## Toyoda Gosei Starts Operations at Airbag Plant in South China

Kiyosu, Japan, November 29, 2023: Toyoda Gosei Co., Ltd. has started operations at a new plant in Guangdong Province, China, and held an opening ceremony on November 28. The new plant will strengthen the company's production capacity for its mainstay safety systems in China, where the automobile market continues to grow.

The new plant was built as a branch plant of Toyoda Gosei (Foshan) Auto Parts Co., Ltd. (TGFP). It will help to meet the increasing needs for airbags and other safety systems that is anticipated with the higher automobile production and stricter safety regulations in China. As a smart factory adopting Toyoda Gosei's latest production technology, the new plant will pursue efficient and environmentally-friendly manufacturing through automation in product assembly, transport and other areas, and electrification of facilities.
