DIGITAL HEARTS HOLDINGS Co., Ltd.

## **Notice Regarding the Conclusion of Capital and Business Alliance Agreement with G-angle to Expand Voice Recording and Music Production Support Services**

DIGITAL HEARTS HOLDINGS Co., Ltd. announces that it has entered into a capital and business alliance agreement with voice recording and music and video production company G-angle Co., Ltd. (hereinafter referred to as "G-angle") in order to expand its audio services offerings in the entertainment business.

Under the corporate mission statement "SAVE the DIGITAL WORLD," the DIGITAL HEARTS Group provides a wide range of services to game and entertainment companies, including game debugging services, translation and LQA localization services, and marketing services. As a Global Quality Partner, these services support game makers worldwide.

G-angle is a creative company that brings together a diverse range of creatives capable of all kinds of artistic expression, including video, animation, 3D computer graphics, illustration, sound, and voice, under the corporate philosophy, "Putting quality at the heart of everything we do." Within the field of voice recording and music production, G-angle has many studios in Japan and is able to offer one-stop services providing everything from casting to translation, recording, and editing in over 20 languages.

Through this alliance, the two companies will establish a system to mutually support each other's expertise, resources, and networks to expand services and strengthen sales capabilities, aiming to provide valuable services and increase business possibilities for game manufacturers and customers in the entertainment industry globally.

DIGITAL HEARTS Group is a comprehensive provider of services supporting the entire game value chain, from planning and development to art production, debugging, localization, customer support, and marketing. Recent demand for multilingual voice recording has increased due to the rapid globalization of the game and entertainment industries, and so has the demand for higher quality in music and video, driving need for voice recording and music and video production support. In order to meet this demand, DIGITAL HEARTS Group requires

resources beyond its current capabilities. The alliance will allow for the preferential utilization of G-angle's highly regarded voice recording and music and video production services.

In today's entertainment world, audio elements such as voiceovers, vocals, sound effects, and background music have gained an increased focus, not only for their impact and ability to convey realism, but also as essential elements for communicating the appeal of a work and enhancing players' sense of immersion. The importance of such factors increases with each year, and through this alliance, DIGITAL HEARTS Group will expand and strengthen its voice recording and music production support services and supply system, forming a stronger game value chain that provides more support to game makers than ever before.

■ Game value chain with support services provided by DIGITAL HEARTS Group:

This business alliance will allow G-angle to accelerate the global expansion of its services by strengthening service sales channels through the sales network of DIGITAL HEARTS, which has operations both in Japan and overseas.

DIGITAL HEARTS Group is committed to supporting the development of the entertainment industry, including games, by providing comprehensive, high-quality support services spanning the entire game value chain, from planning and development to marketing, and will continue to provide this support as a "Global Quality Partner."
