1. Qualitative Information on Quarterly Financial Results

(1) Explanation of Operating Results

During the nine months ended December 31, 2023, the Japanese economy has seen a trend of gradual recovery, supported by strong consumer spending and demands from inbound tourists after the novel coronavirus infection (COVID-19) pandemic. However, mainly due to the impacts of continuously rising commodity and energy prices, as well as the yen depreciation in the foreign exchange market, the economic future remained unclear. The overseas economy has seen stagnation in recovery from the impact of the pandemic, due mainly to inflationary trends caused by the prolonged situation in Russia and Ukraine, an increase in geopolitical risks such as the situations in the Middle East, and prolonged monetary tightening policies in North America and Europe, as well as concern over the future of the Chinese economy.

Under these situations, the markets of the outdoor, sports, and leisure industry, in which the Group operates, remained stagnant, affected chiefly by the financial pressure on households from soaring commodity prices, as well as diversifying ways to spend leisure time with the increased popularity of travelling, shopping, and a variety of other sports and leisure activities.

In such conditions, as "A Lifetime Sports Company," the Group has been providing attractive products and high-quality services for everyone who loves nature and sports. However, with impacts including the slowing demand for outdoor, sports, and leisure goods, such as fishing goods, and an increase in inventory levels, for the nine months ended December 31, 2023, net sales were 96,488 million yen (down 8.9% year on year). As for profit, due to a decrease in revenue which led to a decrease in gross profit and an increase in expenses, such as personnel expenses, operating profit was 8,386 million yen (down 34.1% year on year), ordinary profit was 8,811 million yen (down 33.4% year-on-year), and profit attributable to owners of parent was 6,223 million yen (down 35.4% year on year).

Operating results by segment are shown as follows. Net sales of each segment include inter-segment sales and transfers.

Japan

In Japan, the outdoor, sports, and leisure markets remained weak partially due to financial pressure on households from rising energy and commodity prices, as well as an increased variety of leisure consumption to include travel and others caused by the relaxation of movement restrictions. Under such circumstances, the Group launched new products and provided services to satisfy our customers, for example, a spinning reel "AIRITY" and a bass rod "STEEZ RC" in fishing, and "ONOFF KURO" in golf. However, net sales were 61,841 million yen (down 8.2% year on year), and segment profit was 4,985 million yen (down 36.7% year on year) due mainly to a decrease in revenue which led to a decrease in gross profit.

Americas

In the Americas, the continued high inflationary pressure has kept raising concerns regarding the resulting economic impact during normalization of the economy. Under such circumstances, although the Group made efforts for expanding sales mainly in bass fishing goods for the U.S. market, net sales were 10,134 million yen (down 11.5% year on year), while segment profit was 272 million yen (up 0.1% year on year).

Europe

In Europe, high inflationary levels arising from the prolonged situation in Russia and Ukraine have squeezed household economy, also affecting private consumption. Under such circumstances, since products that catered to local needs continued to be launched, net sales were 11,378 million yen (up 1.9% year on year). However, segment profit was 201 million yen (down 62.4% year on year), chiefly owing to an increase in expenses, such as personnel expenses.

Asia and Oceania

In the Asia and Oceania region, the socioeconomic situation varies among countries. However, the outdoor, sports, and leisure markets showed signs of a slowdown due to a downturn in consumer confidence as interest

rates and commodity prices notably increased also in Asia. Under such circumstances, although the Group worked to expand sales mainly in high-class Japanese-made products and goods exclusively for a local area, net sales were 37,357 million yen (down 14.3% year on year), and segment profit was 5,181 million yen (down 26.0% year on year).

(2) Explanation of Financial Position

Total assets at the end of the nine months ended December 31, 2023, amounted to 113,164 million yen, an increase of 4,130 million yen from 109,034 million yen at the end of the previous fiscal year. The increase is mainly due to increases in inventories and property, plant and equipment.

Net assets amounted to 56,559 million yen, an increase of 9,073 million yen from 47,485 million yen at the end of the previous fiscal year. The increase is due to recording profit attributable to owners of parent, as well as fluctuation in foreign currency translation adjustment.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-Looking Information The financial results forecast for the fiscal year ending March 31, 2024 has not been revised from the forecast announced on August 9, 2023.
