Notice of Postponement of Release of Results for the First Quarter of FY 2024/9

We originally planned to disclose the Consolidated Financial Report for the Three-month Period Ended December 31, 2023. However, we have postponed this release for the following reasons. We apologize for the delay in the release of the Financial Report.

Notes

1. Reason for the Postponement of the Consolidated Financial Report for the Three-month Period Ended December 31, 2023

In preparation for the announcement of the Consolidated Financial Report for the Three-month Period Ended December 31, 2023, originally scheduled to be released on February 13, 2024, we have been calculating the purchase price allocation (PPA) for FazWaz Thailand Co. Ltd. acquired during the previous fiscal year. However, these calculations have taken longer than expected. Therefore, we have postponed the disclosure of our earnings statements until the necessary calculations have been completed.

2. Schedule

We plan to release the Consolidated Financial Report tomorrow February 14, 2024.
