1. Qualitative Information on Quarterly Financial Results

(1) Explanation of Operating Results

For the nine months ended December 31, 2023, the Group (the Company and its consolidated subsidiaries) posted net sales of 10,278 million yen (a 1.3% increase year-on-year), operating profit of 4,111 million yen (a 1.8% decrease year-on-year), ordinary profit of 4,180 million yen (a 1.3% decrease year-on-year), and profit attributable to owners of parent of 2,813 million yen (a 1.9% decrease year-on-year).

Status by segment is as follows.

(Architecture System Business)

In the architecture system business, net sales were 4,746 million yen (a 4.8% increase year-on-year) and operating profit was 1,495 million yen (a 4.6% decrease year-on-year). During the nine months ended December 31, 2023, the number of corporate customers for maintenance service in the housing and BIM businesses, as well as those for the 3D catalogue site in the building material business continued to remain steady, and the stock business grew. In the BIM business, reinforcement of BIM in the construction stage for improving productivity increased the number of new construction companies that introduced the technique, making sales of the software increase year-on-year.

Due to the increased labor expenses arising from the employee reshuffling among the Group companies as well as the increased travel and exhibitions expenses after sales activities made more active, including participation in large-scale trade exhibitions this fiscal year, sales increased and profit decreased year-on-year.

(Surveying/Civil Engineering System Business)

In the surveying/civil engineering system business, net sales were 5,219 million yen (a 0.8% increase year-on-year), and operating profit was 2,422 million yen (a 1.6% decrease year-on-year). During the nine months ended December 31, 2023, due to the governmental decision to adopt BIM/CIM for almost all public construction projects in principle that started in fiscal 2023, there was an increase in the number of corporate customers, mainly for such products as point cloud processing software and BIM/CIM communication systems and sales shifted strongly in the construction infrastructure business. The Surveying/Civil Engineering System Business showed an increase in profit year-on-year, slightly though, due to the increased sales produced by the stock business, though sales of products decreased.

This fiscal year, due to the increased travel and exhibitions expenses after sales activities made more active, including participation in large-scale trade exhibitions, sales increased and profit decreased year-on-year.

(IT Solutions Business)

In the IT solutions business, net sales were 312 million yen (a decrease of 28.5% year-on-year), and operating profit was 157 million yen (a decrease of 24.5% year-on-year), resulting in a decrease of both sales and profit year-on-year. In the previous fiscal year, the Company recorded major sales related to the exit poll system for the Upper House election held in July 2022. During the nine months ended December 31, 2023, despite the recording of sales related to the nation-wide local elections held in April 2023, both sales and profit decreased, as the scale of sales from such election was smaller than that for the Upper House election.

(2) Explanation of Financial Position

Total assets as of the end of the third quarter of the fiscal year under review were 27,781 million yen, an increase of 1,037 million yen from the end of the previous fiscal year. This was primarily due to increases in cash, deposits, and securities and decreases in accounts receivable-other.

Total liabilities decreased by 603 million yen compared with the end of the previous fiscal year to 4,456 million yen. This was primarily due to decreases in income taxes payable and provision for bonuses.

Net assets increased by 1,641 million yen compared with the end of the previous fiscal year to 23,324 million yen. As a result, shareholders' equity ratio stood at 84.0%.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Information The consolidated financial results forecast remains unchanged from the Consolidated Financial Results where was disclosed on May 12, 2023.

(Notes)

- 1. The adjustment of 36 million yen to segment profit is management fees and other fees received from group companies and expenses related to group management.
- 2. Segment profit is adjusted to align with the operating profit in the quarterly consolidated statements of income.

2. Changes, etc. in reportable segment

"IFAC, LLC" and "IFAC Investment Limited Liability Partnership" were newly established for the purpose of investing in construction-tech start-ups in and outside Japan. Accordingly, a new reportable segment, "Investment Business" has been added to the conventional three reportable segments of "Architecture System Business," "Surveying/Civil Engineering System Business" and "IT Solutions Business" from the first quarter under review, resulting in four reportable segments.

In the third quarter under review, as revenues, profits or losses from "Investment Business" segment are quite small and are hence less significant in terms of amount, the amounts are included in the "Adjustments."
