# Consolidated results

#### Both revenues and income increased

- > Operating revenues increased for the third year in a row as demand recovered in the railway, EKINAKA (stores inside railway stations), hotel, and shopping center businesses.
- > Income increased at all levels as a result of increase in revenues.

#### Segment

#### All segments achieved increased revenues and income

- > Transportation business achieved <u>increases in revenues and income</u> mainly due to an increase in passenger revenues (particularly in non-commuter passes revenues).
- > Retail & Services business achieved <u>increases in revenues and income</u> mainly due to an increase in the sales of EKINAKA stores.
- Real Estate & Hotels business achieved <u>increases in revenues and income</u> mainly due to an increase in the sales of hotels and condominiums.
- Other business achieved <u>increases in revenues and income</u> mainly due to an increase in the sales related to the IC card business.

#### OFinancial forecasts for FY 2024.3

The previous financial forecasts announced on April 27, 2023 have been revised in view of the FY2024.3 third quarter financial results, resulting in an upward revision of all of operating revenues, operating income, ordinary income, and profit attributable to owners of parent (or profit on a non-consolidated basis).

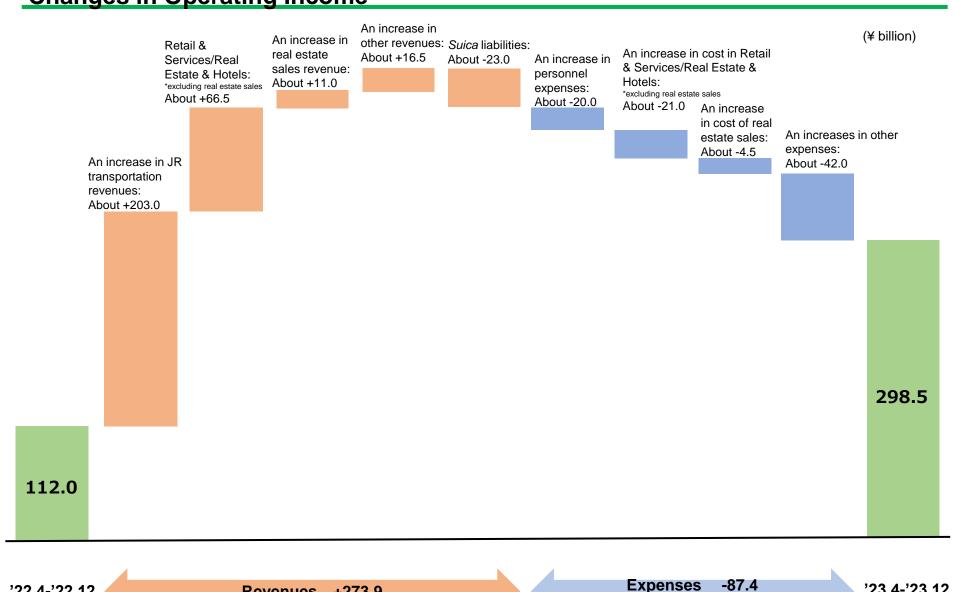

#### OShareholder returns (dividend)

In view of the revision to forecasts of business results, year-end dividend payment has been revised as follows:

FY 2024.3 Interim dividend per share: 55 yen Year-end dividend per share: (forecasts) 70 yen (previous forecast: 55 yen)

# FY2024.3 Third Quarter Financial Results(consolidated): Changes in Operating Income

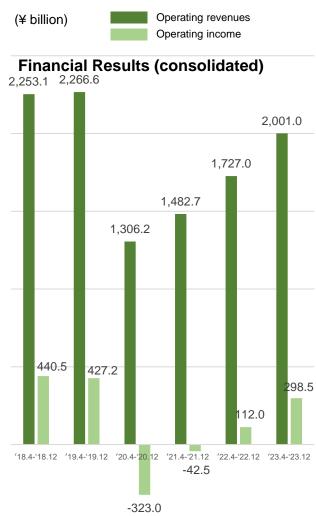

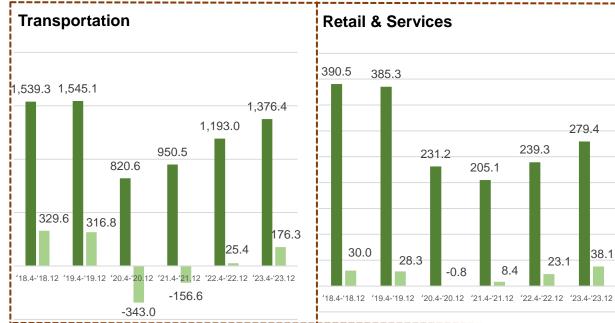

'22.4-'22.12 Revenues +273.9 Expenses -87.4 (decrease in income due to increases in expenses) '23.4-'23.12

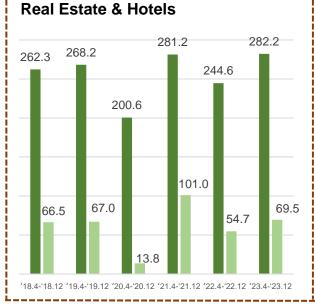

#### **Trends in Third Quarter Financial Results**

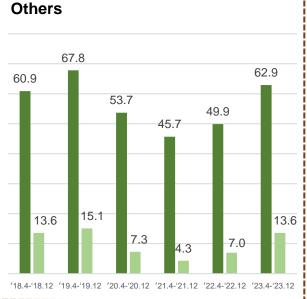

- \* Operating revenues is based on sales to external customers
- \* "Accounting Standard for Revenue Recognition" has been applied since FY2022.3
- \* Advertisement revenues and income of JR East has been reclassified from the Transportation business to Retail & Services business since FY2021.3

# **Progress in the Revision of Railway Fares and Charges Systems**

October

Revision of Green Car and reserved seat charges for "Notte Tanoshii" trains 21

# **Progress in the Revision of Railway Fares and Charges Systems**

Outline of the proposed partial revision of the Revenue Cost Calculation Guidelines

(prepared by JR East based on public comment materials)

Item	Current	Proposed revision						
Depreciation	Depreciation accounted for in accordance with the Regulation on Accounting in the Railway Industry	<ul> <li>In addition to the current calculation method, any of the following methods are acceptable:         <ul> <li>(1) Annual average amount over up to six years, including regular years</li> <li>(2) Addition of accelerated depreciation of the undepreciated balance of existing facilities over regular years under certain assumptions (★)</li> <li>※ Subject to prior and after-the-fact checks by the MLIT on planned and actual amounts of capital investment, the amount that can be accelerated, etc.</li> </ul> </li> </ul>						
Research and development expenses	Determined by the <u>yardstick method</u> Method of determining cost based on standard cost calculated by comparing six JR companies	<ul> <li>Not determined by the yardstick method (★)</li> <li>※ Subject to prior and after-the-fact checks by the MLIT on planned and actual amounts, etc.</li> </ul>						
Personnel and other expenses	<ul> <li>Nationwide uniform assessment</li> <li>Inflation rate is determined by the weighted average of the actual rate of increase in personnel expenses of railway operators and consumer price index.</li> </ul>	<ul> <li>○ With adjustments for regional differences</li> <li>○ Inflation rate is determined by the weighted average of the Basic Survey on Wage Structure (by industry / by region) or the actual rate of increase in personnel expenses of railway operators and consumer price index (excluding fresh food and energy, by region).</li> <li>※ 10-year simple average (▲) is used for the index.</li> </ul>						
Energy expenses	No document rule on inflation rate	<ul> <li>○ Inflation rate is determined by consumer price index (electricity: electric bill, nationwide; engine: gasoline, by region).</li> <li>※ 10-year simple average (▲) is used for the index.</li> </ul>						
Extraordinary losses	Extraordinary gains and losses are excluded from cost.	<ul> <li>Extraordinary losses arising from large-scale disasters can be recognized (★).</li> <li>* Excluding insurance claim income and certain other items, average over the last 10 years (▲)</li> </ul>						
Impairment losses	No document rule on the treatment of impairment losses at the time of application of impairment accounting	★: Our requests have beer						
Business return (Shareholder's equity)	<ul> <li>Simple average of bond subscription yields, all-industry average return on equity, and required rate of dividend (11%)</li> </ul>	<ul> <li>○ In accordance with the <u>calculation method adopted in the electricity and gas sectors</u></li> <li>○ Calculated by reflecting market sensitivity in bond subscription yields and the industry's average return on equity</li> </ul> (partially) reflected. <ul> <li>△: It is questionable whether current trends (inflation, intensification of disasters) can be properly reflected.</li> </ul>						

#### Our plan

- We will closely examine revenues and costs based on the revised Revenue Cost Calculation Guidelines and, <u>if possible, will promptly</u> submit an application for fare revision.
- We <u>will continue to submit requests to the government</u> toward <u>revision of regulated fares and charges</u> and the <u>realization of a simple</u> <u>and flexible system</u>.

#### **Forward-Looking Statements**

Statements contained in this report with respect to JR East's plans, strategies and beliefs that are not historical facts are forward-looking statements about the future performance of JR East, which are based on management's assumptions and beliefs in light of the information currently available to it. These forward-looking statements involve known and unknown risks, uncertainties, and other factors that may cause JR East's actual results, performance or achievements to differ materially from the expectations expressed herein. These factors include, without limitation, (i) JR East's ability to successfully maintain or increase current passenger levels on railway services, (ii) JR East's ability to improve the profitability of railway and other operations, (iii) JR East's ability to expand non-transportation operations, and (iv) general changes in economic conditions and laws, regulations and government policies in Japan.
