

FOR IMMEDIATE RELEASE

Kurita Water Industries Ltd. Reports Earnings for the Nine Months Ended December 31, 2023

Tokyo, Japan, February 9, 2024 - Kurita Water Industries Ltd. (the “Company”) (TSE Securities Code 6370) announced net sales of 286,675 million yen and profit attributable to owners of parent of 21,906 million yen, or 194.89 yen per share, for the nine months ended December 31, 2023 (April 1, 2023 - December 31, 2023).

Results of Operations

Total consolidated orders for the Kurita Group (the “Group”) in the nine months ended December 31, 2023 fell 2.2% from the level of the year-ago period, to 281,597 million yen, and net sales increased 13.9%, to 286,675 million yen. Business profit* increased 7.3%, to 30,452 million yen, operating profit was 30,518 million yen, up 10.3% versus the year-ago period, profit before tax was 30,471 million yen, rising 5.2%, and profit attributable to owners of parent amounted to 21,906 million yen, up 8.7%.

During the nine months ended December 31, 2023, the global economy continued to show a tendency toward recovery, despite signs of weakness in some regions. In Japan, production in certain sectors of the manufacturing industry showed signs of rising as raw material supply restrictions were being lifted, but the recovery was weak, chiefly due to the weak semiconductor-related demand. Capital investment saw little growth. Overseas, the U.S. economy and Asian economies excluding China recovered modestly. Meanwhile, European economies saw sluggish growth due to the impact of rising prices and interest-rate hikes. The Chinese economy’s rebound was weak mainly due to the prolonged slump in the real estate market.

*Business profit is the Group’s own indicator that measures constant business performance. It is net sales less cost of sales and selling, general and administrative expenses. Although business profit is not defined by IFRS, the Group voluntarily discloses it, believing that it is beneficial for users of its financial statements.

Segment Information

Previously, the Group’s reportable segments were the Water Treatment Chemicals segment and the Water Treatment Facilities segment, from the viewpoint of the products and services provided; however, starting from the fiscal year under review, the Group has Electronics Industry and General Industry as the two reportable segments in its segment information, in order to formulate strategies based on an in-depth examination of the characteristics of each market and to expand solutions by combining diverse products and services, from the viewpoint of providing value to society and customers.

Year-on-year comparisons are based on figures for the same period of the previous fiscal year which have been reclassified to conform to the new segments.

Electronics Industry

Total Group orders for the Electronics Industry segment were 125,413 million yen, down 6.5% versus the year-ago period. While orders for recurring contract-based services increased chiefly due to the contribution of an ultrapure water supply contract that began in the previous fiscal year, orders for water treatment facilities decreased due to the absence of orders for large-scale projects posted in the same period of the previous fiscal year. Orders for precision tool cleaning fell, reflecting the impact of lower capacity utilization at customers’ plants in Japan and the U.S. associated with the deterioration in semiconductor market conditions, while orders for maintenance also declined.

Total Group net sales for the Electronics Industry segment amounted to 131,419 million yen, an increase of 22.2% year on year. While net sales of precision tool cleaning decreased, net sales of water treatment facilities rose sharply due to progress with the construction of already ordered large-scale projects and net sales of recurring contract-based services and maintenance also grew.

In terms of profits, business profit amounted to 14,914 million yen, a decrease of 10.9% year on

year, and operating profit declined 9.1%, to 15,072 million yen, reflecting a decrease in sales of precision tool cleaning and a deterioration in the cost of sales ratio due to an increase in facility projects with a comparatively high cost ratio.

General Industry

Total Group orders for the General Industry segment increased 1.5% from the same period of the previous fiscal year, to 156,184 million yen. Orders for water treatment facilities rose mainly due to the addition of four Arcade companies as new consolidated subsidiaries. Orders for recurring contract-based services and engineering cleaning also increased. Orders for maintenance, which were strong in the first nine months of the previous fiscal year, remained flat. Orders for water treatment chemicals declined given lower capacity utilization at customers' plants, mainly in China.

Total Group net sales for the General Industry segment amounted to 155,256 million yen, an increase of 7.7% year on year. Decline in sales of water treatment chemicals was offset by the addition of new consolidated subsidiaries and recognition of revenue from the order backlog in the water treatment facilities business and maintenance business, as well as growth in recurring contract-based services and engineering cleaning, resulting in growth in net sales.

In terms of profits, business profit amounted to 15,534 million yen, an increase of 33.4% year on year, reflecting higher sales and efforts to improve profitability, including product mix optimization and cost-cutting. Operating profit rose to 15,454 million yen, up 39.0% year on year.

Financial Condition

Condition of assets, liabilities and equity

1) Total assets: 529,725 million yen, an increase of 28,187 million yen from the end of the previous fiscal year

Current assets totaled 213,094 million yen at the end of the third quarter, an increase of 16,678 million yen from the end of the previous fiscal year. This was mainly due to an increase of 11,136 million yen in trade and other receivables and a rise of 4,227 million yen in inventories.

Non-current assets totaled 316,631 million yen at the end of the third quarter, an increase of 11,510 million yen from the end of the previous fiscal year. Property, plant and equipment increased 4,635 million yen chiefly due to the acquisition of new facilities in the ultrapure water supply business (Electronics Industry), and goodwill rose 6,486 million yen. The rise in goodwill is attributable to an increase of 2,377 million yen due to the acquisition of Arcade Engineering GmbH, Arcade Industrie SAS and Kurita Switzerland AG (former Arcade Engineering AG, whose name changed on December 18, 2023), and Arcade Engineering (Asia) Pte. Ltd. during the second quarter under review, and also reflects the weakening of the yen against foreign currencies.

2) Liabilities: 212,340 million yen, an increase of 6,562 million yen from the end of the previous fiscal year

Current liabilities totaled 106,886 million yen at the end of the period, a decrease of 2,582 million yen from the end of the previous fiscal year. This is chiefly attributable to decreases of 4,870 million yen in bonds and borrowings and 3,153 million yen in income taxes payable, which offset an increase of 5,497 million yen in trade and other payables.

Non-current liabilities totaled 105,453 million yen at the end of the period, an increase of 9,143 million yen from the end of the previous fiscal year. This was mainly due to an increase in bonds and borrowings of 9,984 million yen resulting from a rise in long-term borrowings.

3) Equity: 317,384 million yen, an increase of 21,625 million yen from the end of the previous fiscal year

This was attributable to an increase of 8,820 million yen in other components of equity mainly due to the posting of exchange differences on translation of foreign operations, reflecting the weakening of the yen against other currencies, and a rise of 12,761 million yen in retained earnings due to the posting of a profit attributable to owners of parent.

Cash Flows

Consolidated cash and cash equivalents at the end of the third quarter totaled 49,286 million yen, a decrease of 1,182 million yen from the end of the previous fiscal year.

The various cash flows and related factors are outlined below.

1) Cash Flows from Operating Activities

Net cash provided by operating activities during the nine months ended December 31, 2023 totaled 33,053 million yen, an increase of 4,287 million yen from the same period of the previous fiscal year. This was chiefly due to inflows, including profit before tax of 30,471 million yen and depreciation, amortization and impairment losses of 24,089 million yen, which were partially offset by outflows, including an increase in trade and other receivables of 7,613 million yen and income taxes paid of 11,898 million yen.

2) Cash Flows from Investing Activities

Net cash used in investing activities totaled 27,814 million yen, a decrease of 1,971 million yen from the same period of the previous fiscal year. Cash was used mainly for purchases of property, plant and equipment of 21,242 million yen and the acquisition of subsidiaries of 3,070 million yen (after deducting cash and cash equivalents included in acquired assets).

3) Cash Flows from Financing Activities

Net cash used in financing activities totaled 8,737 million yen, an increase of 11,166 million yen from the same period of the previous fiscal year. Cash was used mainly for dividends paid of 9,236 million yen, a net decrease in short-term borrowings and commercial paper of 5,065 million yen, and repayments of lease liabilities of 3,889 million yen, which were partially offset by proceeds from long-term borrowings of 12,018 million yen.

The Group's basic policy is to constantly secure the liquidity necessary for business operations and establish a stable funds-raising system. Short-term working capital, capital investment and other investments in growth fields depend chiefly on the Group's own funds, but the Group procures financing through bond markets and bank loans as needed. As of the end of the period under review, the Group has concluded commitment line contracts with two financial institutions (no borrowing executed and unexecuted borrowings within the commitment line was 20,000 million yen).

Forecasts for the Fiscal Year Ending March 31, 2024

The Group's current outlook for the fiscal year ending March 31, 2024 is consistent with the earnings forecast disclosed in "Reports Earnings for the Six Months Ended September 30, 2023," which was announced on November 7, 2023.

The business forecasts are made by the Company based on information available at the time of publication of this report and may differ from actual results due to changes in a range of factors.

(Segment Information)

(1) Overview of reportable segments

The Company's reportable segments are components of the Group about which separate financial information is available. These segments are subject to periodic review to enable the Company's board of directors to decide how to allocate resources and assess performance.

Previously, the Group's reportable segments were the Water Treatment Chemicals segment and the Water Treatment Facilities segment, from the viewpoint of the products and services provided; however, starting from the fiscal year under review, which is the first fiscal year of the new Medium-term Management Plan PSV-27, the Group has Electronics Industry and General Industry as the two reportable segments in its segment information, in order to formulate strategies based on an in-depth examination of the characteristics of each market and to expand solutions by combining diverse products and services, from the viewpoint of providing value to society and customers.

The segment information for the first nine months of the previous fiscal year has also been restated to reflect this change.

(2) Information of reportable segments
