(Changes in Accounting Policies)

(Implementation of ASU2016-13, "Measurement of Credit Losses on Financial Instruments")

Some overseas subsidiaries which apply U.S. GAAP and are considered non-public business entities have adopted ASU2016-13, "Measurement of Credit Losses on Financial Instruments" from the beginning of the first quarter ended June 30, 2023. This update has replaced the incurred loss impairment methodology under previous U.S. GAAP with a methodology that reflects expected credit losses with respect to financial instruments in the amortized cost category, and full lifetime expected credit losses have been estimated upon initial recognition and a reserve has been recognized. In adopting the accounting standard, Retained Earnings was adjusted for the cumulative effect at the beginning of the first quarter ended June 30, 2023 in accordance with transitional treatment set out in the accounting standard.

As a result, at the beginning of the first quarter ended June 30, 2023, Reserves for Possible Losses on Loans increased by ¥1,188 million, Reserves for Contingencies increased by ¥1,485 million and Retained Earnings decreased by ¥1,883 million.
