**Notice Concerning Building-Housing Energy-efficiency Labelling  
System (“BELS”) Certification**

Japan Logistics Fund, Inc. (hereinafter referred to as “JLF”) announced today that 5 properties listed below have received Building-Housing Energy-efficiency Labelling System (“BELS”) Certification.

**1. Overview about the BELS**

BELS is a third party certification system in Japan that displays the energy saving performance of buildings. From April 2016, real estate companies (and others) are required to strive to display the energy-saving performance of buildings based on the Act on the Improvement of Energy Consumption Performance of Buildings (“Building Energy Efficiency Act”). The concrete display method is stipulated in the guidelines for energy saving performance display of buildings, BELS is evaluated based on the same guideline, and the evaluation result is represented by a number of stars (one star “★” to five stars “★★★★★”).

A Net Zero Energy Building (“ZEB”) is a building that aims at zero energy balance with considerably reduced annual energy consumption by saving as much energy as possible via better heat insulation, solar shading, natural energy and high-efficiency equipment, coupled with creating energy by photovoltaic power generation (or other energy generating methods), while maintaining a comfortable environment.

In addition, in the BELS certification system, it is possible to obtain certification according to the level of ZEB, 『ZEB』, Nearly ZEB, ZEB Ready, and ZEB Oriented. It is evaluated in 4 stages.

## 3. Future Measures

With the acquisition of BELS Certification, the percentage of portfolio with green building certification obtained by JLF is now 88.2%, and JLF expected to achieve its target for acquiring green building certification (acquisition ratio of 85% or more in FY2023). JLF is conscious of fulfilling its social responsibilities such as consciousness to the environment and contribution to society, and will continue to implement sustainability practices, such as environmental and energy-saving measures for its logistics properties.

Percentage of portfolio with green building certification  
(as of February 29, 2024)

Type of certification	Number of properties	Total floor area under the Building Standard Law (m <sup>2</sup> )	Percentage of portfolio (by area)
Certification for CASBEE for Real Estate	43	1,217,837.30	81.1%
BELS Certification	21	635,851.85	42.3%
CASBEE Certification for Buildings (New Construction)	1	41,968.06	2.8%
Percentage of portfolio with green building certification	47	1,325,077.28	88.2%

\*Some properties have multiple certifications, so the total of the figures for each certification does not equal the figure for the "Percentage of portfolio with green building certification".
