JCI will continue to strive for sustainable growth based on its business strategy centered on three pillars: Mobile Communication (SIM) Business, Local 4G/5G Business through Local Mobile Networks, and Digital ID (FPoS) Business for Use on Smartphones.

About Japan Communications Inc. (JCI)

Japan Communications Inc. is the mobile solution innovator that has created the MVNO industry with its vision since its establishment in 1996. In today's world, where digitalization is advancing and everything is connected through networks, our patented technology, the Personal Wireless Leased Line, has obtained PCI DSS certification, an international security standard, for all its main systems. This technology is adopted in fields that require high levels of security, such as banks, and credit card companies. Furthermore, JCI is building a common platform for secure and reliable digital IDs that provide the highest level of security without compromising convenience. This enables the provision of safe and convenient services for the entire society, including financial transactions using smartphones. We continue to embrace our challenger spirit, aiming to provide a safe mobile environment as a social infrastructure.
