## Financial Results 3Q FY2024/3

## P) PALTAC CORPORATION

January 31, 2024

## Financial Results 3Q FY2024/3

## YoY (Apr. - Dec.)

Both sales and profits exceeded those of the previous fiscal year
Profits benefited also from the reaction to one-time expenses, which were recorded in the previous fiscal year, associated with the newly established distribution center

| ¥ billion <br> (Ratio of net sales : \% ) | 3Q FY2023/3 <br> Results |  | 3Q FY2024/3 <br> Results |  |
| :--- | ---: | ---: | ---: | ---: |
| Net Sales | 848.1 | Amount (YoY) | Rate(YoY) |  |

## YoY (Apr. - Dec.)

Although the gross profit margin decreased, operating profit exceeded that of the previous fiscal year due to an increase in gross profit from sales expansion and the improvement of the SG\&A expenses ratio

| $¥$ billion ( Ratio of net sales: \%) | 3Q FY2023/3 Results | 3Q FY2024/3 Results | Amount (YoY) | Rate(YoY) |
| :---: | :---: | :---: | :---: | :---: |
| Net Sales | 848.1 | 883.0 | +34.8 | +4.1\% |
| Gross Profit | 63.9 | 66.3 | +2.4 | \% |
|  | (7.54) | (7.52) | (-0.02) |  |
| SG\&A Expenses | 43.6 | 44.4 | +0.7 |  |
|  | (5.15) | (5.03) | (-0.12) |  |
| Operating Profit | 20.3 | 21.9 | +1.6 | +8.1\% |
|  | (2.40) | (2.49) | (+0.09) |  |

(The impact of the newly established Tochigi distribution center in the previous fiscal year YoY (Apr. - Dec.) Gross Profit : + $¥ 0.9$ bn / SG\&A Expenses : - $¥ 0.2$ bn / Operating Profit : + $¥ 1.2$ bn)

## Analysis of Profit and Loss (YoY Apr. - Dec.)

## Net Sales <br> ¥ 883.0 bn <br> YoY change $\quad+¥ 34.8$ bn <br> Rate <br> $+4.1 \%$

## Demand for products related to COVID-19 declined, but measures on sales expanding were effective against the backdrop of driving by increase in people's outings

- Strengthened initiatives through collaboration and cooperation with retailers and manufacturers
- Increase in the selling unit price in line with price hikes and sales expansion of high-value added products
- Strengthened procurement of new products to meet diverse consumer needs
- Despite a decrease in demand for products related to COVID-19,
strong demand for products related to outings due to the increase in people's outings (make-up, quasi drug energy drink, etc.)
- Expanded demand for seasonal cosmetics and health drinks due to increased people's outing as well as intense heat and the lingering summer heat
- Expanded demand for products related to inbound spending due to an increase of tourists to Japan
- Increase in product handling volume due to operation of Tochigi distribution center

## Gross Profit <br> $¥ 66.3$ bn <br> GPM <br> $7.52 \%$ Yoy change + $¥ 3.3$ bn <br> ( GPM : + $0.09 \%$ )

Despite the impact of price hikes and the changes in the product sales mix, gross profit increased centering sales expansion

- Impact of declining demand for masks and other products with relatively high gross profit margin
- Increase in center fee (increased sales for customers that required to pay that, soaring fuel costs, etc.)
- Impact of one-time expenses associated with the establishment of Tochigi distribution center recorded in the previous fiscal year ( $+¥ 0.9$ bn)
- Increase in acquired rebates due to sales expansion

## Analysis of Profit and Loss (YoY Apr. - Dec.)

## SG\&A Expenses $¥ 44.4$ bn $\left[\begin{array}{c}\text { SG\&A ratio } \\ 5.03 \%\end{array}\right] \quad$ YoY change $+¥ 0.5 \mathrm{bn}$ (SG\&A ratio : $-0.14 \%$ )

SG\&A expenses ratio improved significantly due to sales expansion by taking advantage of low-cost logistics and measures to improve SG\&A expenses.
Reaction to the one-time expenses, which were recorded in the previous fiscal years, associated with newly established Tochigi distribution center

- Increase in personnel expenses
$\Rightarrow$ Investment in human capital for mid-to long-term growth (securing human capital, raising wages, etc.)
$\Rightarrow$ Restrained the rise in the SG\&A expenses ratio, due to efforts to improve overall activities in the warehouse even though by an increase in the unit price of part-time employees
- Promoted delivery efficiency improvements (priority issues in the medium-term management plan)
$\Rightarrow \quad$ In an environment where the unit price of delivery costs was rising, worked on improvements such as shortening delivery distances by reviewing logistics base and promoting white logistics movements
- Impact of one-time expenses related to the launch of
- ¥ 0.2 bn ( - 0.08 \%)
+ $¥ 0.8$ bn ( + $0.00 \%$ )
- ¥ 0.2 bn ( - 0.03 \% ) Tochigi distribution center recorded in the previous fiscal year

# Demand continued to grow due to the increase in people's outings thanks to the accelerated trend of breaking away from the COVID-19 era 

## The decrease in demand for infection prevention products was slowing down, <br> the budget-minded consumer spending continued

$\checkmark$ Strong demand for products related to outings due to the increase in people's outings (make-up, quasi drug energy drink, etc.)
$\checkmark$ Decline in demand for infection-related products(masks, disinfectants) was slowing down due to the effect of a spread of the influenza and more
$\checkmark$ Continuing the budget-minded consumer spending, on the other hand, sales of high value-added products were strong Consumption is becoming polarized(into low-priced products and high value-added products)
$\checkmark$ In winter seasonal products, demand for disposable warmers declined due to the warm winter, but demand for cosmetics (lip balms, hand creams, etc.) increased due to an increase in outings
$\checkmark$ Gradual increase in demand for products related to inbound tourists (cosmetics and OTC pharmaceuticals)

## Analysis of Profit and Loss (YoY Oct. - Dec.)

## Net Sales $¥ \mathbf{2 9 9 . 6}$ bn YoY change $+¥ 6.3$ bn Rate +2.2\%

Despite a decrease in demand for products related to COVID-19, demand continued to expand for products related to outings due to the increase in people's outings

- Strengthened initiatives through collaboration and cooperation with retailers and manufacturers
- Increase in the selling unit price in line with price hikes and sales expansion of high-value added products
- Strengthened procurement of new products to meet diverse consumer needs
- Demand for products related to COVID-19 declined, particularly for antigen test kit (OTC), which saw a significant increase in demand in the previous fiscal year
- Strong demand for products related to outings due to the increase in people's outings (cosmetics, OTC pharmaceuticals)
- In winter seasonal products, demand for disposable warmers declined due to the warm winter, but demand for cosmetics (lip balms, hand creams, etc.) increased due to an increase in outings
- Expansion of demand for products related to inbound tourists
- Increase in product handling volume due to operation of Tochigi distribution center

Although affected by changes in the sales composition of products, the reaction to one-time expenses incurred in the previous fiscal year and the successful improvement in gross profit centered on sales expansion

- Impact of declining demand for masks and antigen test kit (OTC) with relatively high gross profit margin
- Increase in center fee (increased sales for customers that required to pay that, soaring fuel costs, etc.)
- Reaction to the one-time expenses, which were recorded in the previous fiscal year, associated with newly established Tochigi distribution center ( $+¥ 0.4$ bn)
- Increase in acquired rebates due to sales expansion

## Analysis of Profit and Loss (YoY Oct. - Dec.)

## SG\&A Expenses $¥ 14.8$ bn $4.96 \%$ YoY change $+¥ 0.0$ bn (SG\&A ratio : $-0.09 \%$ )

Although personnel expenses increased due to investment in human capital, the SG\&A expenses ratio improved due to sales expansion and efforts to improve activities Reaction to the one-time expenses, which were recorded in the previous fiscal year, associated with newly established Tochigi distribution center

- Increase in personnel expenses
$\Rightarrow$ Investment in human capital for mid-to long-term growth (securing human capital, raising wages, etc.)
$\Rightarrow$ Restrained the rise in the SG\&A expenses ratio, due to efforts to improve overall activities in the warehouse even though by an increase in the unit price of part-time employees
- Promoted delivery efficiency improvements (priority issues in the medium-term management plan)
$\Rightarrow$ In an environment where the unit price of delivery costs was rising, worked on improvements such as shortening delivery distances by reviewing logistics base and promoting white-logistics-movements
- Impact of one-time expenses related to the launch of the Tochigi distribution center recorded in the previous fiscal year
+ $¥ 0.2$ bn (+ 0.04 \%)
- $¥ 0.1$ bn ( $-0.07 \%$ )
- $¥ 0.0$ bn ( $-0.01 \%$ )

# Initiatives for Sustainable Growth 

## Optimizing transportation through cooperation among consignor companies

FY2023 Jointly received the Minister of Land, Infrastructure, Transport and Tourism Award, the highest award in the Green Logistics Excellent Business Awards

## Details of initiatives

(Collaborative initiatives with Unilever Japan K.K. and Suzuyo \& Co., Ltd.)
Realization of the switch to direct procurement from manufacturer's plants and bulk transportation by trailer trucks through controlling orders using the order adjustment system

Achieved a reduction in the number of trucks and in reloading operations, shortening transportation distance
$\Rightarrow$ Contribute to reducing the burden on drivers and CO2 emissions

## Promoting the development of the sustainable logistics network to address the "2024 problem" in logistics

## Challenging the reduction of food waste in the retailers

~ Starting to offer the "Al-driven automated ordering system" for stores ~

## Awareness of issues

Expanding the volume of food products handled by drugstores, account for approximately $60 \%$ of our sales
At the same time, urgent issue to reduce food waste has arisen

Changes in the composition ratio of food sales in Drugstores

- Foods

Others

## Details of initiatives

AI analyzes sales volume fluctuations that vary by product, in conjunction with the retailer's enterprise system Derive optimal order quantities and place orders automatically

Reduced the burden of the store operations and reduced the amount of food waste by $10 \%$

> Taking efforts to improve accuracy of order and aiming to solve the social issues of reducing food waste

Due to the "2024 Noto Peninsula Earthquake", two of our large-scale distribution centers were damaged and temporarily unable to ship However, we have gradually resumed shipping from January 15,
while ensuring the safety of our buildings and facilities, and have restored our normal shipping operations on January 26, prior to the disaster

We continued shipment through alternative shipment by using our other distribution centers during the period of suspicion of two centers that were damaged by the earthquake

We will reflect this experience in further strengthening our Business Continuity Plan (BCP) and strive to ensure a stable supply of daily necessities

## FY2024/3 Forecasts

## FY2024/3 Forecasts (Final year of the Medium-term Management Plan)

No revision most recently announced
Calculations are currently underway to determine the impact of the 2024 Noto Peninsula earthquake on business performance
