Concept

Nara Daianji store is located on a busy road in the center of Nara City, facing high traffic. It will be the first store to open, benefiting from the city's population of approximately 360,000 and its proximity to the well-known "Daianji" temple. This marks our 15th store in the Kansai region, our 116th company-owned store, and our 130th KeePer LABO. The facility includes four coating booths and four washing/finishing areas, allowing for all-weather operations indoors. Additionally, a guest room with counter seating allows customers to observe the process. Being co-located with Car Shop Jms, customers waiting for KeePer LABO services can explore Jms' offerings or take advantage of car washes and coatings while visiting Jms for services like inspections and tire changes.
