1. Qualitative Information on Quarterly Financial Results

(1) Explanation of Operating Results

During the six months ended September 30, 2023, there were expectations of a recovery of economic activities in the Japanese economy after the novel coronavirus infection (COVID-19) pandemic. However, the impacts of continuously rising commodity and energy prices, as well as the yen depreciation in the foreign exchange market, have prevented us from remaining optimistic about the economic future. The overseas economy, which preceded Japan in terms of activity after the COVID-19 pandemic, has seen stagnation in recovery from the impact of the pandemic, due to inflationary trends caused by the situation in Russia and Ukraine and prolonged monetary tightening policies in North America and Europe, as well as a business slowdown in the Chinese economy due to sluggish domestic and foreign demands.

Under these situations, the markets of the outdoor, sports, and leisure industry, in which the Group operates, remained weak. This is due to the financial pressure on households from soaring commodity prices, as well as the increased popularity of travelling, shopping, and a variety of other sports and leisure activities that had been restricted.

In such conditions, as "A Lifetime Sports Company," the Group has been providing attractive products and high-quality services for everyone who loves nature and sports. However, with impacts including the slowing demand for outdoor, sports, and leisure goods, such as fishing goods, and an increase in inventory levels, for the six months ended September 30, 2023, net sales were 67,876 million yen (down 8.7% year-on-year). As for profit, due to a decrease in revenue which led to a decrease in gross profit and an increase in expenses, such as personnel expenses, operating profit was 6,522 million yen (down 30.8% year-on-year), ordinary profit was 7,198 million yen (down 29.8% year-on-year), and profit attributable to owners of parent was 5,099 million yen (down 31.3% year-on-year).

Operating results by segment are shown as follows. Net sales of each segment include inter-segment sales and transfers.

Japan

In Japan, the outdoor, sports, and leisure markets remained weak partially due to financial pressure on households from rising energy and commodity prices, as well as an increased variety of leisure consumption to include travel and others caused by the relaxation of movement restrictions. Under such circumstances, the Group launched new products and provided services to satisfy our customers. It also received a lot of orders for a spinning reel "AIRITY" and a bass rod "STEEZ RC" in fishing, and "2023 ONOFF LADY" series in golf. However, net sales were 43,856 million yen (down 8.7% year-on-year), while segment profit was 4,079 million yen (down 34.4% year-on-year) due to an increase in import purchasing costs as a result of yen depreciation.

Americas

In the Americas, the continued high inflationary pressure has raised concerns regarding the resulting economic impact during normalization of the economy. Under such circumstances, although the Group made efforts for expanding sales mainly in bass fishing goods for the U.S. market, net sales were 7,298 million yen (down 14.7% year-on-year), while segment profit was 98 million yen (down 71.7% year-on-year).

Europe

In Europe, the prolonged situation in Russia and Ukraine indirectly resulted in high inflationary levels, and this trend continued, which affected consumption patterns. Under such circumstances, while products that catered to local needs continued to be launched, net sales were 8,174 million yen (down 1.9% year-on-year), while segment profit was 427 million yen (down 30.4% year-on-year).

Asia and Oceania

In the Asia and Oceania region, the socioeconomic situation varies among countries. However, the outdoor, sports, and leisure markets, which had remained resilient, showed signs of a slowdown as interest rates and commodity prices notably increased also in Asia. Under such circumstances, although the Group worked to

expand sales mainly in high-class Japanese-made products and goods exclusively for a local area, net sales were 24,885 million yen (down 9.2% year on year), while segment profit was 3,480 million yen (down 16.6% year on year).

(2) Explanation of Financial Position

Total assets at the end of the six months ended September 30, 2023, amounted to 112,433 million yen, an increase of 3,398 million yen from 109,034 million yen at the end of the previous fiscal year. The increase is mainly due to increases in inventories and property, plant and equipment.

Net assets amounted to 55,013 million yen, an increase of 7,527 million yen from 47,485 million yen at the end of the previous fiscal year. The increase is due to recording profit attributable to owners of parent, as well as fluctuation in foreign currency translation adjustment.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-Looking Information The financial results forecast for the fiscal year ending March 31, 2024 has not been revised from the forecast announced on August 9, 2023.
