

The corporate governance of Japan Petroleum Exploration Co., Ltd. (“JAPEX”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

- Contributing to society through stable energy supply and addressing social issues toward realizing the sustainable development goals is the corporate vision of JAPEX.
- In order to achieve the corporate vision and to maximize our corporate value in a medium- and long-term perspective, the efficient and transparent corporate management and the building of mutual trust relationships with our stakeholders including shareholders through ensuring our accountability are required, and corporate governance is one of our important topics as the foundation. We will enhance our corporate governance by respecting the purpose and spirit of Japan's Corporate Governance Code.

Reasons for Non-compliance with the Principles of the Corporate Governance Code

- JAPEX complies with all the principles of the Corporate Governance Code.

Disclosure Based on the Principles of the Corporate Governance Code

Principle 1.4: Cross-shareholdings

- JAPEX owns cross-shareholdings comprising shares of companies we have determined to be necessary to promote smooth business execution and to maintain good business relationships with the purpose of enhancing sustainable growth and medium- to long-term corporate value.
- To ensure that these cross-shareholdings are reasonable, the Board of Directors assesses the validity of maintaining the holdings every year by conducting a qualitative evaluation related to the appropriateness of the purpose of owning the shares and a quantitative evaluation on whether the benefits and risks from each holding cover JAPEX's cost of capital.
- Based on this assessment, regarding the shares we decided to continue owning, we disclose the purpose and number of shares held as specific investments in our Annual Securities Report.
- If we determine that it has become less reasonable to own certain shares, we reduce the number of those shareholdings. Regarding the exercise of voting rights, we determine whether to vote in favor of or against proposals only after individually evaluating the appropriateness of each and comprehensively considering whether or not the proposals contribute to the purpose of owning the shares and the enhancement of medium- to long-term corporate value.

Principle 1.7: Transactions with Related Parties

- JAPEX carries out all transactions, including transactions between related parties, in accordance with the criteria set forth in decision and authorization regulations, after review by the Administration & Legal Department and confirmation by the relevant departments, and after the approval of the President and directors in charge, and other procedures.
- Competitive transactions by directors, principal transactions between directors and JAPEX, and transactions involving conflicts of interest are conducted in accordance with the resolution standards of the Board of Directors after approval by the Board of Directors. The results of transactions between related parties are disclosed in the Annual Securities Report and other documents following a resolution of the Board of Directors.

Supplementary Principle 2.4.1: Ensuring Diversity within JAPEX

(1) Ensuring diversity

- Under the JAPEX Diversity, Equity & Inclusion (DE&I) Policy set forth below, JAPEX recognizes that ensuring diversity in human resources is an important management issue. To this end, we enable our diverse employees to create new value by encouraging each and every one to play their active role and grow their careers through fully demonstrating their inherent capabilities.

(3) Investment in intellectual property

- Under JAPEX2050 and JAPEX Management Plan 2022-2030, JAPEX is working on new businesses that contribute to a carbon-neutral society, such as CCS/CCUS and renewable energy toward the realization of a carbon-neutral society. We will aggressively invest in technology in

- ◆ Operation of the Board of Directors should be improved so that Directors can discuss important management issues such as sustainability, human capital, DX from a broad perspective, as well as making decisions on specific matters regarding execution of business.
 - ◆ Operation of the Board of Directors should be improved so that Directors can discuss investment projects, focusing on portfolio optimization by promoting visualization of moves of all business fields not only specific projects in process.

Policy on Determining Compensation Amounts and the Calculation Methods

Established

Disclosure of Policy for Determining Compensation Amounts and Calculation Methods

The policy for determining the compensation of directors is outlined below. As a prerequisite, the 52nd Ordinary General Meeting of the Shareholders held on June 28, 2022 resolved that the basic monthly compensation for directors shall be no more than ¥50 million per month (including no more than ¥5 million per month for outside directors), and the total amount of bonuses shall be resolved at the General Meeting of Shareholders for each fiscal year.

Basic policy

- Regarding the compensation of directors, the compensation structure can function as an incentive to sustainably enhance corporate value. When deciding the compensation of individual directors, our basic policy is to set an appropriate level in consideration of the roles aligned with their position
- Specifically, the compensation of directors (excluding outside directors) comprises base compensation and performance-linked compensation (bonuses and share-based compensation). Compensation for outside directors is only base compensation, considering their duty of supervising management.

Policy for determination of compensation

- The base compensation of JAPEX's directors is fixed monthly monetary compensation and is decided in comprehensive consideration of their position, balance with public markets and employee pay, number of years employed, and more.
- Of performance-linked compensation, bonuses are paid at certain times every year based on consolidated net income as an indicator measuring their contribution to results for the corresponding fiscal year. Specifics are decided in comprehensive consideration of their position, dividends, the level of employee bonuses, their contribution of directors to corporate management in each fiscal year, past results, payment record, and more. The directors' contribution to corporate management is evaluated based on their contribution to the business results mentioned above, achievement of annual targets and business plans (including greenhouse gas emission reduction targets), human resource management, leadership, and execution ability.
- Of performance-linked compensation, share-based compensation is based on the officer compensation share provision rules approved by the Board of Directors within the limit approved at the General Meeting of Shareholders. JAPEX shares equivalent to the number of points provided in line with their positions and performance (using a total return ratio as a general rule as an indicator of performance evaluation based on JAPEX's recognition that returning profits to shareholders is an important management issue) and a monetary amount equivalent to the market share price of said shares is provided as a general rule to directors upon retirement.
- We aim for the ratio of performance-linked compensation (bonuses and share-based compensation) to total compensation to be around 30% at standard amounts. To ensure the compensation system can better function as an incentive to sustainably enhance corporate value, we will consider revising the ratio as appropriate.
- Regarding individual compensation, the Representative Director and President is entrusted with the specific details based on a resolution by the Board of Directors. That authority enables the allocation of bonuses based on each director's base compensation and the directors' contribution to corporate management. It also enables the setting of the specific timing of the payment.
- Calculation methods for base compensation and bonuses are deliberated in advance at the Nomination and Compensation Committee. The Representative Director and President must decide the method with respect to the results of the deliberations.
- The provision of share-based compensation is reported in advance to the Nomination and Compensation Committee.

1. Adoption of Takeover Defense Measures

Adoption of Takeover Defense Measures

Established

Supplementary Explanation for Applicable Items

(1) Basic Policy Regarding the Person Controlling Decisions Relative to Policies for Our Finances And Business

JAPEX considers that the person controlling our financial and business policy decisions should fully understand the content of our finances and business and the source of our corporate value, and is eligible to protect and enhance corporate value and ultimately the shareholders' common interests in a continuing, sustainable manner.

JAPEX believes the decision on an acquisition proposal which is associated with the transfer of corporate control should ultimately be made based on the general decision of our shareholders. Furthermore, JAPEX does not disapprove of large-scale share acquisition that contributes to our corporate value and ultimately the shareholders' common interests.

Nevertheless, among large-scale share acquisitions, there are many that do not contribute to the corporate value and the shareholders' common interests, in light of their purpose, including such that cause a clear infringement on the corporate value and the shareholders' common interests, such that has the risk of a de facto coercion against the shareholders to sell their shares, such that does not provide sufficient time and/or information for the Board of Directors and the shareholders consideration of the content of the large-scale share acquisition or for the Board of Directors to propose an alternative plan, and such that require consultation and negotiation with the acquirer to draw out a more favorable condition than the conditions presented from the acquirer.

The large-scale share acquirer should understand the source of our corporate value, not to mention the content of JAPEX's finances and business, and unless he or she protects and enhances them over medium to long term, our corporate value and ultimately the shareholders' common interests will be damaged.

JAPEX considers such a large-scale acquirer that does not contribute to our corporate value and the shareholders' common interests inappropriate as the controlling person to determine the policies of our finances and business, and thus consider necessary to protect our corporate value and ultimately the shareholders' common interests by taking essential and substantial measures against such attempts.

(2) Overview of the Measures to Prevent Large-scale Acquisition of Our Company Shares (Takeover Defense Measures)

1. Purpose

The measures aim to deter takeovers that run counter to our corporate value and the shareholders' common interests, protect and enhance our corporate value and the shareholders' common interests, through securing sufficient information and time necessary for the appropriate decision-making of shareholders alongside securing the opportunity to negotiate with the acquirers, in the event of large-scale acquisition of our company shares.

2. Fundamental Structure

JAPEX adopts pre-warning type takeover defense measures where we establish procedures with which a person who intends to acquire 20% or more of our shares should comply and warn in advance that we may take countermeasures if the person fails to comply with such procedures or our corporate value and the shareholders' common interests are deemed to be impaired.

3. Procedures for Introduction

- d. The Independent Committee shall consider whether or not the acquirer's conduct could damage corporate value or the shareholders' common interests (when damaged, the extent of damage), etc. and recommend implementation or non-implementation to the Board of Directors (the Committee may recommend implementation subject to prior or subsequent approval of shareholders).
- e. With regard to implementation, the Board of Directors shall, in principle, convene a general meeting of the shareholders (hereinafter the "General Meeting of the Shareholders for Decision Hearing") to hear the shareholders' decision.

2. Other Matters Concerning the Corporate Governance System

○ Overview of Timely Disclosure System

JAPEX adopts the following system for handling facts about our operations, business and assets that have a significant effect on investment decisions of investors (hereinafter "Material Fact(s)") to ensure the timely and appropriate disclosure of Material Facts.

1. Aggregation of Information on Material Facts

The Internal Information Management Regulations specify a supervising department and define the time of occurrence/decision for each Material Fact (corporate decisions, occurrences of material facts, financial information, or facts concerning subsidiaries). Information on such facts is collected by promptly notifying the Corporate Communication Office, which is responsible for information management and disclosure, from each supervising department.

2. Disclosure of Material Facts

The Corporate Communication Office is responsible for determining the timing of disclosure, compiling the content of disclosure, and conducting disclosure in a consistent manner in order to prevent leaks of aggregated information before disclosure and to ensure prompt disclosure. If there is any doubt on the decisions whether or not a matter constitutes a Material Fact, the decision will be promptly made by the officer in charge of the Corporate Communication Office who is responsible for handling the information.

(2) Assurance of the Appropriateness of the Disclosure Content
