## 1. Qualitative Information about the Quarterly Financial Results

(1) Explanation regarding the Non-consolidated Results of Operations

During the third quarter of the current consolidated cumulative period, Japan saw social and economic activities increasingly return to normal as COVID-19 was reclassified into a different infectious disease class, and demand for incoming tourism also recovered owing to an increase in the number of visitors from overseas. However, the economic outlook remains uncertain because of rising prices of raw materials and other key goods, and of financial and capital market fluctuations, among other factors.

In the reuse industry, the market continues to grow as consumers turn to reuse more consciously in line with their greater efforts to achieve the Sustainable Development Goals (SDGs), and as rising prices boost demand for reusable items that help consumers economize to maintain their standards of living.
During the third quarter, the Treasure Factory Group enjoyed steady business that continued from the previous quarter. We achieved an operating profit of $¥ 1,027$ million over the third quarter of the consolidated accounting period from September to November, which was more than planned, and a record figure for our operating profit earned in the third quarter of a consolidated accounting period, just as we had in the second quarter. On a non-consolidated basis, we opened 14 directlymanaged stores, a Group company opened 2 directly-managed stores and 1 franchise store, and existing stores also enjoyed steady sales. K.K. Kindal ("Kindal") and K.K. PickUp Japan, our Group companies that engage in the reuse business, also saw steady sales, which led to further revenues and profits.

Consequently, the results of operations for the third quarter of the current consolidated cumulative period show net sales of $¥ 24,873$ million (up $22.0 \%$ year on year), operating profit of $¥ 2,475$ million (up $30.2 \%$ year on year), ordinary profit of $¥ 2,509$ million (up $29.1 \%$ year on year), and quarterly profit of $¥ 1,600$ million attributable to owners of the parent (up $26.7 \%$ year on year).

The results of operations sorted by segment are as stated below.

## (Reuse Business)

Consolidated sales increased $22.4 \%$ year on year, non-consolidated sales increased $20.1 \%$ year on year, and non-consolidated sales at existing stores increased $10.1 \%$ year on year. In terms of sales by category, apparel sales increased $27.3 \%$ year on year because demand for outfits for going out grew. The sales of electric appliances increased $15.4 \%$ year on year as the business responded to new lifestyle-related demands in March and April as well as to demand for summer home appliances from June through August. The sales of items targeted at foreign tourists picked up again, and this helped significantly boost the sales of fashion items such as branded items and wristwatches by $24.9 \%$ year on year, and of hobby-related items, which have been selling more than before since the pandemic started, by $16.0 \%$ year on year. Consolidated e-commerce sales increased by $16.7 \%$ year on year, as did non-consolidated e-commerce sales by $22.0 \%$ year on year. Consolidated purchases of merchandise for the fiscal year under review increased $29.7 \%$ year on year, and non-consolidated purchases of merchandise also grew by $28.1 \%$ year on year. As for non-consolidated purchases by channel, in-store purchases continued to steadily grow, achieving an increase of $27.1 \%$ year on year. Home-delivery purchases increased by $26.2 \%$ year on year, and home-visit purchases enjoyed an increase of $9.5 \%$ year on year.

During the third quarter of the current consolidated cumulative period, we opened 4 general reuse stores, 7 fashion reuse stores, 1 fashion outlet reuse store, 1 sports and outdoor reuse store, and 1 brand-name item reuse store, the non-consolidated total being 14 stores. In terms of new stores by region, we opened 10 in Kanto, 3 in Kansai, and 1 in Kyushu, maintaining a good balance of geographic locations. Furthermore, Kindal, our Group company, opened 2 directly-managed stores and 1 franchise store. The number of stores at the end of the third quarter of the consolidated accounting period under review are as follows: 181 directly-managed stores and 4 franchise stores, the non-consolidated total being 185; and 266 stores in total across the Group.
These results added up to net sales of $¥ 24,270$ million (up $22.4 \%$ year on year) and a segment profit of $¥ 3,614$ million (up $25.3 \%$ year on year).

## (Other)

Cariru, our rental business, successfully captured demand as people attended weddings and other events, and its sales increased $23.6 \%$ year on year. However, profit decreased because we spent more on advertising, leading SG\&A to increase $50.6 \%$ year on year.
These results added up to net sales of $¥ 878$ million (up $23.3 \%$ year on year) and a segment profit of $¥ 121$ million (down $30.3 \%$ year on year).
(2) Explanation regarding the Non-consolidated Financial Position

Total assets at the end of the third quarter of the current consolidated accounting period increased by $¥ 2,566$ million compared to the end of the previous consolidated fiscal year, totaling $¥ 17,225$ million because of a decrease of $¥ 1,139$ million in cash and deposits, an increase of $¥ 543$ million in accounts receivable-trade, an increase of $¥ 1,998$ million in merchandise, an increase of $¥ 408$ million in buildings and structures (net), an increase of $¥ 296$ million in goodwill, an increase of $¥ 250$ million in leasehold and guarantee deposits, among other reasons.

Total liabilities at the end of the third quarter of the current consolidated accounting period increased by $¥ 1,425$ million compared to the end of the previous consolidated fiscal year, totaling $¥ 9,269$ million because of an increase of $¥ 811$ million in short-term borrowings, a decrease of $¥ 359$ million in income taxes payable, an increase of $¥ 747$ million in long-term borrowings, among other reasons.
Total net assets at the end of the third quarter of the current consolidated accounting period increased by $¥ 1,140$ million compared to the end of the previous consolidated fiscal year, totaling $¥ 7,956$ million because a quarterly profit of $¥ 1,600$ million attributable to owners of the parent was recorded, among other factors.
(3) Explanation regarding the Information on Forecasts including Consolidated Forecasts
