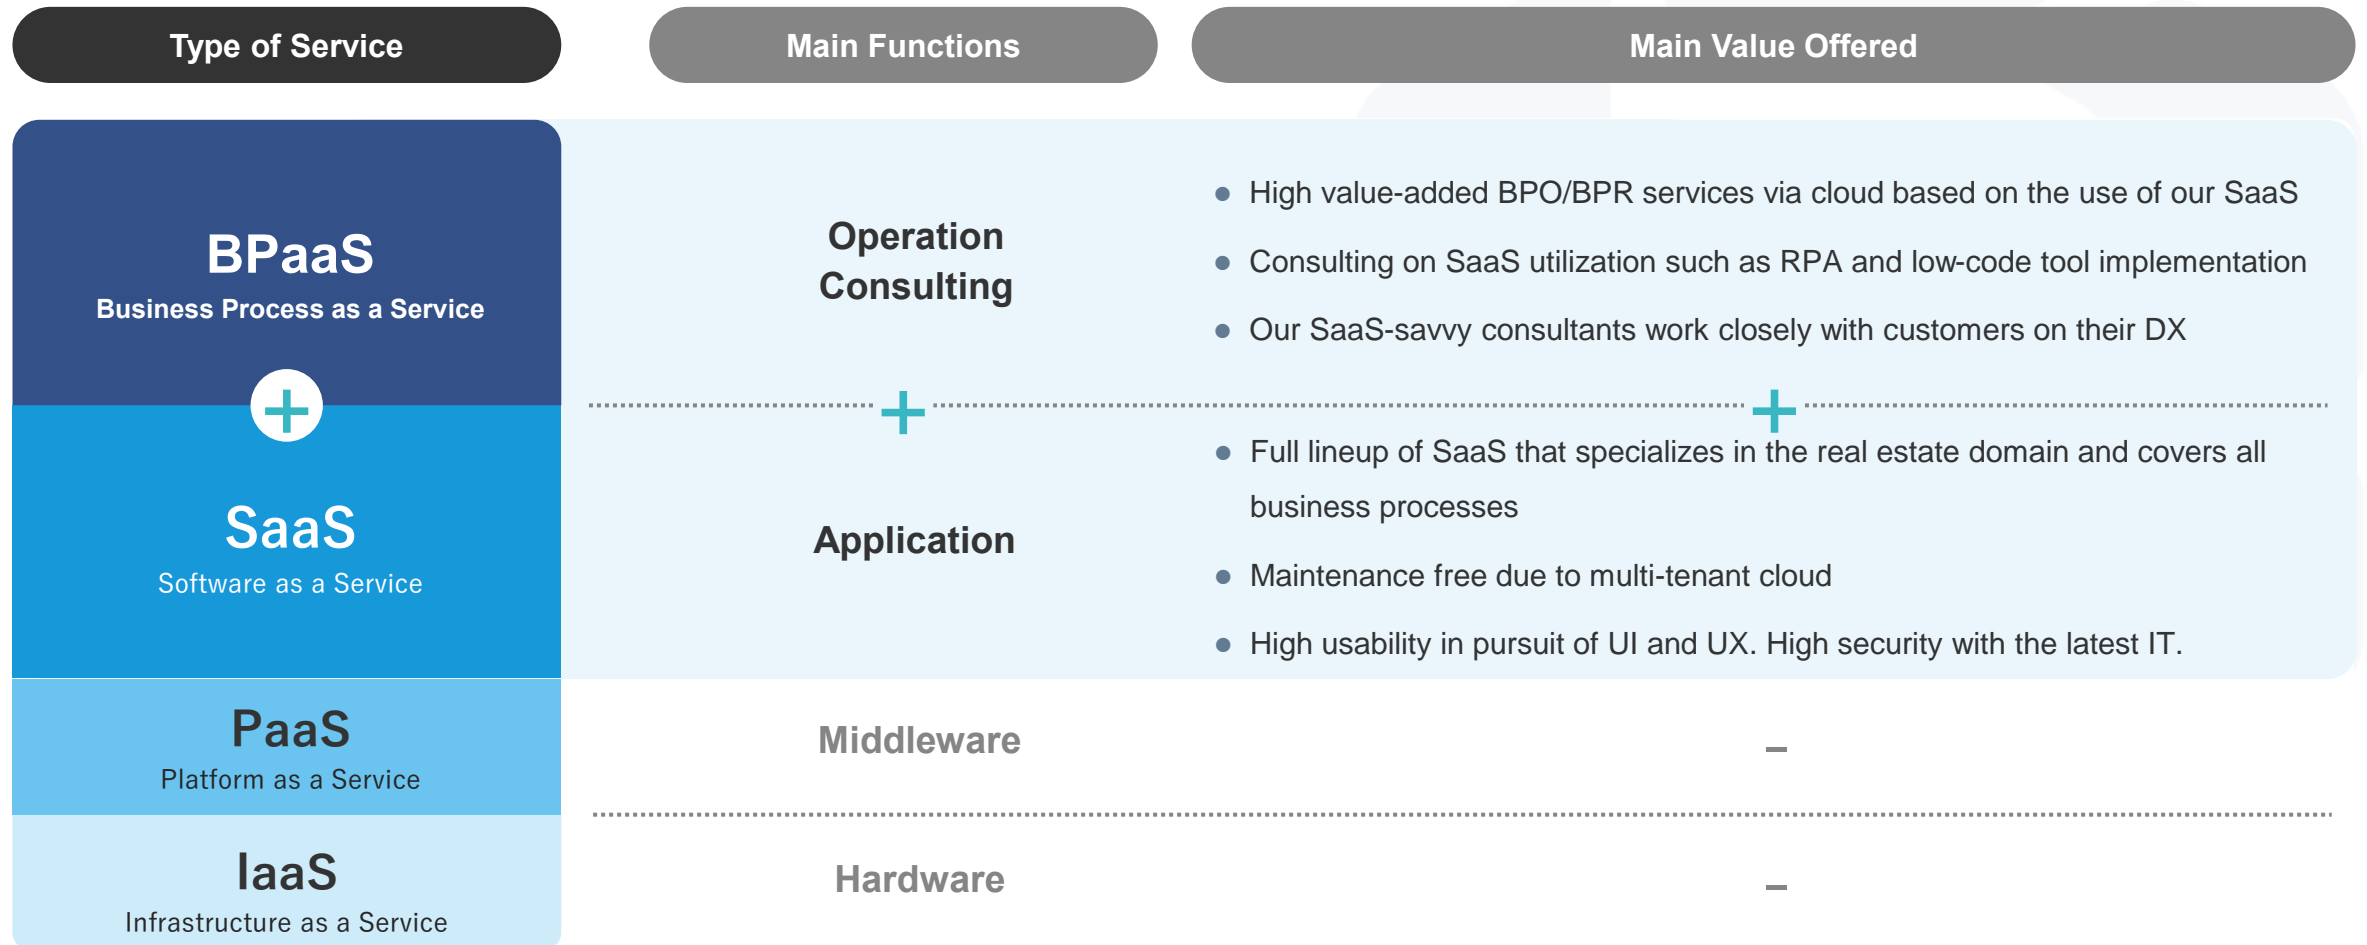

Integrated Business Support System to Resolve Various Problems Faced by Real Estate Companies

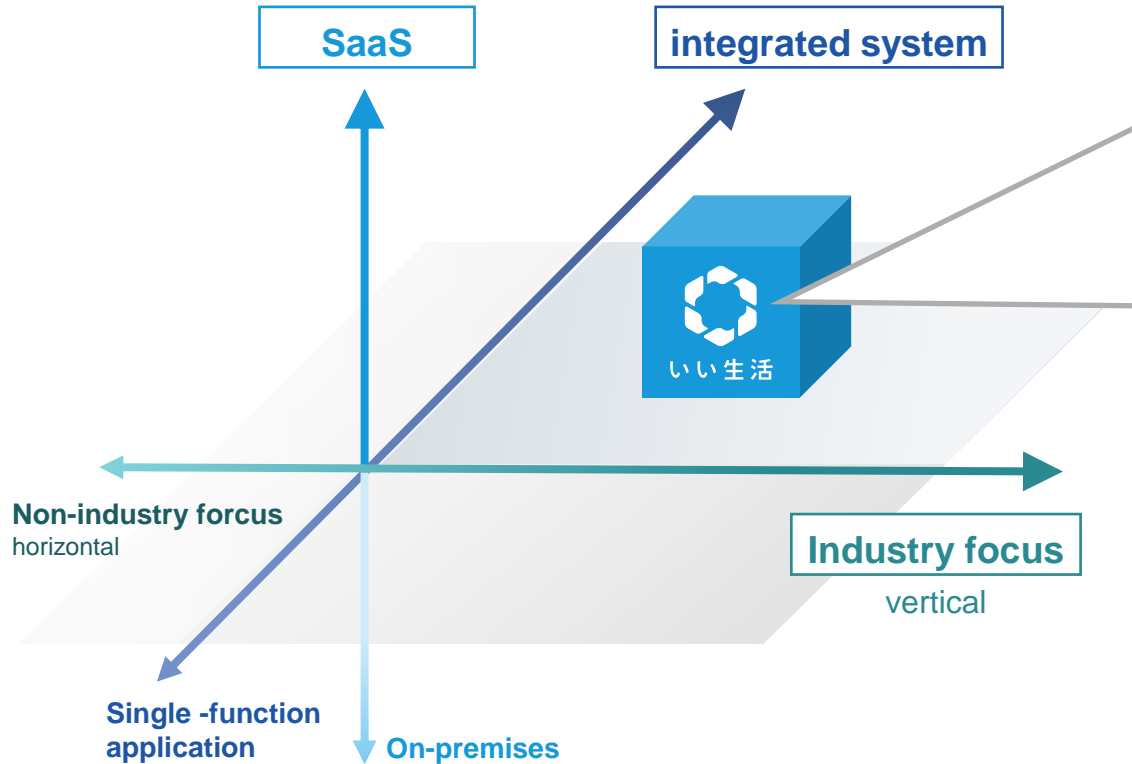

Business Benefits of Vertical SaaS + BPaaS

Providing high value-added services of BPaaS through our subsidiary Real Tech Consulting.

Sales growth through synergies between SaaS and BPaaS.

Competitive Advantage of e-Seikatsu

- 1 Focused on the real estate industry, providing **vertical SaaS**
- 2 Broad product coverage for **all real estate transaction processes**
- 3 Enabling streamline operations by integrated and **seamless** services
- 4 **Broad customer base with high LTV** mainly in real estate management segment
- 5 Dedicated sales and engineering teams with **industry knowledge and expertise**

**Focused on the real estate market × SaaS × Integrated management
= Sustainable Competitive Advantage**

Position as the hub of information distribution

Possibility of SaaS in the Real Estate Market

1 Community-based and fragment market

Since the majority of businesses are small and medium-sized businesses rooted in local needs (**approximately 125,000 businesses** in the building lots and buildings transaction industry alone), IT investment is constrained.

2 Obsolescence of old systems Recent due to successive legal amendments

Lack of follow-up in On-premise and in-house-developed systems due to successive amendments to laws such as **the Rental Housing Management Business Act**, and **advantages of industry-specific SaaS become apparent**

3 Diverse players in the supply chain

Increased opportunities and benefits of linking data on cloud/SaaS due to the large number of stakeholders appearing in the transaction process

4 (User side) Human resource constraints

At the user's side, the maintenance and operation of a single system is highly restricted by human resources.

The maintenance load should be as lighter as possible.

5 Essential master data of real estate business

Required master data is also automatically updated with SaaS, such as changes in address information due to mergers of municipalities and changes in transportation routes

Major Revisions to Laws and New Systems Relating to the IT and DX in the Real Estate Industry

(Note) Measures concerning the rationalization of lease agreements between sublessors and owners entered into force on December 15, 2020.

2. 2Q Results

FY2024 2Q Highlights

Net sales

1,338 million yen

YoY
(+3.9%)

Number of Fee-paying Client Companies

1,493 companies

(+17 companies compared to September of the previous year)

4,500 stores

(+11 stores compared to September of the previous year)

ARPU

Approx. **134** thousand yen

(Approx. 129 thousand yen in September of the previous term)

Subscription sales ratio

89.5 %

Previous term
(85.4%)

EBITDA

277 million yen

YoY
(-9.7%)

Operating profit

41 million yen

YoY
(-52.6%)

MRR churn rate

0.06 %

*1 Figures rounded down to the nearest million yen. Ratios rounded to the nearest decimal place.

*2 ARPU (average revenue per user) is calculated by dividing "subscription sales" in September 2023 by "the number of subscribed companies" in the same month and rounded down to the nearest thousand yen. Recurring sales based on operational support contracts after SaaS implementation have been reclassified from "Solutions" to "Subscription" from FY2024. The ARPU for FY2023 is also calculated based on the recombined sales using the same definition.

*3 Subscription sales ratio is the ratio of "subscription sales", which is recurrent revenue such as monthly charges for SaaS, to total sales. Recurring sales based on operational support contracts after SaaS implementation have been reclassified from "Solutions" to "Subscription" from FY2024, and sales for FY2023 have been reclassified using the same definition.

*4 MRR churn rate is the number of MRRs (including existing changes) lost in September 2023 divided by the MMR of August 2023.

*5 EBITDA = Operating profit + Depreciation

Subscription Sales Remained Steady. Solution Sales Will Be Concentrated in the Second Half of the Year

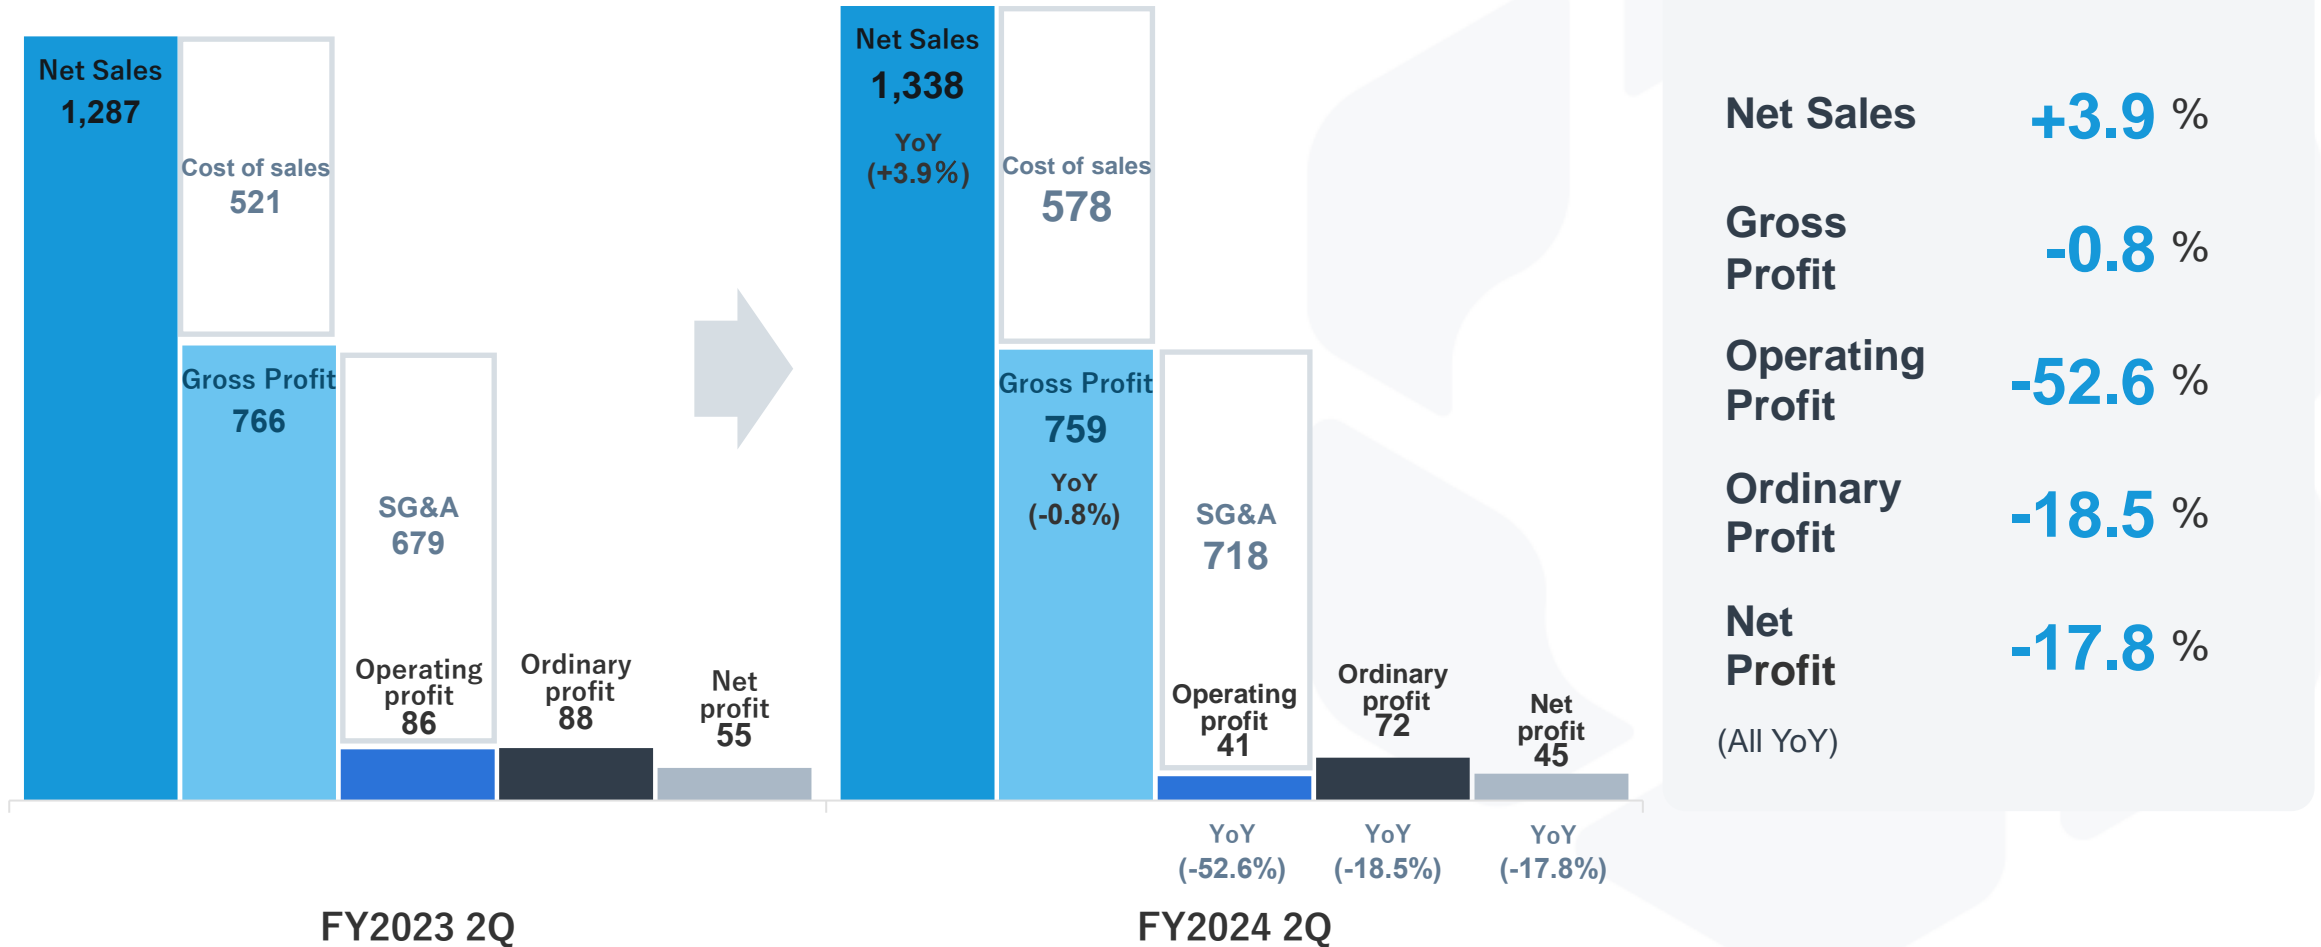

- Subscription:** Revenue that accrues on an ongoing monthly basis unless cancellation is requested, such as monthly SaaS subscription fee revenue and recurring revenue based on an operational support contract after SaaS implementation.
- Solution:** Revenue related to other services such as initial setup of SaaS, spot system installation and operation support, contracted system development, and agency sales and referral fees for other companies' services.

* Recurring sales based on operational support contracts after SaaS implementation have been reclassified from "Solution" to "Subscription" from FY2024, and sales for FY2023 have been reclassified using the same definition.
 * Figures rounded down to the nearest million yen.

Sales increased YoY, but profits decreased due to H1 upfront expenses

(Consolidated)

(Unit: Million Yen)

* Figures rounded down to the nearest million yen.

Earnings Forecast for FYE March 31, 2024

(Unit: Million Yen)

	FY2024 Full-term Forecast	FY2024 2Q	Progress rate
Net Sales	2,950	1,338	45.4%
Operating Profit	300	41	13.7%
Ordinary Profit	308	72	23.5%
Net Profit	204	45	22.5%

	Dividend per share
FY2024 Forecast	5.00yen
FY2023 Result	5.00yen

* Figures rounded down to the nearest million yen.

Subscription Sales Grew. Solution Sales are Expected to be Biased toward the H2

(Unit: Million Yen)

Net Sales by Service

YoY
 Δ 1.7%

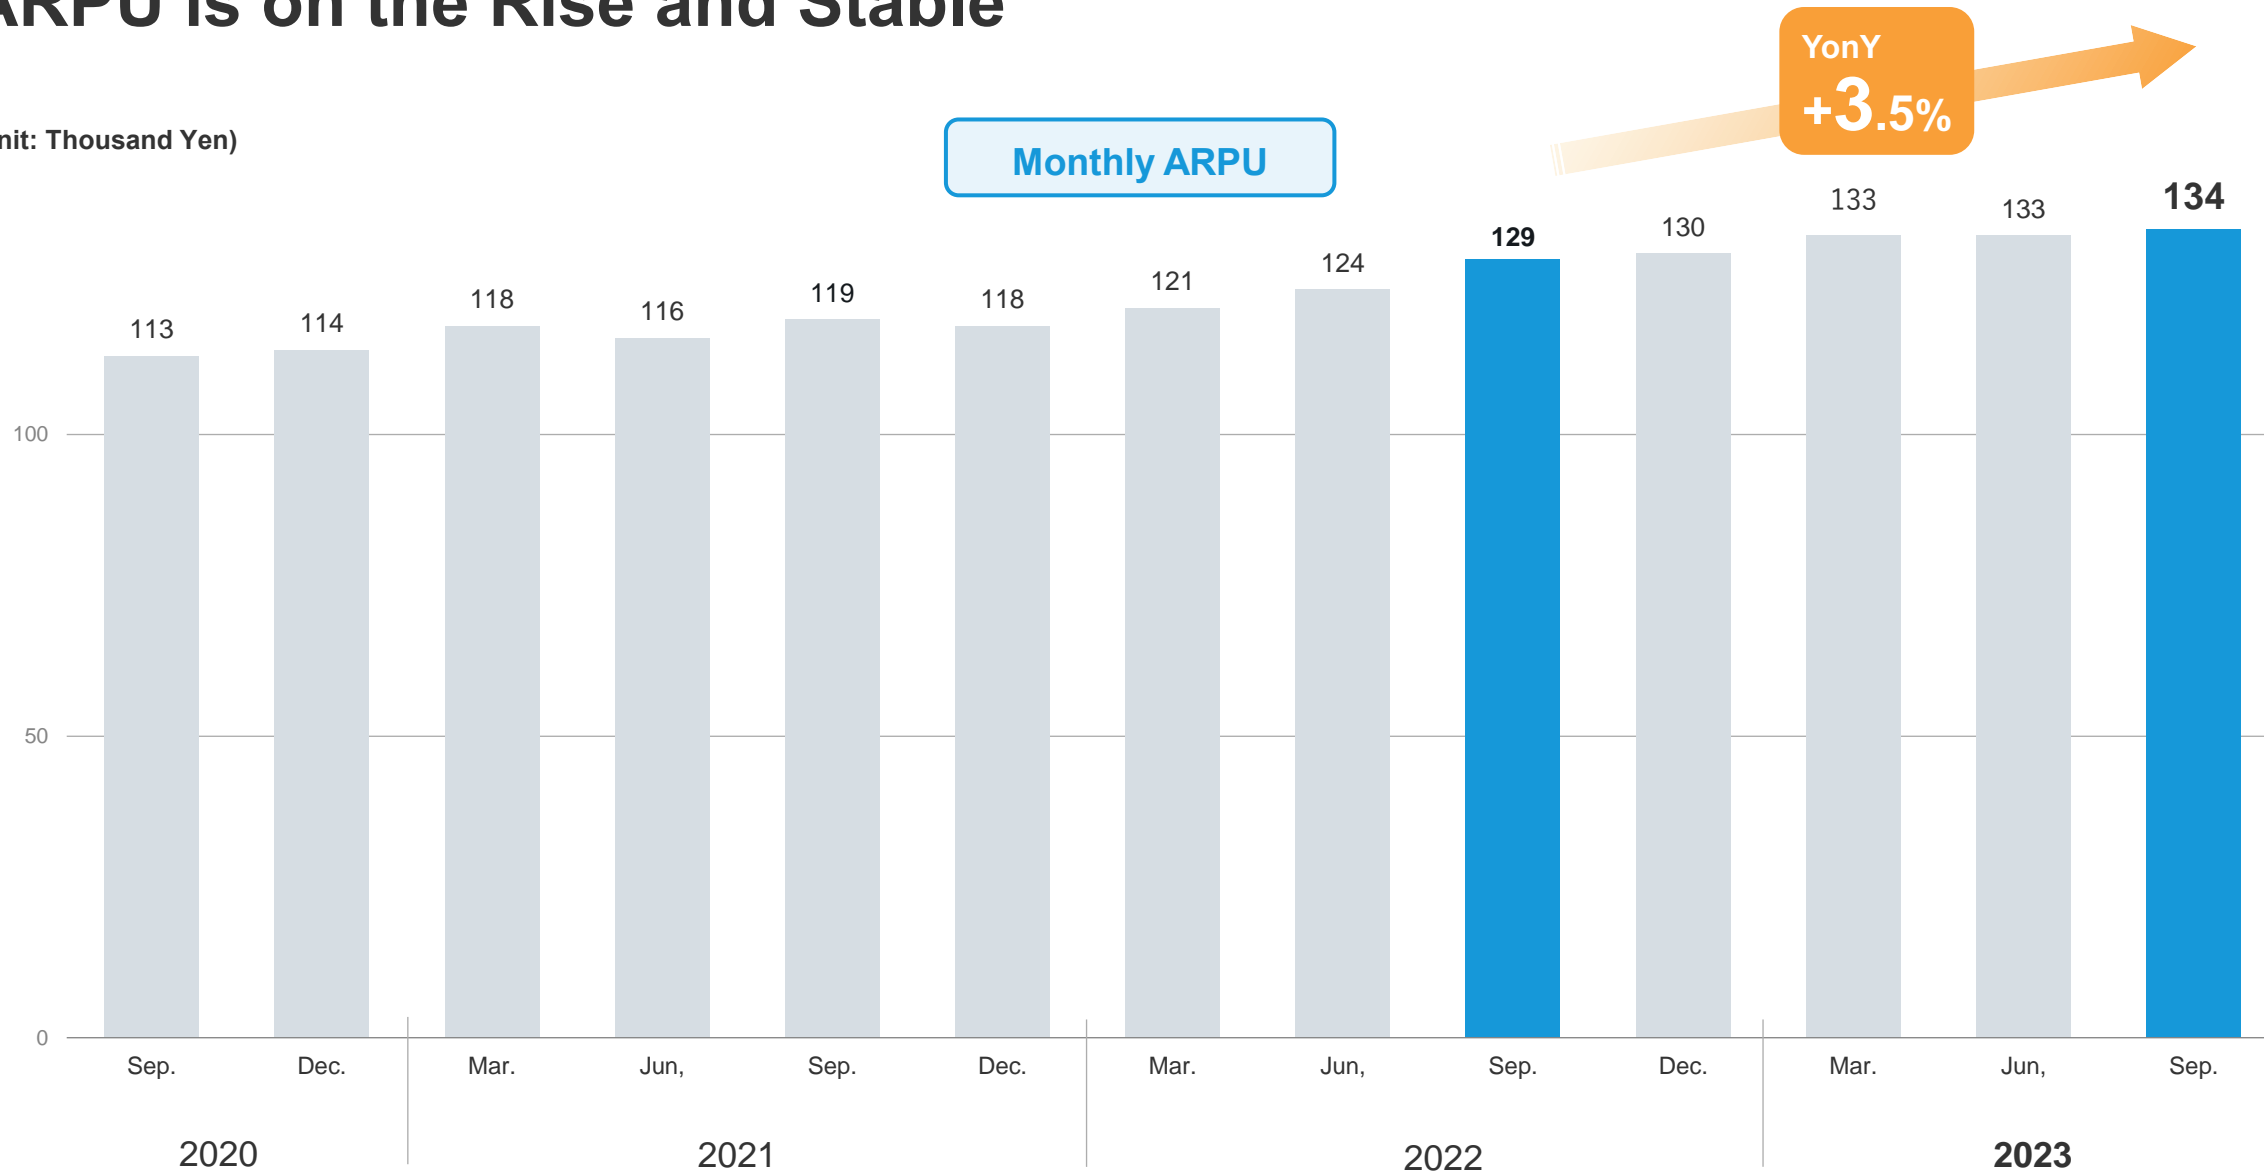

* Recurring sales based on operational support contracts after SaaS implementation have been reclassified from "Solutions" to "Subscription" from FY2024, and sales prior to FY2023 have been reclassified using the same definition.

* Figures rounded down to the nearest million yen.

ARPU is on the Rise and Stable

(Unit: Thousand Yen)

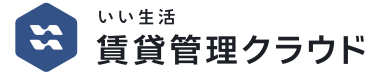

* Recurring sales based on operational support contracts after SaaS implementation have been reclassified from "Solutions" to "Subscription" from FY2024. The ARPU prior to FY2023 is also calculated based on the recombined sales using the same definition.

* Figures rounded down to the nearest million yen.

Introduction of Our SaaS is Progressing from Major Companies to Regional Leading Companies

NTT Urban Value Support, Inc.

Their needs were matched by the fact that legal amendments, etc. are promptly updated in the system before they come into effect. With approximately 16,700 residential units under management and 3 million square meters of office and commercial space under management, their PM operations were smooth.

ESLEAD CHINTAI Co., Ltd.

The company manages approximately 16,000 condominium units, primarily in the Kinki and Nagoya areas. It is now possible to complete the process from soliciting properties to pursuing customers on the Web. Improved operational efficiency and DXing.

Keio University CO-OP

Efficient management of property application information and real-time updating of property information on their own website. Enables the introduction of properties tailored to the needs of students.

Our services are expanding to real estate companies nationwide!

Profit Margin Declined YoY. Absorption of Increased Expenses is Expected in the H2.

Gross Profit Margin and Operating Profit (Consolidated)

(Unit: Million Yen)

(Unit: %)

YoY
-63.6%

* Figures rounded down to the nearest million yen.

Total Expenses are Stable. Development and Marketing Investments Continue

* Figures rounded down to the nearest million yen.

Cost Structure

Cost of Sales (Consolidated)

- Personnel expenses
- Outsourcing expenses
- Server/system costs(AWS)
- Server/system costs(Other)
- Other expenses
- Depreciation expenses
- Temporary account of development investment

(Unit: Million Yen)

SG&A (Consolidated)

- Personnel expenses
- Other expenses
- Expenses for rent of space, land, etc.

(Unit: Million Yen)

**Other expenses" in cost of sales include office rent, utilities, etc.. "Temporary account of development investment" consists of work in process under development, software in progress, etc.

* Total Cost of sales is calculated by subtracting the temporary account of development investment from the sum of costs.

* Other expenses" in SG&A expenses include expenses related to marketing, sales support, etc.

* Figures rounded down to the nearest million yen.

EBITDA Have Been Stable

((Unit: Million Yen)

(Unit: %)

* Figures rounded down to the nearest million yen.

Continue to Invest in Service Development by Using Operating CF

(Unit: Million Yen)

Free Cash Flow (Consolidated)

■ Operating CF ■ Investing CF ■ FCF

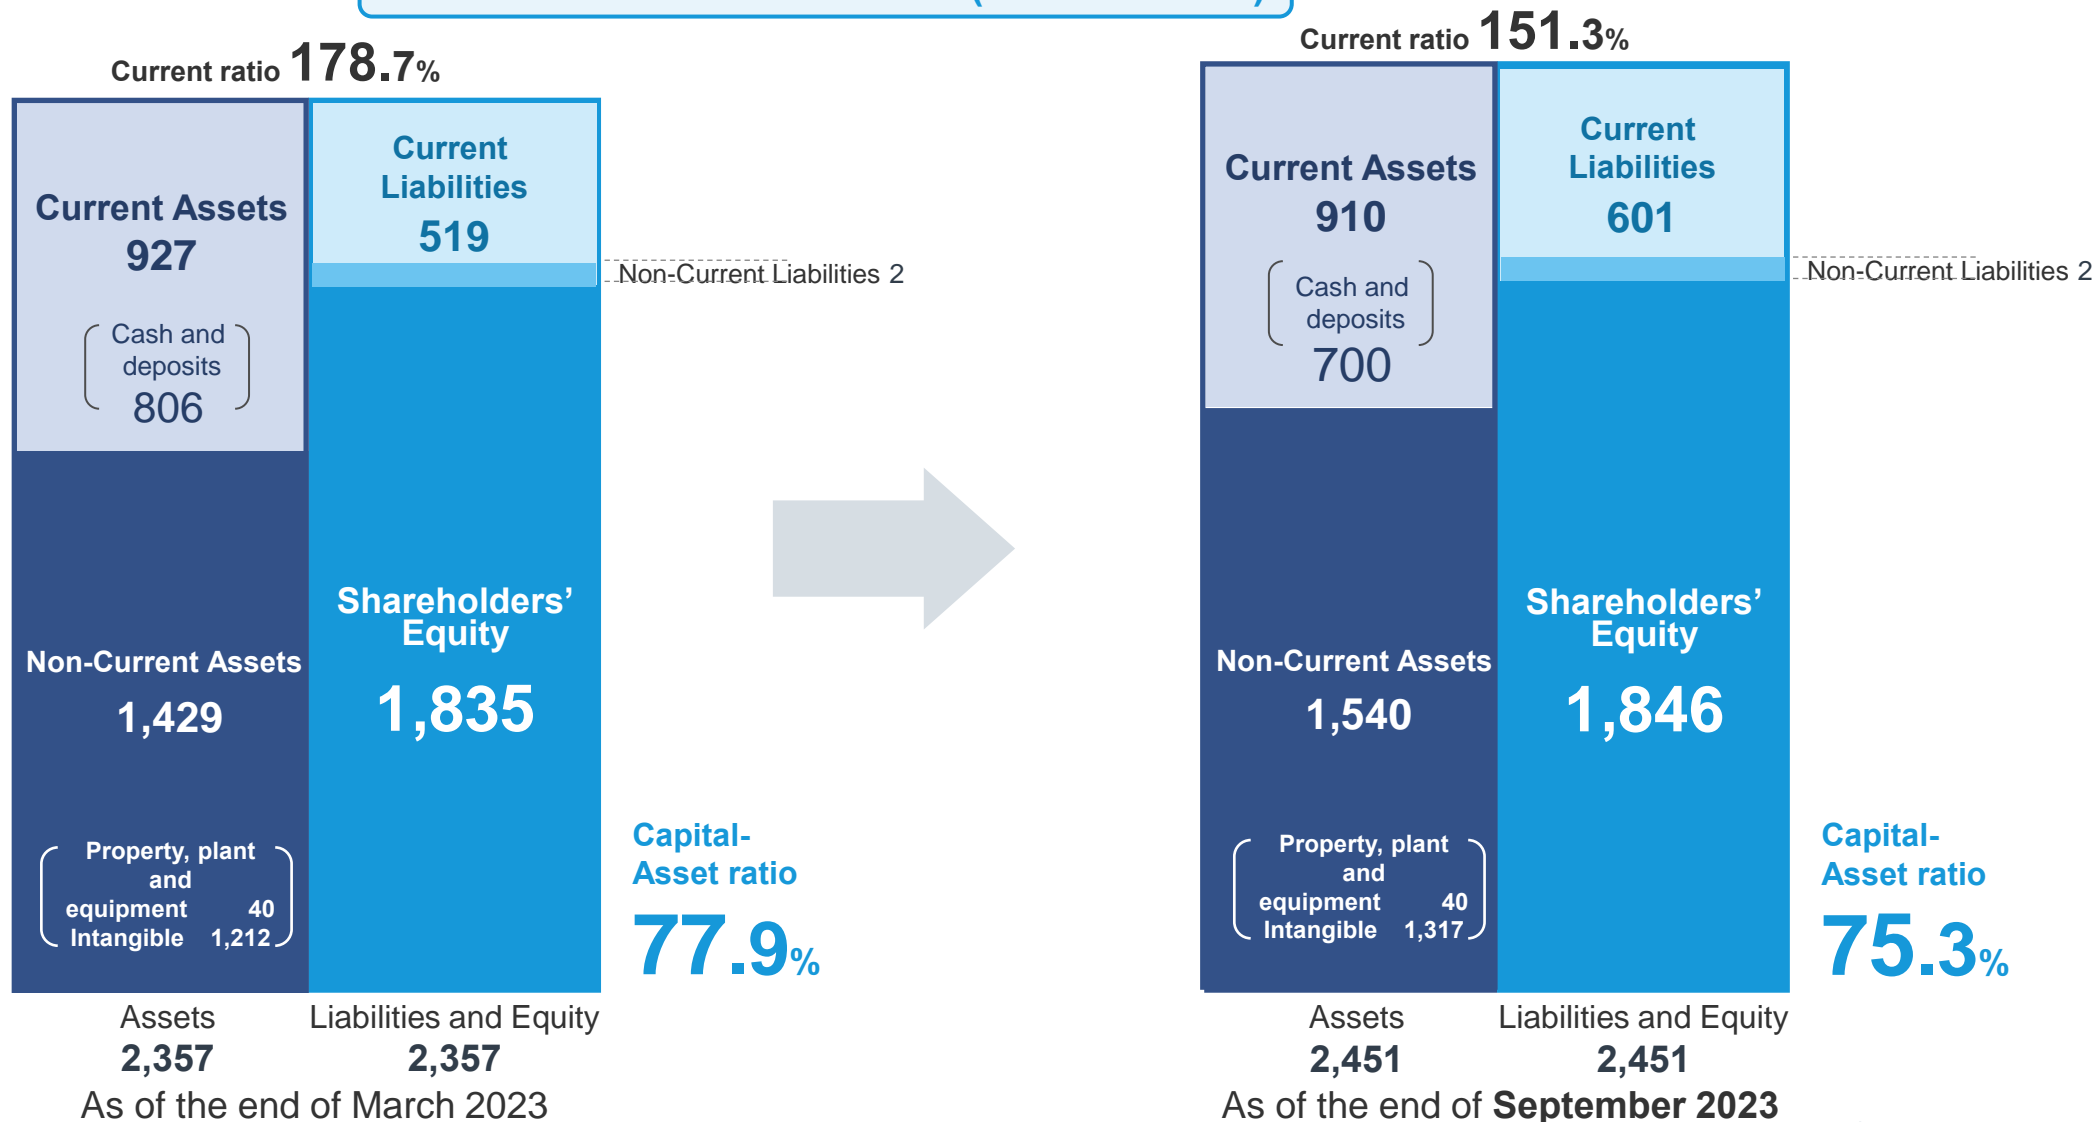

* Free cash flow (FCF) = Operating cash flow (CF) + Investing cash flow (CF)

* Figures rounded down to the nearest million yen.

Balancing Growth Investment (Service Development) and a Sound Financial Base

Consolidated Balance Sheet (Consolidated)

(Unit: Million Yen)

* Figures rounded down to the nearest million yen.

Number of Employees

* Excluding directors, advisors, and part-time workers..

3. Future Prospects

Latest Results and Earnings Forecast for FYE March 31, 2024

(Yen in millions)

Forecasts remain unchanged from those at the beginning of the period.

- **Net Sales:** Expect to increase revenues by cultivating new large-scale customers and up-selling/cross-selling to existing customers, etc.
- **Cost of Sales :** Expect to increase due to reinforcement of the system infrastructure (IaaS) and service development in line with sales expansion
- **SG&A :** Continue to strengthen sales and Marketing systems to further expand Net Sales

Basic Policy and Growth Strategy for the FY2024

① Supporting SaaS shifts by leveraging our unique positioning

We are the only listed company that provides a SaaS-only system that enables centralized management of real estate rental management and rental solicitation operations, including related operations.

② Promotion of introduction to major companies

As the trend of legal revisions continues, such as the invoice system and the Electronic Bookkeeping Act, it is necessary to **properly catch up with the legal changes with SaaS**.

Promoted introduction to large companies that were thought to have a strong customization orientation.

③ Proposal of the total optimal SaaS group

Individual tools have been introduced to optimize individual operations, but data needs to be coordinated on a case-by-case basis.

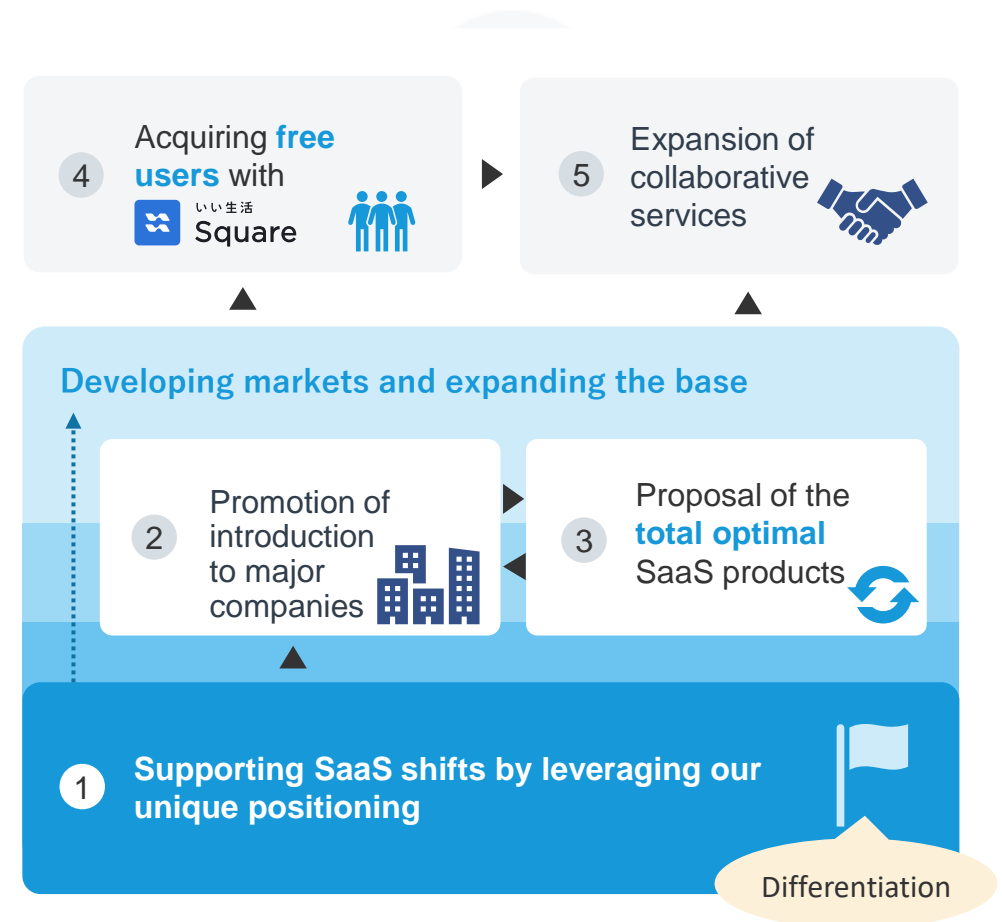

Targeting customers who are doubtful about devoting effort to this area.

④ Acquiring free users (real estate companies) with "e-Seikatsu Square "

Active Proposal of "e-Seikatsu Rental" and "e-Seikatsu Sales Support" that are easy to introduce entries.

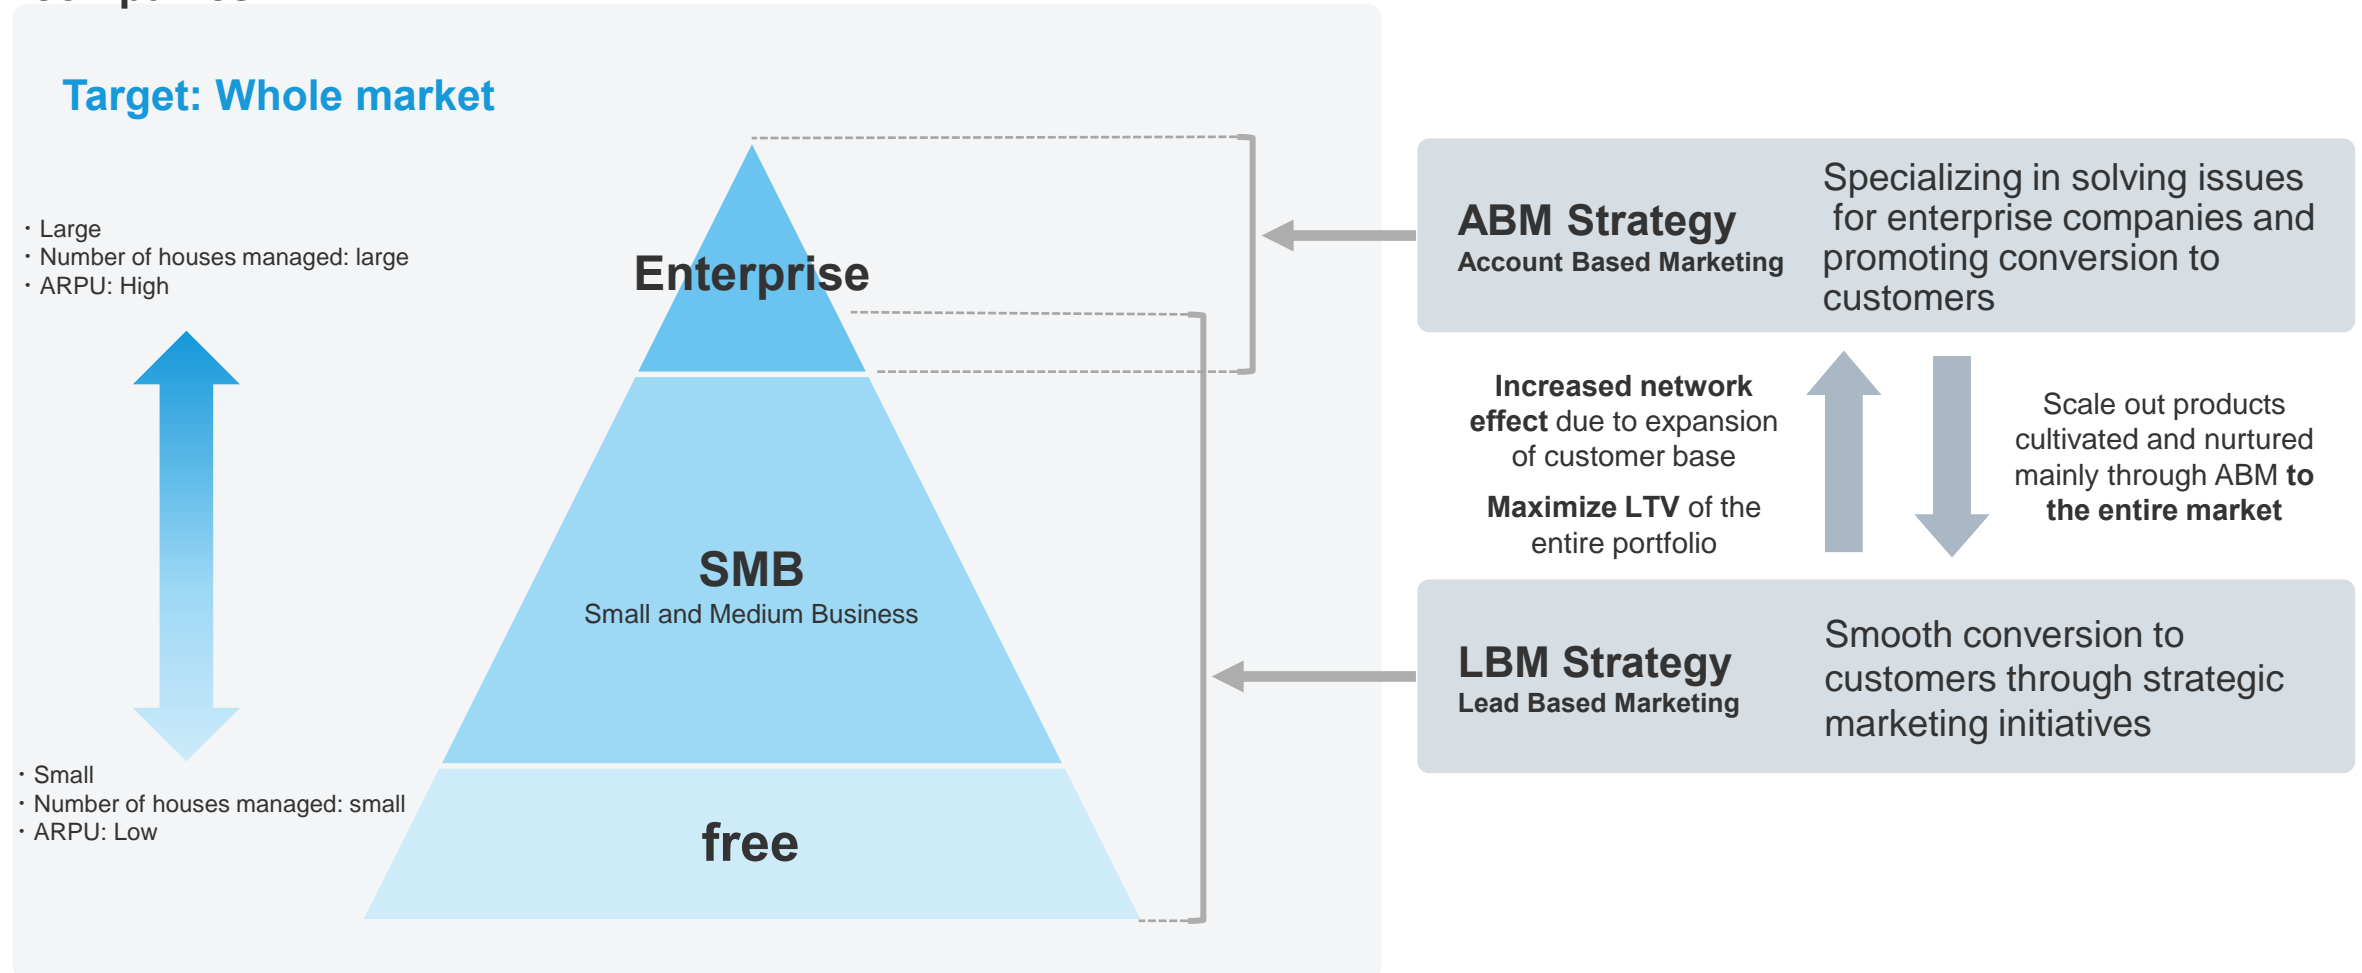

⑤ Expansion of collaborative services

Increase **introduction of web conferencing and electronic contract tools as a sales agent** and take in pay-as-you-go billing.

Future Marketing and Sales Strategies

Reviewed target selection and approach methods in response to increased customer acquisition by enterprise companies.

*ABM(Account Based Marketing)Strategy: A Marketing method that targets specific companies and organizations (accounts) and approaches them strategically to suit them.

*LBM(Lead Based Marketing)Strategy: A marketing method that takes a marketing-driven approach to a large number of unspecified prospects (leads) and aims to acquire more leads and highly probable leads.

Reorganization of Marketing and Sales Organization

Customer Success Division

Customer retention/ Accumulate and share knowledge of usage status, etc.

Start of operation and monitoring

Execution

Began Responding to the Invoice System

Invoice system support Part 4

Released the function to issue Qualified Transformation Requests and Advance Payment Settlement Sheets.

- Invoice system started on October 1, 2023.
Released the function for issuing qualified invoices in the third phase in September and the function for issuing qualified refund invoices and reimbursement of advances in the fourth phase in October.
- We will continue to support the invoice system, including upgrades as standard features and additional optional features.

Trends and Forecasts of the Real Estate Tech Market

(Unit: JPY100 million)

Source: 2021 Real Estate Tech Market Status and Outlook, Yano Research Institute, Inc., July 2021

Note: Yano Economic Research Institute Co., Ltd. is a market research company of the Kyodo Telecommunications Group, and the above data are based on the company's own research.

Note: Operator Sales Basis

- The areas of BtoC for consumers are "media such as property search," "matching services," "design and construction services," "crowdfunding (real estate type)," and "property utilization (sharing brokerage)."
- Business-to-business services include real estate information services, real estate brokerage and management support and pricing systems, support services using VR (virtual reality) and AR (extended reality) technologies, and IoT (cloud-based surveillance cameras and image analysis).

Potential Market Size of the Real Estate Tech in Japan

Target Indicators

- **5,000** client companies
- Average customer unit price (monthly amount/corporation) **100,000yen**

- **Real estate: Number of business establishments in Japan (FY2014) :** 353,558
- **Average office unit price:** approximately 40,000 yen

Market Size of Real Estate Tech as a whole (FY2025 Forecast)

Source: Real Estate Tech Market Status and Outlook for 2021 edition, Yano Economic Research Institute, Ltd.

SOM (Note 1)
Approximately
6 billion
Yen/Fiscal Year

To increase market share
On-premises scratch, etc.
Replacement of the system

SAM (Note 2)
Approximately
170 billion
Yen/Fiscal Year

Through entry into new fields
Target market expansion
Financial and credit fields,
Data business domain, etc.

TAM (Note 3)
Approximately
1.2 trillion
Yen/Fiscal Year

*1 Serviceable Obtainable Market (SOM): the actual market size that may actually be acquired in a market that is a direct target of a service.

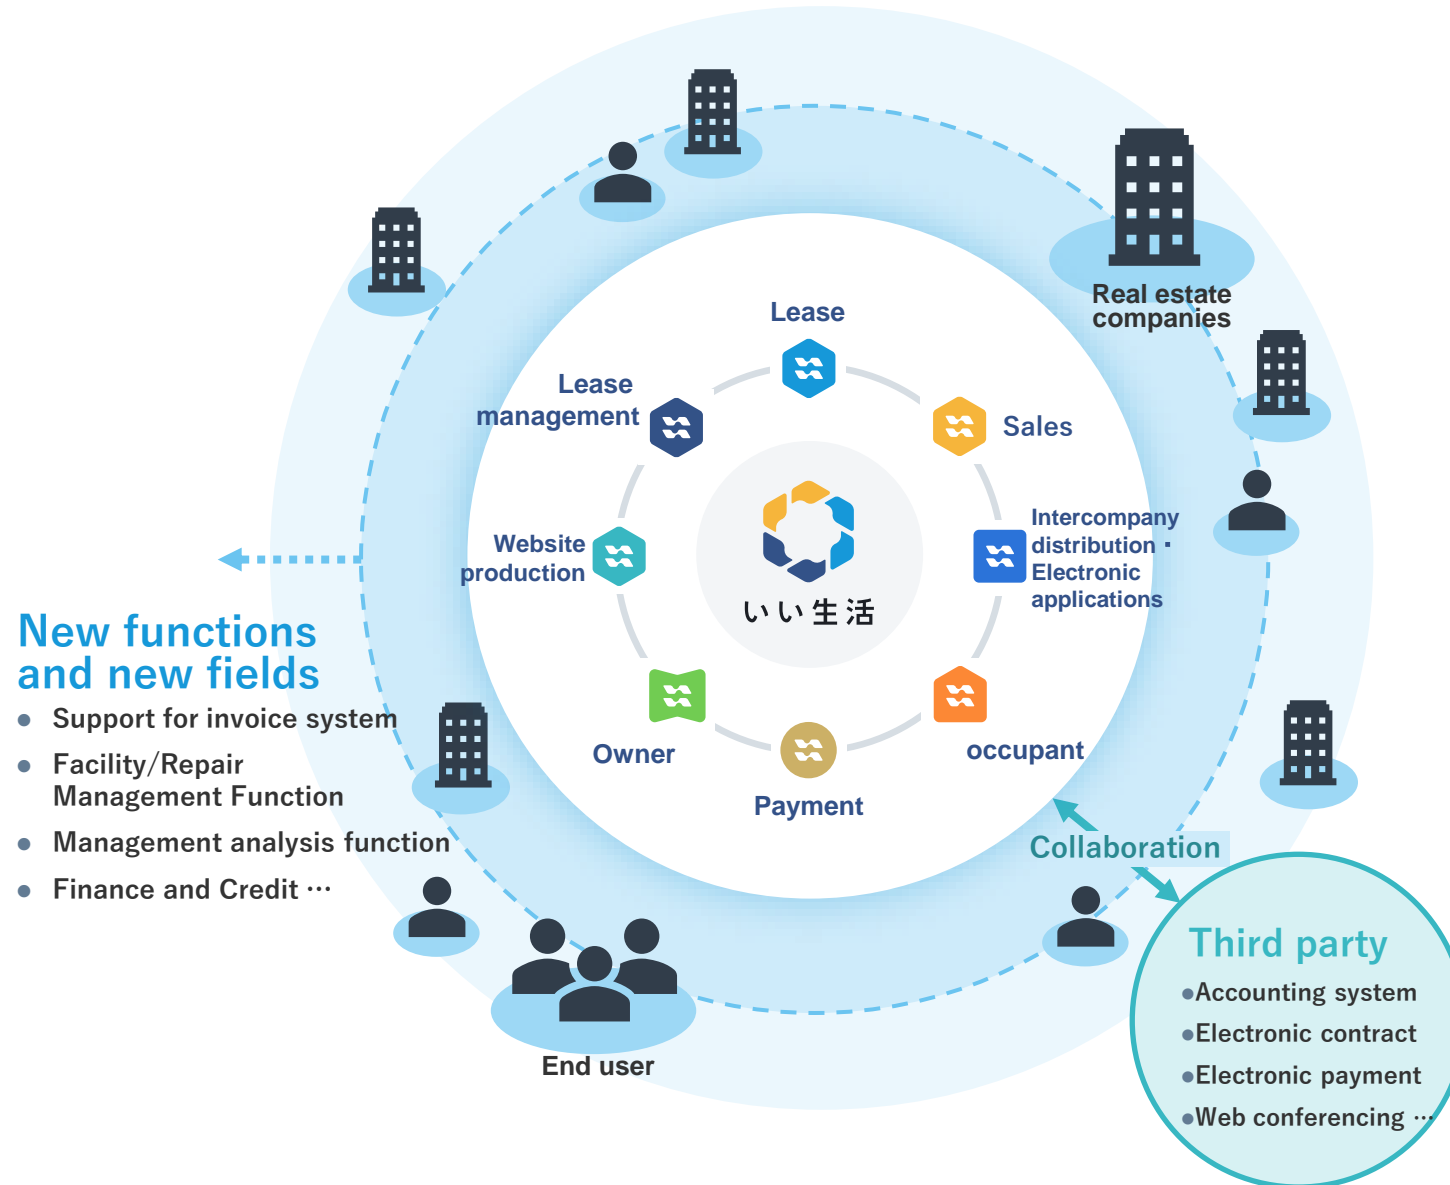

*2 Serviceable Available Market (SAM) is the largest market theoretically able to capture in a market that is a direct target of a service.

*3 Total Addressable Market (TAM): The potential total market size, including the market for alternative services that meet the same customer needs, even if not directly targeted for a service.

*4 The number of domestic business establishments in the real estate industry is the sum of "Real estate transaction business" and "Real estate leasing and management business."Source: "2022 Real Estate Business Statistics," Real Estate Distribution Promotion Center

*5 The market size (SOM/SAM/TAM) is calculated by adding our own estimates based on statistical and public data, and does not guarantee scientific accuracy.

Our Product Vision for DX in the Real Estate Market

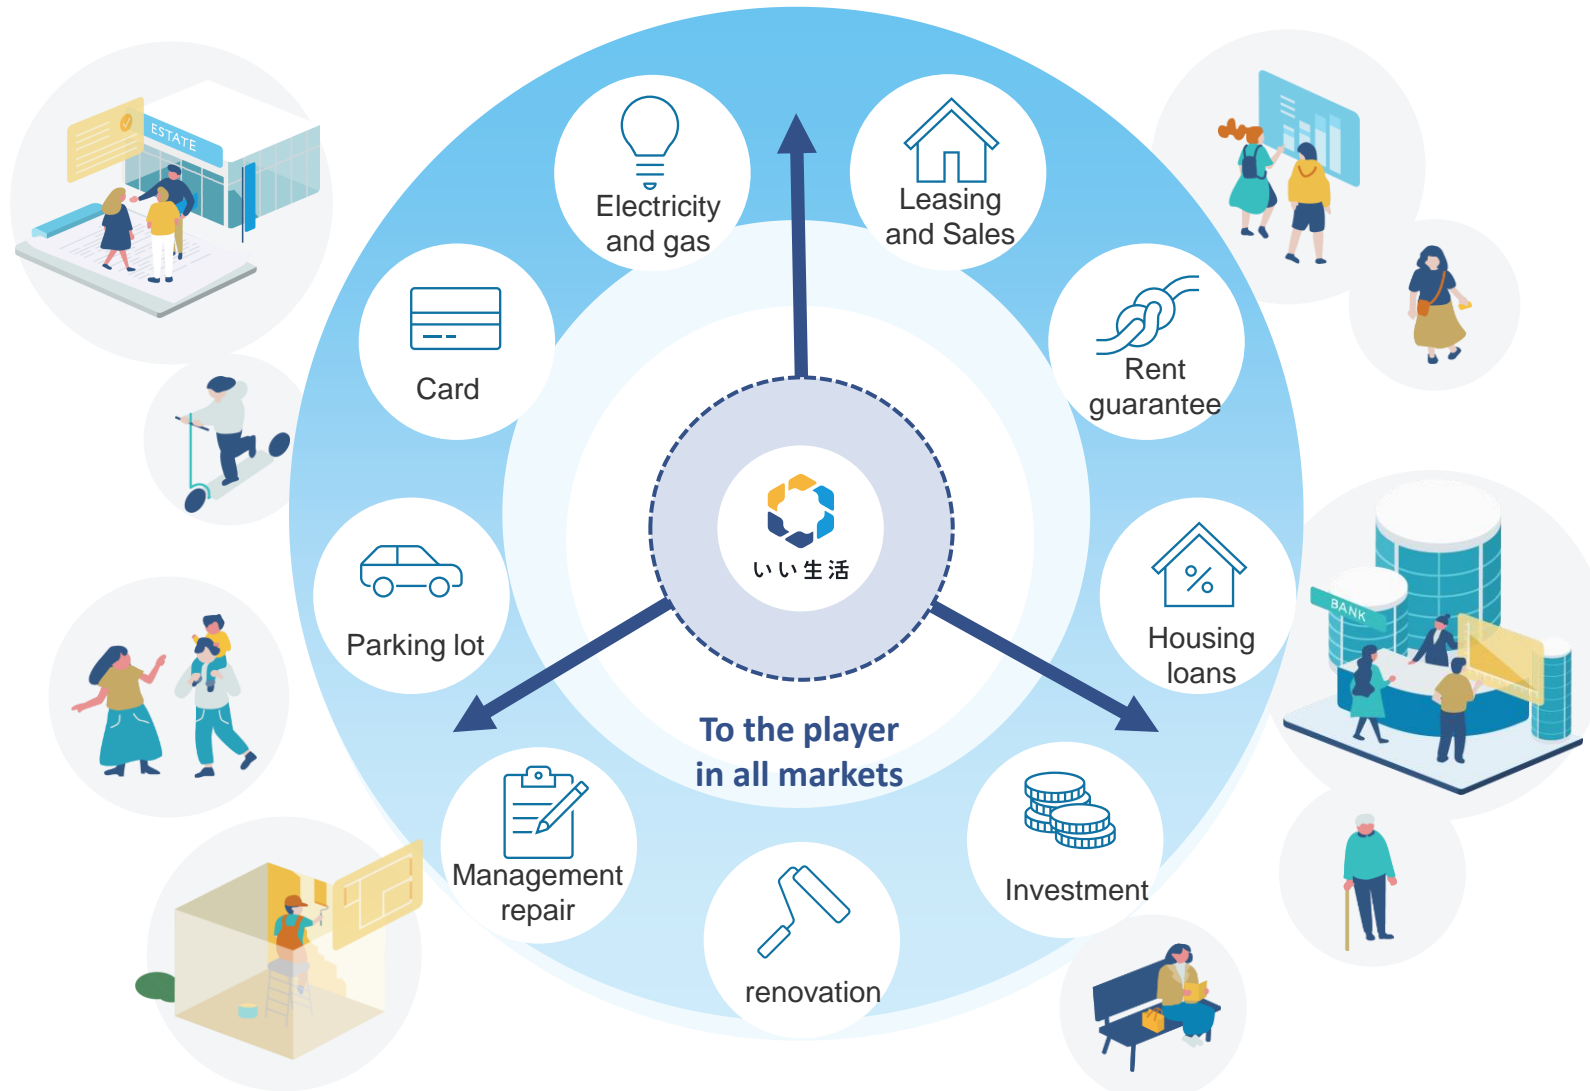

Further expanding its dominant product lineup in the real estate tech field.

- Our SaaS covers all business areas, **real-time data collaboration** between tools without human intervention
- **Optimize the user's entire business** by integrating with a wide variety of third-party systems.
- Expanded new features for **wider DX of operations**

Into a Platform that Gathers All Kinds of Real Estate Data

A platform where a variety of data is exchanged. A marketplace where a variety of transactions take place.

Delivering the added value of technology to all players in the market, beyond end users and real estate companies

- A platform that stores all kinds of real estate-related data through SaaS
- A marketplace where a wide range of transactions and transactions are actively conducted based on abundant data

Mission

**Create many "good life"
for others with technology
and heart.**

Vision

**Create society where
comfortable life circulates.**

Statement

More kindness.

A life in harmony with life, snuggling up to the other person's heart and perspective.

More clarity.

A life that allows people to choose their own lifestyle comfortably without hesitation.

More diversity.

A life that is in tune with the times, with people, and with a variety of values.

We have been contributing to the optimization of the real estate market from early on,

and have accumulated a wealth of data and trust.

To create a new standard together with our customers.

What only technology can do, what only people can do.

We want to build more and more "tools" to help people's lives, "places" where people can exchange data with peace of mind, and "experiences" where friendly communication can spread.

When life changes, when life continues.

At every point of contact,

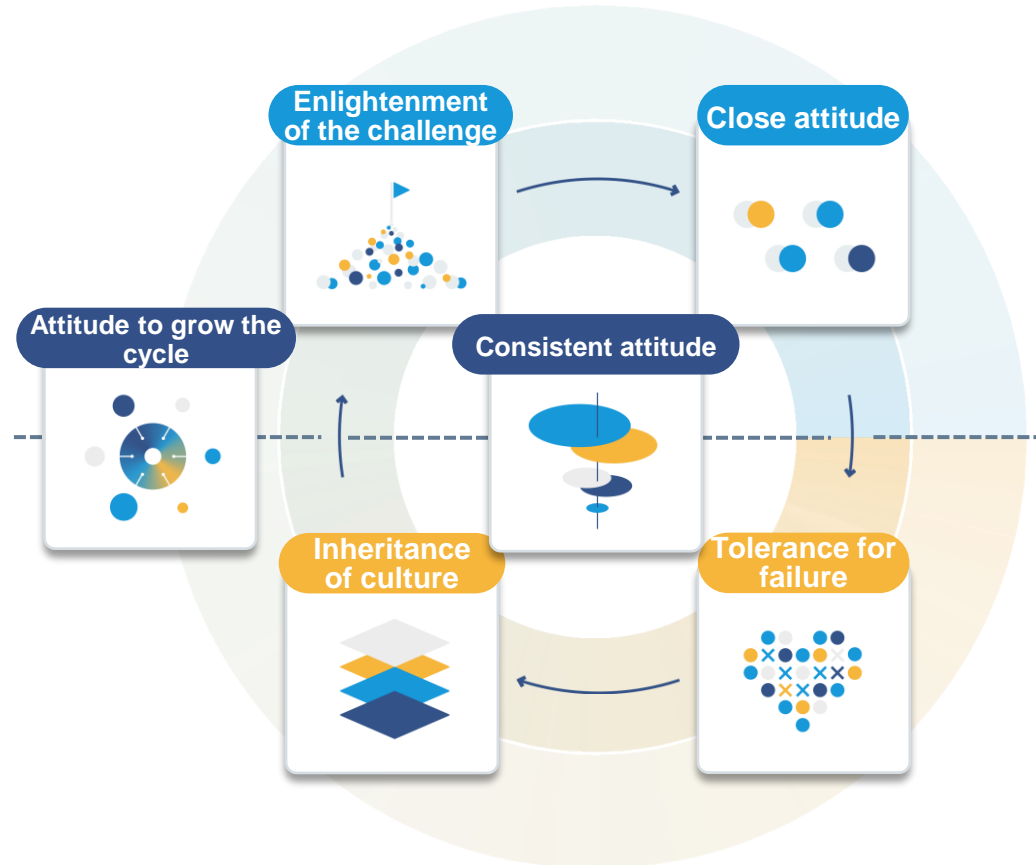

we want to provide rich and clear choices, and to connect people and their good lives by seamlessly linking data.

Create a social system in which a comfortable life circulates.

That is our mission.

Unique Value That Supports Growth

Business (External)

Organization (Internal)

Enlightenment of the challenge

Keep setting a new standard.

Always question the "norm," learn and unlearn, and formalize the path we have taken.

Be curious, enjoy exploring the unexplored as pioneers, introduce and expand new insights into our organization.

Close attitude

Advance forward with perspective just right.

Think about innovations and improvements that will move the world forward by one step.

Not in the future, not so far, nor today, but from the distance of "TOMORROW".

Light the way forward proactively, not leaving anyone behind, and not stagnating.

Consistent attitude

Be gentle and kind, but with firm determination in heart.

Kindness = "friendly" and ease = "comfortable", but it is not a Yes-man.

We will be a dependable presence through clear communication and a system with a "principle".

Attitude to grow the cycle

Generate a chemical bond by various talents.

Send out your own WILL and involve colleagues and partners who can fill in your lacking abilities.

When the DNA of specialist's fuse beyond differences in areas and ideas, new "chemical reactions" will be born.

Inheritance of culture

Make our history by accumulating trust from others.

The past leads to today, and today leads to the future.

Accumulating trust with our customers step by step, becomes the foundation of "US" and our history.

Tolerance for failure

Love challenges and failures we meet altogether.

Let's welcome the trials and errors with great love, for new challengers and that followers.

Whether it is a small challenge or a big failure, let us accumulate them while supporting each other.

Service Line-up

This is the structure of each service that embodies e-Seikatsu's mission.

It consists of a central service line-up for all areas and a leasing, leasing, management, and trading service specializing in each area.

Each service is not interrupted by its domain or business, but it connects all real estate-related operations and circulates lifestyle and data.

Along with the the Brand Renewal, the Service Category and the Product Names have been Changed.

In order to deliver more friendly and convenient services to our customers, e-Seikatsu was rebranding its services.

② Our Products

[Sales Support] Customer management SaaS optimized for real estate leasing brokerage. Support for the digitization of the real estate business

[Properties Advertising] Digital and efficient rental and intermediary real estate companies

いい生活
賃貸クラウド

Sales Support / Property Advertising

[Sales Support]

- Supports smartphones, tablets, and other devices, and manages a wide range of interactions such as LINE and web chat on a single screen
- Real-time linkage with e-Seikatsu database, and smooth transition to electronic applications and contracts

[Properties Advertising]

- Support for multi-device devices such as smartphones and tablets
- Support the business of a rental real estate agency that operates on the web with AI input support and assist functions.

SaaS customer management optimized for real estate trading. Support for digitization of real estate sales

The image displays the e-Seikatsu Sales Cloud interface. On the left, there is a logo for 'いい生活 売買クラウド' (Ii Seikatsu Baikai Cloud) with the text 'Sales support' below it. The main part of the image shows a smartphone screen displaying a customer management dashboard. The dashboard includes a search bar for customer names and phone numbers, a list of customer profiles (e.g., 鈴木 裕翔, 田中 由紀子, 住谷 良和), and a chat window. The chat window shows a conversation between a customer and a sales agent, with messages in Japanese. The interface is clean and modern, with a light blue and white color scheme.

- Maximize opportunities to interact with management customers on a single screen for various types of communication, such as LINE and Web chat, for smartphones, tablets, and other devices.
- Complete My Page for Customers. Supporting sales activities by automatically responding to customer feedback and introducing new properties
- Corresponding to key operations such as sales assessment, explanations of important matters, sales contracts, and preparation of transaction ledgers
- Real-time linkage with e-Seikatsu database, and smooth transition to electronic applications and contracts

e-Seikatsu Lease Management Cloud

SaaS for lease management companies covering management contracts with owners, rent management, income and expenditure reporting, and accounting linkages

いい生活
賃貸管理クラウド

Appointment Management /
Rent Management

✓ Three evaluation axes

Easy to understand

Ease of use

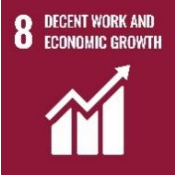

Large amount of information

- Nikko Investor Relations Co.,Ltd. surveyed **3,926 listed companies** to determine **the level of information disclosure on their websites.**
- Whether or not each evaluation item is posted on the target company's website is assessed twice.
- 169 items were converted into deviation values for each of the three objective perspectives, and the average was evaluated as a total point, which was then announced as a ranking.
